The Magnolia Washing Machine
Will do your washing with one-half the labor, less soap and no more water than you usually use; will save the cost of the Machine in the wear of clothes and in fuel in less than one year; makes no slop; does away with the necessity of standing over a steaming tub, and prevents the washer from inhaling the steam of filthy soap suds, also from getting wet, and will in many instances be the means of preventing sickness and saving a doctor's bill.
An improved COG-WHEEL WRINGER is attached to the Machine, and is made of India Rubber Cylinders, and wrings the clothes almost ready for ironing.
