PURE WATER.
DIAPHRAGM FILTERS.

JENNISON'S PATENT, 1845.—Office removed from 334 to 349 Broadway.

These Filters, not larger than a pint measure, can be readily and without expense, attached to any hydrant or pipe conveying water, and will yield a steady stream of pure water, equal to one hundred gallons per hour, under the pressure of the Croton, more than enough for the culinary wants of the largest families, even for washing clothes, to which it imparts a pearly whiteness not otherwise obtained. It separates with equal certainty and dispatch all the animal, vegetable and earthy matter found, despite of all possible precautions, in every distributing channel of the Croton, Schuylkill, Mississippi, and other river water. They are also constructed for filtering fluids for manufacturing purposes and water for steam engines, &c. &c.

They are ornamental and will last for years, are not liable to get out of repair, or subject to damage from frost, and will prevent the pipes from bursting. They have the merit of cleansing themselves, by the simple act of changing them end for end once or twice a week, depending however on the quantity of water used, and the impurities contained in it; they are designed for filtering water under any circumstances and degree of pressure.

The necessity of filtering river water, and the efficiency of the Diaphragm Filter, bears the endorsement of the Physicians and Chemists of the cities of New-York and Philadelphia, and the approbation of the American Institute, by awarding to Mr. Jennison a Gold Medal at the Fair of 1845, and a Gold Medal for improvements, at the recent Fair of 1846, which improvement consists of porous, artificial Rock for the filtering medium.

They are exhibited in operation and are for sale at 349 Broadway, N. Y.; 7s Walnut-st. Phila.; 3 South-st. Baltimore; 45 Washington-st. Boston; and other cities of the United States.

The officers of the Army and Navy, and masters and owners of vessels, are invited to see the above and other appliances for filtering water; also—Force-Pumps, Hose, &c.

From the facilities in their manufacture, and the increasing demand, the proprietor is enabled to afford them at from $3 to $5 each. WM. H. JENNISON.

Manufactory 65 Frankfort-st. for the proprietors.

P. S.—Since the introduction of this Invention, a number of imitations have been presented to the public, which are deemed infringements upon the Patents for the Diaphragm Filter. Notice is hereby given, that suits at law will be commenced against those who manufacture, or offer for sale, any infringement. Purchasers of them are also liable to a suit at law. my20 1mW&S*

WASHING AND IRONING.—Families or single Gentlemen ... done at 394 Broadway, in the basement, by a respectable woman, who can produce good reference if required. je10 2t*

Medicines.

A VERY IMPORTANT COMMUNICATION TO ALL PERSONS IN ALL PLACES.

At all times, AND UNDER ALL CIRCUMSTANCES!

IF YOU ARE SICK, get cured; if well, employ measures to continue so. Every individual indulges in habits, which must, to a greater or lesser extent, disarrange the admirable and intricate combinations which form the system, and consequently EVERY INDIVIDUAL should possess some mild, yet efficacious, simple and accredited agent for preserving all the functions of the body in good order.

DR. WOOD'S SARSAPARILLA AND WILD CHERRY BITTERS will achieve this result, and should be in every family, and in the hands of every person, who, by business, profession or general course of life, is predisposed to the very many little ailments that render life a curse, instead of a blessing, and finally result, in their aggregated condition, in the cause OF DEATH.

The Bitters here mentioned are compounded by a man of great skill and knowledge, from the simples Nature presents to those who care to find them, and which are the only reliable antidotes to the poison of disease. The chief ingredients are the universally beloved *Sarsaparilla* and the *Bark of the Wild Cherry Tree*, with which the red man of the forest cures nearly every disease of the internal organs. These materials, though powerful in their action, are as common sense teaches us, ENTIRELY HARMLESS; and prepared as they are here, one of the *greatest national operatives* in the inhabitable globe. By taking these BITTERS, the *scrofulous* may be restored to beauty, and avoid the sharp knife of the surgeon; for they not only eradicate pimples and tumors, but overcome CANCER AND KING'S EVIL!

Whoever is subjected to the terrors of *Constipation*, should at once purchase this *sure remedy*. In the train of Costiveness follow a *woeful local congestions*, ulcerations, insanity, very frequently *mania or hypochondria*, violent *headaches*, *palpitations*, and other affections of the heart, and *rheumatic swellings*. Dr. Wood's Compound is one of the most efficient medicines in routing these complaints, and their fountain head, that can possibly be procured.

From being confined in close rooms, and from taking a small modicum of exercise, numerous persons daily are made to deplore a *loss of appetite*, painful *headaches*, *weakness of the muscles*, *languor*, *want of energy* sufficient to permit them to seek recreation, &c. &c. These persons say for years, that they "don't feel very well." If they do not employ a method by which they can *feel* QUITE WELL, they eventually sink under a severe fit of illness, and are SAVED FROM THE GRAVE only by a miracle, and even then the *lancet*, *leech*, *blister* and *calomel* have left them mere shattered hulks, full of aches and sorrows, and not only a pest to themselves, but a source of disgust and annoyance to all with whom they come in contact. All these FEARFUL CONSEQUENCES may be avoided by an early application of the virtues of these BITTERS. For the truth of this, the proprietor pledges his word and honor, and in evidence can show files of undoubted certificates which he has received, unsolicited from all quarters. He does not, however, ask the invalid to swallow his certificates, but his BITTERS, and is willing to stake all he holds dear on earth in favor of their worth.

THE DYSPEPSIA, in either a *modified* or *severe form*, will disappear before the qualities of *Dr. Wood's preparation*, and the cure may be relied on as a *permanent one*. Did the BITTERS possess no other recommendation, it would be one of the finest vegetable compounds medical science can invent; but it is equal to the complete eradication of LIVER COMPLAINT, in every shape, and of every affection, *minor or gigantic*, of the biliary apparatus. Individuals who are constitutionally bilious ought regularly to take this mild agreeable and excellent TONIC AND APERIENT, as it will diffuse health throughout every fibre of the frame, and send happiness and love of life thrilling to the heart. *Families ought to keep it on hand.*

Every medicine chest on board ship should also be well stocked with this capital remedy, as ☞ SCURVY ☜ cannot afflict those who take it, or long resist its vigorous assaults. ALL IMPURITIES OF THE BLOOD vanish before it, and the old relics of early imprudence invariably disappear, soon after being submitted to its action. *Every complaint* of the stomach is broken by it. THE BITTERS have in no instance failed of curing JAUNDICE, GENERAL DEBILITY *every disorganization of* THE NERVOUS SYSTEM.

By neglecting the little inroads made upon the latter a vast portion of our fellow beings are rendered extremely miserable—so miserable, indeed, that they wish to die. Every bottle of "Dr. Wood's Sarsaparilla and Wild Cherry Bitters" contains a modicum of joy and content for each of these anxious and imprudent sufferers. Remember that an injudicious use of mercury is inevitably productive of many evils which are put to flight by this glorious and unsurpassable compound; and that afflictions which are HEREDITARY may speedily and safely be shuffled off through its agency. As a medicine which must benefit EVERYBODY, from the SIMPLY delicate to the CONFINED AND DESPAIRING INVALID, no equal is to be found for it. It would be well to bear in mind that *prevention is infinitely more desirable than cure*, and that *Dr. Wood's Sarsaparilla and Wild Cherry Bitters* ARE BOTH.

WOODBRIDGE'S IMPROVED Patent Bank Lock.—In offering this lock, the subscriber wishes an impartial public to judge of its claims to superiority.

It is of the first importance that a lock should be safe.—The great progress in the art of lock picking has rendered locks wholly unsafe which were recently considered perfectly secure, and shows the necessity of a *radical change of the principles* on which they are constructed. In view of this fact, the subscriber sought for a principle of perfect security, and, fully confident that he had found it, proceeded to make practical use of it.

His first trial was unsuccessful, (as the public have been extensively informed, although in mis-stated terms,) but with undiminished confidence in the original principle, he corrected the mechanical defect which had caused his failure, and resubmitted it to the most rigorous possible test. It was placed on a safe in the Merchant's Exchange, and a reward of FIVE HUNDRED DOLLARS was offered to any person who should pick it or unlock it *with the key, with the privilege of previous free examination of the lock*, thus giving every advantage the maker of the lock could have; and the offer was extensively advertised. To this test it was publicly exposed for six weeks (ending on Friday last), during which time it was thoroughly examined, and so utterly hopeless was any effort to open it, that no one made the attempt.

The offer of an examination of the lock to be operated on, and the use of its key, is wholly unexampled, and no other lock offered to the public was ever submitted to this test, which alone is fully adequate to determine the complete safety of a lock.

Next in importance is, certainty of operation. The recent cutting down the door of a Bank in this City, is evidence in point. The simplicity of its construction, and the manner in which its motions are produced, combine to render the action of this Lock certain.

It contains none of those complications which have been added to other Locks to increase their safety, and is the *only Lock in which all the movements are performed by the direct action of the key*. No part is dependent on springs or gravity, for its motion, as is the case with the other Locks now in use.

The simplicity of its construction also contributes to its durability. To demonstrate the durability, a Lock was put in motion by steam power, and was locked and unlocked in a few days, sufficiently for fifty years daily use, and hardly showed marks of having been used at all.

It may be added to this, that to this lock was awarded the first Premium at the last Fair of the American Institute.

The Prices are comparatively moderate, especially when considered in connection with their safety. Each lock is accompanied with two keys. Price of the largest size $200; medium size, $125; for Safes and Stores, from $8 to $15. The lowest priced locks are made on the same principle, but with *solid keys*. W. E. WOODBRIDGE.
