THE DAILY CLARION

RELIGIOUS NOTICE.—The Catholic Community of Jackson have removed their place of worship to the City Hall, where divine service will be celebrated next Sunday at the usual hours. Turn to your right as you enter the City Hall.

P. HUBER.

☞ The advertisement of the Great South ern and Western Life and Accident Insurance Company of New Orleans, to be found in another column, is worthy of the attention of all. The names of the board of directors are a sufficient guarantee of the reliability of this enterprise. All risks and accidents are insured against in this company, and no examination is necessary. Messrs. Barrows & Smythe are now prepared to issue policies of any description.

☞ We had the pleasure yesterday evening of meeting our distinguished countrey of the Vicksburg Herald, Maj. J. M. Patridge, who accompanies Gov. Humphreys on a visit to New Orleans. The Governor's trip is for the purpose of representing the interest of the State in the affairs of the N. O., J. & G. N. R. R.

☞ We have only space to invite the earnest attention of the press and the people of our State to the earnest appeal in behalf of the "Orphans' Home" which we publish in our present issue.

☞ At the coming Grand Exposition at Paris, the principal building is to be surrounded by images in the different styles of the different nations of the world, to be occupied by natives of all the various countries of the globe. We have not heard whether Mississippi is to be represented, but if it is, we venture to recommend the Bowman House as a model for the chastity of our commissioners. There is an excellent photograph of it at the Washington gallery, which, if forwarded in time, could be used in the erection of the building.

☞ A "crowbered" paper has been started in Richmond called the "New Nation." The Examiner thinks the title of the paper all right except the first syllable.

☞ If the white papers of Richmond quote the New Nation at all, we think they will confine themselves to the simple credit "Nation," or perhaps "nation," and pick out such passages as these:

"Our trust is in a higher power, and our prayer what (?) in you is dark illumination."

"When the history of these times shall be finally written and the verdict of an impartial posterity made up, the world's decision will be that there have been few such patriots as John W. Forney, D. D—nation."

"Though the former slaves of the proud aristocrats of Virginia no longer lounge in lordly halls, yet in their humble shanties or exposed to the open sky, they are free; and may say, here feel we but the penalty of Adam—nation."

The Richmond Examiner says one can easily put a five cent loaf of the bakers in that city, in each cheek, a ten cent loaf in the middle, and then whistle Yankee Doodle without difficulty.

And yet the correspondents of the Radical press pretend that nobody can whistle Yankee Doodle in the South, without involving himself in a very serious difficulty.

☞ The editor of the Selma Messenger took a trip to the canebrake region of Alabama and in an article upon the cotton crop, indulges in the following:

"The breadth of land in cultivation was estimated by those with whom we conversed at about two thirds of that usually planted before the war. This estimation was made by gentlemen residing in the best portion of the canebreak, we mean in that portion which is best off as to the number of laborers. Nevertheless, we heard of entire plantations of very fine land lying out of cultivation. The number of black laborers has largely decreased, and that of former years, while there has been considerable addition of white laborers drawn from other sections of the State where cotton was not usually grown. Most of the field labor is now performed by men, the women regarding it as the duty of their husbands to support them in idleness. These with the children, constitute, however, a reserve force which may be profitably employed in picking time.

"The prevailing feeling among the laborers seems to be one of contentment with their wages, and most of them are laboring industriously. The planters also are hopeful, and being generally new men, have accepted the situation, and are determined to prove by means natried to produce a heavy crop. Most of them being renters, do not plant corn, as they do not expect to remain on the same places another year, and hence almost the entire breadth of the soil will be placed in cotton.

"Well, what conclusion do you come to? The article is very much after the style of the showman, who, upon being asked by a visitor if a certain animal was a hippopotamus or an elephant, replied, "You've paid your money, you can take your choice."

DR. SAMUEL GILBERT'S

PREPARATIONS.

DR. SAMUEL GILBERT, so celebrated as having had for the last twenty-five years, in the treatment of

CHRONIC DISEASES,

the most lucrative Medical Practice in the South, has at last consented to allow several of his most esteemed remedies to be prepared and used as proprietary medicines. This resolution has been exercised by the repeated solicitations of those who have experienced the benefit of his remarkable professional skill, and by the impossibility of giving especial attention to each of the written applications made to him for prescriptions by those whose pecuniary circumstances or business habits preclude the possibility of applying in person to him.

THE PUBLIC

May rest assured that the manufacturers spare neither pains nor expense in the preparation of these remedies. They are made of the very best medicines known, in a highly concentrated form, upon strictly scientific principles.

DR. SAMUEL GILBERT'S

GENERAL ALTERNATIVE

Acts directly upon the Glands and Mucous Membranes, stimulating them to additional activity in their natural functions of eliminating from the Circulating Fluids the usual Effete and Morbid Matters, and expelling them through the Skin, Kidneys, Liver and Alimentary Canal from the system. It is, therefore, adapted for the relief of chronic diseases affecting those organs, and of the mucous membranes lining them such as

ERUPTIONS, TETTER, ULCERS, SCROFULA,

JAUNDICE GOITRE,

CHRONIC INFLAMATION OF BLADDER AND UTERUS, ETC.

It is particularly useful in Suppressed Menstruation, Hereditary Taints, Syphilis, and maladies arising from long continued use of Calomel, Blue Mass, Corrosive Sublimate, Fowlers solution, Iodoures solution, and other preparations of mercury and arsenic.

DR. SAMUEL GILBERT'S

TETTER OINTMENT

Is a most excellent preparation for the cure of that class of maladies usually termed

DISEASES OF THE SKIN,

and which are popularly known as Chronic eruptions, Tetter, Pimples, Blisters, Scaly Scald Head, Milk crust, Ring-worm, etc., etc.

It will also kill Itch and other local vermin which prey upon the skin. It softens and detaches the encrusted portions matter deposited upon the skin, heals the cracks, blisters, and pimples, and renders the cutaneous surface smooth and pliable. It has been used by Dr. Gilbert with most satisfactory results for many years. It is offered for sale, in this style, from the firm conviction that it must necessarily meet with the hearty approbation of those who make use of it.

Full directions for the method of using these remedies, a plain and accurate description of a number of the different varieties of skin diseases, and many valuable suggestions in regard to their cure, will be found printed on circular accompanying each package. These suggestions are the fruit of most ample experience enjoyed by Dr. Samuel Gilbert during his extraordinary professional career in the treatment of this class of diseases in the cities of Memphis, New Orleans and New York, and will, it is expected, enable most unprofessional persons to treat their own cases with much greater success than that which usually falls to the lot of ordinary physicians.

DR. SAMUEL GILBERT'S

HEALING OINTMENT

Possesses peculiar tonic and astringent qualities which cause it to be admirably adapted to the cure of

Various Kinds of Ulcers.

Especially those which are of an indolent nature, and which are usually designated as "old sores." It is confidently believed to be much superior to any other preparation made for similar purposes.

Full directions for its application, and a plain and accurate description of a number of the different varieties of ulcers, and valuable directions in regard to their cure, will be found printed on the circular accompanying each box, which remarks, it is hoped, will enable most unprofessional persons to treat their own ulcers with much greater success than is usually experienced from the attention of ordinary physicians.
