NEW-YORK TRIBUNE.

The Carlisle Riot—Prof. McClintock—Testimony of the Southern Students.

The first account published by us of the late riot at Carlisle, Pa. (copied from a Maryland paper) was grosely inacurate in some of its statements, particularly in those relating to the conduct of Prof. McClintock—These errors, however, were subsequently corrected by the publication of a fair and reliable statement of the facts from the Philadelphia North American. We now insert the following paper, which has received the signatures of the Southern Students connected with Dickinson College:

The undersigned, being Southern students of Dickinson College, observe in the Philadelphia "Ledger" of the 1st inst. an account of the late riot in Carlisle, taken from the "Hagerstown News," which demands a notice. It is there said that a number of the students of Dickinson College who were from the South took an active part "in aid of the owners of the slaves." 2d. That one of the students was slightly wounded. 3d. That "Prof. McClintock, of Dickinson College, was particularly conspicuous in urging the negroes to an attack." 4th. "That a meeting of the Southern students was called in reference to Prof. McClintock's behavior on the occasion—and it is supposed that they will demand his removal from the institution or withdraw themselves." These assertions, we are satisfied, are all false; and whether made designedly, for the purpose of injuring ourselves or Prof. McClintock, they call for a denial.

At the time of the riot (Wednesday afternoon) the two literary societies, to which all of the students belong, were in session; and as the excitement was very suddenly raised, and the College is at some distance from the Court House, the students generally were not aware that anything of the kind had occurred, until the whole affair was over. If there was any student at all on the ground, none certainly took any part in the matter, nor was any injured.

As to Prof. McClintock's alleged participation in the transactions we are not only satisfied from the most respectable testimony that the charge is unjust, but from his long established character we believe him incapable of any such thing. The story did indeed come to us at first so perverted and exaggerated, that, with the natural warmth of Southerners, many of us were excited against him. But after several meetings held for the purpose of considering the matter, in which not only the Southern students, but all the students of the institution, as a body, participated, we have become convinced of the falsity of the accusation. The conduct of this gentleman toward the students has always been of such a nature as to call for our warmest commendation. So far are we from desiring his removal from this institution that we thus publicly express our regard for him as a Professor, a gentleman, and a Christian. Moreover, we sincerely hope that he may long remain with us as an instructor, for we are fully conscious that his withdrawal from the Institution would be an irreparable loss both to ourselves and the College.

We regret most unfeignedly this lamentable occurrence; still we consider that the truth of the case demands this action on our part, and we have endeavored to state the whole affair as impartially as possible.

JULES HAUEL'S CELEBRATED PERSIAN OR CHINESE POWDER.—Which is unequaled for nurseery, for restoring, beautifying, preserving the complexion, rendering the skin delicately white, smooth and soft, preventing cutaneous eruptions, chapping, and obviating too copious perspiration. Travelers and residents in warm climates will highly appreciate this grateful appendage to the toilet.

How much the beauty of a Sylph-like form is enhanced by a clear and brilliant complexion, is only known to those who are suffering from freckles, pimples, blotches, sallowness, or other disfigurements of the skin, occasioned by the use of powders, decorated with sweet names, such as lilly white, pearl powder, &c. too often made of a deleterious substance. To these we would say, make a trial of this Cosmetic, and your complexion will be rendered beautifully clear, fair and blooming. For sale by the sole proprietor, JULES HAUEL, Perfumer and Chemist, Philad. without whose signature on the label none are genuine.—Bold wholesale and retail by A. B. & D. NOW LET THE PUBLIC JUDGE.

TO THE FRIENDS of Correct Education and of Truth. Marcius Willson's answer to and exposure of Mrs. Willard's Appeal, &c is published, and can be had gratis on application to MARK H. NEWMAN & CO. 199 Broadway. The original "Review of American Histories," as published in 1845, accompanies this Answer, so that the public may judge of the "wrong and injury done" to Mrs. Willard by this "slanderous pamphlet;" the "answer," we trust, will fully show the nature of her "claims to originality" as well as the falseness of that serious charge of "trespass on her literary property."

N. B. The publishers of "Mrs. Willard's Appeal" having refused, after a respectful request, to furnish us with a list of the names of those to whom the "Appeal" had been sent, in order that we might also send them the "Reply," we are compelled to ask, in this public manner, that all friends of Education, Teachers, Editors and others who have received the said "Appeal" will send us their names and post-office address, and we will forward the "Reply" free of postage. Miscellaneous.

PURE WATER.
DIAPHRAGM FILTERS,
JENNISON'S PATENT, 1845.—Office removed from 334 to 540 Broadway.

These Filters, not larger than a pint measure, can be readily and without expense, attached to any hydrant or pipe conveying water, and will yield a steady stream of pure water, equal to one hundred gallons per hour, under the pressure of the Croton, more than enough for the culinary wants of the largest families, even for washing clothes, to which it imparts a pearly whiteness not other wise obtained. It separates with equal certainty and dispatch all the animal, vegetable and earthy matter found, despite of all possible precautions, in every distributing channel of the Croton, Schuylkill, Mississippi, and other river water. They are also constructed for filtering fluids for manufacturing purposes and water for steam engines, &c. &c.

They are ornamental and will last for years, are not liable to get out of repair, or subject to damage from frost, and will prevent the pipes from bursting. They have the merit of cleansing themselves, by the simple act of changing them end for end once or twice a week, depending however on the quantity of water used, and the impurities contained in it; they are designed for filtering water under any circumstances and degree of pressure.

The necessity of filtering river water, and the efficiency of the Diaphragm Filter, bears the endorsement of the Physicians and Chemists of the cities of New-York and Philadelphia, and the approbation of the American Institute, by awarding to Mr. Jennison a Gold Medal at the Fair of 1845, and a Gold Medal for improvements, at the recent Fair of 1846, which improvement consists of porous, artificial Rock for the filtering medium.

They are exhibited in operation and are for sale at 349 Broadway, N. Y.; 78 Walnut-st. Phila.; 3 South-st. Baltimore; 451 Washington-st. Boston; and other cities of the United States.

The officers of the Army and Navy, and masters and owners of vessels, are invited to see the above and other appliances for filtering water; also—Force-Pumps, Hose, &c.

From the facilities in their manufacture, and the increasing demand, the proprietor is enabled to afford them at from $3 to $5 each. WM. H. JENNISON,

Manufactory 66 Frankfort-st. for the proprietors.

P. S.—Since the introduction of this Invention, a number of imitations have been presented to the public, which are deemed infringements upon the Patent for the Diaphragm Filter. Notice is hereby given, that suits at law will be commenced against those who manufacture, or offer for sale, any infringement. Purchasers of them are also liable to a suit at law. my20 1mW&S*

PRACTICAL BOOK-KEEPING,

MR. C. C. MARSH, Accountant, author of the "Science of Double Entry Book-keeping Simplified," and the "Art of Single Entry Book-keeping Improved," continues to teach as above.

Course Instruction.—The public is respectfully informed and assured, that the plan pursued by Mr. Marsh in teaching this important branch, is truly a course of practice in keeping books, rather than a course of lectures on the theory.

The pupil becomes familiar, from actual use, with all the books constituting a set, and a person of good capacity will by this course become a competent book-keeper in about one month, and will receive a certificate to that effect.

Medicines.

A VERY IMPORTANT COMMUNICATION
TO ALL PERSONS IN ALL PLACES,
And at all times,
AND
UNDER ALL CIRCUMSTANCES!

IF YOU ARE SICK, get cured; if well, employ measures to continue so. Every individual indulges in habits, which must, to a greater or lesser extent, disarrange the admirable and intricate combinations which form the system, and consequently

EVERY INDIVIDUAL

should possess some mild, yet efficacious, simple and accredited agent for preserving all the functions of the body in good order.

DR. WOOD'S
SARSAPARILLA AND WILD CHERRY BITTERS

will achieve this result, and should be in every family, and in the hands of every person, who, by business, profession or general course of life, is predisposed to the very many little ailments that render life a curse, instead of a blessing, and finally result, in their aggregated condition, in the cause

OF DEATH.

The Bitters here mentioned are compounded by a man of great skill and knowledge, from the simples Nature presents to those who care to findthem, and which are the only reliable antidotes to the poison of disease. The chief ingredients are the universally-believed *Sarsaparilla* and the *Bark of the Wild Cherry Tree*, with which the red man of the forest cures nearly every disease of the internal organs. These materials, though powerful in their action, are, as common sense teaches us,

ENTIRELY HARMLESS;

and prepared as they are here, one of the *greatest medical operatives* in the inhabitable globe. By taking these BITTERS, the *scrofulous* may be restored to health, and avoid the sharp knife of the surgeon; for they not only eradicate pimples and humors, but overcome

CANCER AND KING'S EVIL!

Whoever is subjected to the horrors of Constipation, should at once purchase this *sure remedy*. In the train of Costiveness follow dreadful *local congestions*, offensive *insanity*, very frequently a *mania or hypochondria*, (vide *Medic. Jur.* pulpitations, and other affections of the *heart*, *and rheumatic swellings*. Dr. Wood's Compound is one of the most efficient medicines in routing these complaints, and their fountain head, that can possibly be procured.

From being confined in close rooms, and from taking a small modicum of exercise, numerous persons daily are made to deplore a *loss of appetite*, painful *headaches*, weakness of the *muscles*, *languor*, *want of energy* sufficient to permit them to seek recreation, &c. &c. These persons say for years, that they "don't feel very well." If they do not employ a method by which they can feel quite WELL, they eventually sink under a severe fit of illness, and are

SAVED FROM THE GRAVE

only by a miracle, and even then the *lancet*, *leech*, *blister and calomel* have left them mere shattered hulks, full of aches and sorrows, and not only a pest to themselves, but a source of disgust and annoyance to all with whom they come in contact. All these

FEARFUL CONSEQUENCES

may be avoided by an early application of the virtues of these BITTERS. For the truth of this, the proprietor pledges his word and honor, and in evidence exhibits files of unbolted certificates to the effect that he received, unsolicited by all appearers. He does not, however, ask the invalid to swallow his certificates, but his BITTERS, and is willing to stake all he holds dear on earth in favor of their worth.

THE DYSPEPSIA,

in either *a modified or severe form*, will disappear before the qualities of Dr. Wood's preparation, and no more may be relied on as a permanent bane. Indeed, the BITTERS possess no other recommendation, but that of being the most vegetable compounds medical science can invent; but it is equal to the complete eradication of

LIVER COMPLAINT,

in every shape, and of every affection, *minor or gigantic*, of the biliary apparatus. Individuals who are constipation-ally bilious ought regularly to take this mild agreeable and excellent medicine, AND APERIENT, as it will diffuse health throughout every fibre of the frame, and send happiness and love of life thrilling to the heart. *Families ought to keep it on hand.*

Every medicine chest on board ship should also be well stocked with this capital remedy, as ☞ SCURVY ☜ cannot afflict those who take it, or long resist its virtues assaults. All impurities of the blood vanish before it, and the old relics of early imprudence invariably disappear, soon after being submitted to its action. *Every complaint of the stomach is broken by it.* THE BITTERS have in no instance failed of curing JAUNDICE, GENERAL DEBILITY *every disorganization of*

THE NERVOUS SYSTEM.

By neglecting the little threads made upon the latter a vast portion of our fellow beings are rendered extremely miserable—miserable, indeed, that they wish to die. Every bottle of "Dr. Wood's Sarsaparilla and Wild Cherry Bitters" contains a modicum of joy and content for each of these anxious and impudent sufferers. Remember that an injudicious use of mercury is inevitably productive of many evils which are put to flight by this glorious and unsurpassable compound; and, in fact, all afflictions which are

may speedily and safely be shuffled off through its agency. AS a medicine which must benefit

EVERYBODY,

from the SIMPLY delicate to the CONFINED AND DESPAIRING INVALID, no equal is to be found for it. It would be well to bear in mind that *prevention* is infinitely more desirable than cure, and that *Dr. Wood's Sarsaparilla and Wild Cherry Bitters* ARE BOTH.

Put up and sold in large bottles, at $1, by WYATT & KETCHAM, Wholesale and Retail Agents, 121 Fulton-st; at retail, 192 Broadway; 311 Bleecker-st. N. Y.; J. W. Smith, corner Fulton and Cranberry-sts. Brooklyn, and by Druggists generally throughout the United States. my18 W&Sm*

SARSAPARILLA SYRUP.—Only 50 Cents per Quart.—$200 Forfeited if Dr. IVANS'S Sarsaparilla Syrup not superior to any sold, and the very best purifier of the blood—warranted free from any vegetable or mineral poison. To preserve health, purify the blood.—To restore health, the blood must be purified; and the cheapest, the safest and most speedy way to accomplish this is to use this great alterative medicine. No man, woman or child should be without it at this season of the year, and the low price at which it is sold brings it within the reach of all. There is no risk in using this medicine, either to health or purse, as it is warranted to cure in almost every case of disease for which it is recommended, or the money will be refunded,—that is, by a persevering use of the Syrup, a proper attention to diet, and an occasional use of Dr. Ivans's Anti-Bilious Vegetable Pills, scrofula, or king's evil, erysipelas, ulcers, cancer, obstinate ulcers, blotches, pimples, tetter, ringworm, dizziness in the head, palpitation of the heart, St. Anthony's fire, rickets, salt-rheum, palsy, dyspepsia, rheumatism, asthma, and all diseases arising from an impure state of the blood or habit of the system.

Sold at the proprietor's Botanic Store, 184 Grand-st west of the Bowery, and at 226 Bowery, where also may be had a general assortment of Botanic Medicines. Also, Dr. Ivans's Sarsaparilla Syrup, a healthy and delightful beverage, as hundreds who have drank this Sarsaparilla Cream will bear testimony. As a purifier of the blood it is unequaled. Dyspeptic persons should use it freely.—Price per quart, 4 cents; per glass, 2 and 3 cents.

P. S.—All orders accompanied with the money, for five gallons or upward, will be sent in kegs and bottles to any part of the United States, together with medical advice, which in all cases is given without charge. A liberal discount made to those who purchase for retail. All letters and orders directed to Dr. IVANS, 184 Grand-st. or 60 West-Broadway, near Duane-st. New-York, will be punctually attended to. my29 1mod

OFFICE OF "THE HOPE MUTUAL LIFE Insurance Company," 9 Wall-st. Mortimer Buildings, New-York, 15th March, 1847.

This Institution, incorporated in 1846—with a liberal and perpetual charter, and duly organized according to law—has commenced the business of Life Insurance, on the Mutual principles; the net profits being divided annually among the insured, according to the tables of incorporation. The rates of premium conform with the usage of other similar companies—for the convenience of parties insuring who would prefer to pay the premiums by installments, it is left to their option when the premium exceeds $25, to pay one-half in cash, and secure payment of the residue in 12 months, by an approved note bearing interest at 6 per cent.

The lives of married men may be insured for the benefit of their wives and children, so that upon the decease of the insured the wife if living, or if not, then his children will receive the amount payable by the policy, free and clear of any claim by the creditors of the deceased.

For the greater security of parties insuring with this company, the Trustees have provided an indemnity fund, to the amount of $25,000 *to meet losses* that may accrue upon policies issued by the company which is to remain, until a capital exceeding that amount shall have been realized from the receipt of premiums, when it will be no longer necessary, and may be withdrawn.

The following is a list of the Officers and Trustees for the ensuing year—viz:
