EMERSON, ALLEN & MANNING'S
Minstrel Combination.

An entire change of Programme.

FREE EXHIBITION on the Gallery from 7 to half-past 7 P. M., every evening, the PANITHIOPOTICONICA; or, Illuminated Pictures, selected from the Polytechnic Institute, London, and the Paris Exposition.

Festival Every Saturday at 12 M.

The Management in presenting to the Ladies of New Orleans this splendid combination of Minstrel Talent including in its organization the world renowned Artists, BILLY EMERSON, JOHNNY ALLEN and BILLY MANNING, have endeavored to concentrate in one entertainment an array of performers unequaled in the country, and one which, from their long experience as caterers of amusements in this city, guarantees the assertion that it will please the most fastidious. The Management wish it express y understood that the same strict discipline in the interior of the Theater will be adhered to and no deviation from the old established rules will be allowed under any circumstances.

The SATURDAY MATINEES will be conducted as usual, solely for the amusement and comfort of Ladies and Children, who have made it, by their constant attendance, the only successful Matinee Theater in the South. The Academy during the Summer has been thoroughly renovated, redecorated and repainted, the vestibule enlarged, making it the most complete and commodious place of amusement in the city, for ingress and egress, which, with the powerful Steam Fire Engine, and great supply of water in every part of the house, secure the safety of the audience from fire at all times. The building having been repaired every season for the past five years, at a cost of thousands of dollars, is comparatively new, not having been left from year to year to crumble away by degrees, and endanger the safety of its patrons. The walls are solid and substantially made; the roof thoroughly and firmly built, and a strict examination, according to law, by the authorities, made every year, resulting in its being pronounced the safest place of amusement in the city, and never having been condemned as an unfit place for a large gathering of people.

It is the only Theater in the South warmed in winter and cooled in summer by powerful patent machinery. The present company has not been organized for years, necessarily greeting the eye and ear with the worn out hackneyed isms, but placed before the public during the present century, thereby enabling the management to present all the new and popular sensations of the times.
