Connecticut Landmark Burns.

NEW HAVEN, Conn., Dec. 12.—A house of unique design typifying early Connecticut architecture, which stood on the West Shore, in Woodmont, and which was the Connecticut Building in the group of State Buildings at the Chicago Fair in 1892, was burned to-day. Michael Mullen, the caretaker, lost his life.

ACIDS IN STOMACH CAUSE INDIGESTION

Create Gas, Sourness and Pain. How to Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc. are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestents are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist a few ounces of Bisurated Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.—Advt.

SYNOPSIS OF NEW LAWS

Latest Decisions of the Courts of Last Resort

Compiled by William McMahon.

Published in The Evening World on Wednesdays and Saturdays.

To render contingent fee contract of attorney and client invalid, there must be an abridgement of the client's right to settle his claim. A contract between attorney and client, permitting settlement, if approved by client and a 25 per cent. fee, or a 50 per cent. fee in case of suit, is not void as contrary to public policy.—McClain v. McFarlane, 206 S. W. 38.

If a carrier failed to exercise the highest degree of care, and its train gave a certain jerk or jolt, which caused a passenger, while on platform, to fall into a window and break the glass, with resultant injuries, the carrier is liable.—McDermott v. L. & N. R. Co., 206 S. W. 6.

A man inducted into the service under the Selective Draft Act, but who was a few days afterwards discharged through error, held, properly classified in the same position he occupied before the error was committed.—Ex-parte Fisher, U. S. D. C. of N. J.

In the absence of fraud, a trustee takes the property in the same plight and condition, and subject to the same liens and equities, as when the bankrupt held it.—In re. Roseboom, U. S. D. C. of N. Y.

The question of the sovereignty of a foreign government is a political question determination of which by the executive or legislative department of the United States Government binds the judicial department.—Agency Canadian Car & Foundry Co. v. Amer. Can Co., U. S. D. C. of N. Y.

Under Sabotage Law, April, 1918, providing that whoever, in times of war, destroys war material, or whoever willfully attempts to make or causes to be made in a defective manner any war materials, a conviction can be had for an "attempt," where the evidence shows a willful advising, soliciting and attempt to influence another to commit the felony named in the act.—U. S. v. De Bolt, U. S. D. C. of Ohio.

The enactment of Food and Drugs Acts was not such an exercise of power of Congress to control drugs in commerce as to render invalid the Sanitary Code of the City of New York, requiring disclosure of ingredients of patent medicines, and providing punishment for violation thereof.—E. Fougera & Co. v. City of N. Y., 120 N. E. 642.

The duty of a husband to support his wife does not continue while she, without just cause, remains away from the home he provides for her.—Wirth v. Wirth, 172 N. Y. S. 307.

Where a patient became too ill to attend physician's office and receive treatments for which he had paid physician in advance, physician, having incurred no expense in preparation for giving the treatments prior to patient's disability, was required to return money so received.—Bucklin v. Morton, 172 N. Y. S. 414.

An injured employee who fails to present a claim for compensation to the commission within one year, as required by Workmen's Compensation Act, is thereafter barred from obtaining compensation for his injuries.—Twonko v. Rome Brass & Copper Co., N. Y. Court of Appeals.

Where testator left corporate stock in trust, and directed trustee to apply profits to use of designated beneficiaries, he will be presumed to have intended that which the directors of the corporation distributed to stockholders without intrenchment upon capital should go to beneficiary.—U. S. Trust Co. of N. Y. v. Heye, N. Y. Court of Appeals.

BABY BORN IN SUBWAY.

Actress Gives Birth to Son In Brooklyn Station.

A ten-pound boy baby was born to Mrs. Evelyn Adams, an actress, of Atlanta, Ga., early to-day in the subway station at Fourth Avenue and 59th Street, Brooklyn.

Mrs. Adams became ill on a train. A patrolman summoned an ambulance and, after the birth of the child, Mrs. Adams was taken to Kings County Hospital.

Town Expels Negroes After Lynching.

OGDEN, Utah, Dec. 12.—Negro refugees from Green River, Wyo., arriving here to-day, declared that all colored men, women and children had been ordered to leave that town following the lynching Tuesday of Edward Woodson, a negro, charged with killing a railroad switchman and wounding another.

Col. Roosevelt's Condition Good.

Col. Theodore Roosevelt's condition was reported as highly satisfactory at Roosevelt Hospital this morning.

If He Drinks

Give Him TESCUM POWDERS Secretly

Any mother, wife or sister can stop the Drink Habit, if she wants to do so. Thousands of women are happy to-day, because they gave their husbands, sons or brothers "Tescum Powders." The powders are tasteless and harmless and can be given in either liquid or solid food.

You take no risk, as Tescum Powders are sold under a steel-bound, money-refund guarantee by all up-to-date druggists.—Advt.

... and at all 6 stands in the Capitol building

A fact:

The 6 tobacco stands in the Capitol building at Washington are patronized mainly by the big business and professional men from all sections of the United States who are constantly coming into and passing out of Washington.

At each one of these stands more Fatimas are sold every day than any other cigarette, regardless of price—which seems to show that the preference for Fatima is really nation-wide.

Liggett & Myers Tobacco Co.

FATIMA

A Sensible Cigarette

Men who think straight and decide quickly like a cigarette that, besides pleasing their taste, leaves them feeling fit throughout the day.

Every Good Physician Ought to Prescribe Nuxated Iron

OR SOME FORM OF ORGANIC IRON, SAYS DR. FERDINAND KING, NEW YORK PHYSICIAN AND MEDICAL AUTHOR, IN CERTAIN CASES

To Create Red Blood, Strength and Endurance

Says Sworn Statement of Composition of Formula of Nuxated Iron Printed Below, Should Convince Every Physician and Pharmacist, No Matter How Skeptical, That It Is a Product of Greatest Therapeutic Value.

Both the medical profession and the public at large should give great credit to the manufacturers of Nuxated Iron, says Dr. Ferdinand King, New York physician and medical author, on account of their voluntary act in authorizing the widespread publication of the sworn statement of the composition of the Nuxated Iron formula in newspapers and magazines for the information of the public and for their generous offer to send a signed typewritten copy of the exact formula to all physicians and others interested.

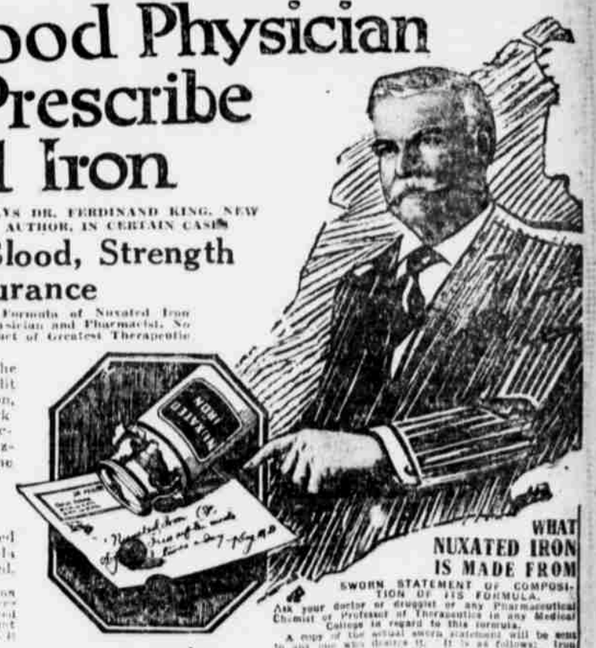
Dr. King further says: "A careful examination of this valuable formula should not only convince the three million people who it is estimated are now using it annually in America alone, that they have made no mistake in selecting it, but it should also convince every physician and pharmacist that it is a product of greatest therapeutic value which the general practitioner can prescribe almost daily in his practice with remarkable benefit to his patients and one which, in my opinion, every good physician should at times prescribe if he wants to do the greatest possible good to those who consult him. There is, I believe, no form of iron which is so reliable as that particular special specific standard which is used in Nuxated Iron, and if a physician has a patient whose condition is such that requires iron, I would most earnestly suggest that no matter what other forms of iron he may prescribe without success, that he should try that particular form used in Nuxated Iron.

"Pale men lack no strong, sturdy iron men are healthy, rosy-cheeked without iron. Pallor means anemia. Anemia means iron deficiency. The skin of anaemic men and women is pale, the flesh flabby, the muscles lack tone, the brain fags and the memory fails and they often become weak, nervous, irritable, despondent and melancholy.

"Therefore, if you wish to preserve your vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."

Dr. James Francis Sullivan, formerly physician of Bellevue Hospital, Outdoor Dept., New York, said: "I have taken Nuxated Iron myself and prescribed it for my patients, and I can truthfully say that it exerts a better effect than any preparation I have ever used for building up delicate, nervous, run-down folks and increasing the red-blood corpuscles, thereby enriching and invigorating the blood, against the ravages of disease. Contrary to general opinion, lack of iron in the blood does not necessarily mean you do not have enough blood, but it means your blood is not of the right kind.

"If you feel tired in the morning, restless at night, if you suffer from weakness or lack of vitality, go to your family doctor and have him take a specimen of your blood and examine it, and if it shows iron deficiency, get him to give you a prescription for organic iron—Nuxated Iron. Do this as sure as he says that you do not get half of some of the numerous forms of metallic iron preparations on the market, which may do you more harm than good. Or if you do not want to go to this trouble, purchase an original package of Nuxated Iron and see for yourself that the words Nuxated Iron appear on the package. Not Nux and Iron, nor any other form of iron other than Nuxated Iron."



WHAT NUXATED IRON IS MADE FROM

SWORN STATEMENT OF COMPOSITION OF ITS FORMULA.

Ask your doctor or druggist or any Pharmaceutical Chemist or Professor of Therapeutics in any Medical College in regard to this formula.

A copy of the actual sworn statement will be sent to any one who desires it. It is as follows: Iron Peptonate (Special Specific Standard), Quantity given below. Sodium Glycerophosphate U. S. P. (Monsanto). Calcium Glycerophosphate U. S. P. (Monsanto). P. D. Nux Vomica U. S. P. Extractive Bitter. Magnesium Carbonate. Pulv. Ginger U. S. P. (in) Cassia Cinnamon U. S. P. Calcium Carbonate Precip. U. S. P. Each dose of two tablets of Nuxated Iron contains one and one-half grains of organic iron in the form of iron peptonate of a special specific standard, which in our opinion possesses superior qualities to any other known form of iron. By using this form of Iron Peptonate we could have put the same quantity of actual iron in the tablets at less than one-fourth the cost to us, and by doing metallic iron we could have accomplished the same thing at less than one-twelfth the cost, but in so doing we must have most certainly impaired their therapeutic efficacy. Glycerophosphates used in Nuxated Iron is one of the most expensive tonic ingredients known. It is especially recommended to build up the nerve force and therefore increase brain power, as glycerophosphates are said to contain phosphorus in that particular state so similar to that in which it is found in the nerve and brain cells of man.

As will be seen from the above, two important ingredients of Nuxated Iron (Iron Peptonate and Glycerophosphates) are very expensive products as compared with most other forms.

Under such circumstances the temptation to adulteration and substitution is very great and the public should be careful and see every bottle is plainly labeled "Nuxated Iron" by the Dae Health Laboratories, Paris, London and Detroit. U. S. A., as this is the only genuine article. If you have taken other forms of iron without success, this does not prove Nuxated Iron will not help you.

Manufacturers' Note: Nuxated Iron, which is presented and recommended by physicians and which is now being used by over three million people annually, is not a secret remedy but one which is well known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated, does not injure the teeth, make them black, nor upset the stomach. The manufacturers guarantee successful and satisfactory results to every purchaser or they will refund your money. It is dispensed by all good druggists.

Dr. George F. Baker, formerly Physician and Surgeon in Monmouth Memorial Hospital of New Jersey, says: "During convalescence from SPANISH INFLUENZA (La Grippe) I find Nuxated Iron to be of great benefit."—Advt.

The Sunday World's Want Directory makes more "Offers or Positions" than any other two mediums in the universe.
