Fire alarms are sounded upon the tower bell at department headquarters by striking the number of the ward in which exists the fire, in this manner: If for ward 1, four distinct strokes are repeated; if for ward 12, one stroke, a short pause, then three strokes, and repeated, thus, 1-111, 1-111, etc. "2-2" is sounded for all fires within the district bounded by Fifth, Ninth, Jackson and Quincy streets.

TEN STROKES, and repeated, followed by the number of the signal station nearest the fire, is the SECOND ALARM—for a serious fire.

THREE STROKES, followed by TWELVE, and repeated, is the GENERAL ALARM for a very dangerous fire, and calls all the active department with a detail of police.

TWO STROKES, slowly, indicates "FIRE IS OUT."

One long whistle from water works, for fire south of river. Three whistles from same, for fires north of river.

The following were paired for Peckham—Camden, Gordon, Gray, McMillan, Morgan, Smith.

Paired against Peckham—Dubois, Jones (Nev.), Pettigrew, Quay, Vance, Wolcott.

Sherman and Colquitt did not vote, but released their pairs.

REDS OUTWIT POLICE.

Friends of Parisian Bomb Thrower Burn All His Papers.

PARIS, Feb. 16.—The anarchists of a certain group, upon hearing of the arrest of Henry, the bomb-thrower of the Hotel Terminus, raided his lodgings at Belleville the same night, burned all his papers and departed, taking with them, it is believed, one or more bombs, which the anarchist is supposed to have had in his lodgings.

The police, it would seem, were very negligent in the matter of the arrest of Henry, as their search of his lodgings seems only to have been an afterthought.

If they had acted promptly, it is possible that they might have made some important discoveries and arrests. As it was they found in Henry's lodgings some chlorate powder, picric acid, and some copper tubes, evidently intended for use in the manufacture of bombs, similar to those used by Vaillant and by Henry himself.

At the anarchist's lodging the people of the house said that they recognized the photograph of Henry as that of a man whom they know as Dubois.

GRAIN MEN FIGHT.

Elevator and Board of Trade People May Revive Their Old Dispute.

CHICAGO, Feb. 16.—Indications point to a revival of the fight between the grain receivers on the board of trade and the public elevator people.

The present move in this direction was precipitated by the statement that the English syndicate controlling elevators here is about to begin the purchase of grain in the country. A board of trade investigating committee has been appointed and an open meeting of the board will be held to consider the matter.

WON'T ANSWER QUESTIONS

Railroad Men Persistently Refuse to Disclose Business of Their Roads.

CHICAGO, Feb. 16.—The railroad men called before the federal grand jury to testify in the interstate law investigation again refused today to answer important questions. General Freight Agent James of the Lake Shore road was recalled and refused, as he did yesterday, to disclose the secrets of his company's business.

District Attorney Milchrist will endeavor to have the officials held for contempt of court if they persist in their refusal to answer questions.

Arrested at Wichita.

WICHITA, Kan., Feb. 16.—James McCoy was arrested here this morning on a charge of grand larceny, preferred by officers of Pittsburg, Kas. McCoy claims to be "Kid" McCoy of Colorado, the welter-weight pugilist, and has arranged for a finished fight with Kid Gloves with a local bruiser named Slattery.

Colonna Wants His Children.

PARIS, Feb. 16.—Prince Colonna has gone to Naples. Maitre Cortet, of the counsel for the prince, says that the prince was determined to regain possession of his children and that he will take the necessary steps to do so.

His Father a Revolutionist.

BARCELONA, Feb. 16.—The author of the bomb outrage in the Terminus hotel in Paris was born here. He is registered as Emilio Felix Henry Cambet, son of Fortunato Cambet of Nimes. The father took part in the commune at Marseilles and was condemned to death and fled from France.

Southern Pacific Earned $17,000,000

NEW YORK, Feb. 16.—The annual report of the Southern Pacific railroad company for the year ending December 31, shows that the gross earnings were $48,049,458, decrease $922,648; net $17,473,304, decrease $210,698; surplus $4,922,507, decrease $817,841.

TODAY'S TELEGRAPH TIPS.

Wm. Leonard was hung at Frederick, Md., today, for the killing of Jesse Anderson, a railway trackman, on September 1, 1893.

There is a serious outbreak of swine fever in several districts of Limerick. It is likely to injure seriously the bacon curing trade of the south of Ireland.

Knoxville (Tenn.) college, one of the best known institutions for the higher education of negroes, was badly damaged by fire early this morning. The boys' dormitory, chapel and main building were destroyed with a loss of $50,000.

The jury in the West case at San Francisco, today returned a verdict of conviction. The crime of which Dr. Eugene P. West is found guilty was the murder of Addie Gilmore, a Colfax miner upon whom he committed criminal practice. The body of the murdered girl was horribly mangled and thrown in the bay.

Steele Mackay, the dramatist, who is seriously ill at the Hamilton, at Chicago, is somewhat improved today. His friends however, have no hope for his recovery. His illness is the result of the heavy work and business reverses Mr. Mackay has experienced in the last two years.

SAT ON MR. BLAND.

Silver Has No Friends in the House of the Cuckoos.

WASHINGTON, Feb. 16.—All suggestions for closing debate in the house on the seignorage bill by unanimous consent having failed, Mr. Bland was today driven to coercive tactics.

He moved to go into committee of the whole and pending that motion, moved that all general debate on the measure close at 3 o'clock.

On that motion he demanded the previous question.

Mr. Cannon, Mr. Hopkins and Mr. Reed appealed to him for more time for legitimate debate but Mr. Bland was obdurate. He was perfectly willing, he said, to set any reasonable time limit for debate, if his opponents would agree to it, but they had already filibustered away two days and he was admonished that obstructive tactics would be resorted to at every stage of parliamentary procedure hereafter.

Reed replied that there was no reason why the opposition to the bill should be bound over to keep the peace in order to delay an opportunity to close debate thereupon, Mr. Bland insisted upon his motion and the demand for the previous question.

On the rising vote the Republicans and the opposing Democrats declined to vote and when the result was announced 99—0, Mr. Tracey made the point of no quorum.

The ayes and nayes were demanded. It was very apparent from the outset that Mr. Bland would be unable to get a quorum today. The vote resulted 140 to 5, thirty-four less than a quorum.

Mr. Bland moved a call of the house. There is little or no chance of securing a quorum on Mr. Bland's motion this afternoon. The filibustering will probably continue until about 4 o'clock, when a resolution to arrest absentees will be passed, after which the house will adjourn.

YELLOW FEVER NOW.

Sixty Deaths From the Disease at Rio Janeiro in One Day.

[Copyrighted 1894 by the Associated Press.]

RIO DE JANEIRO, Feb. 16.—Yellow fever is on the increase here; there were sixty deaths from that disease yesterday in addition of fifteen deaths from other fevers.

The captain of an Australian war ship in those waters died today and there are a number to other cases on board the same ship.

A Portuguese war ship here is also affected with yellow fever and the situation is growing serious so far as foreigners are concerned.

The American war ships only communicate with the shore by means of a hired tug and the greatest precautions are observed on board all the American ships. Admiral Benham has conferred with the committees on other American vessels and nothing will be left undone which will lead to preserving the health of the American sailors.

The British warship has also some cases of fever on board, and the merchant vessels at this port are reported to have several members of their crews sick under suspicious circumstances.

IS A HEARTLESS WRETCH.

Henry, the Anarchist, Meant to Throw His Bomb in a Theatre.

PARIS, Feb. 16.—Replying to the examining judge today Henry, the anarchist, said that he did not know why he selected the cafe Terminus as the place in which to cause an explosion.

Continuing Henry said that on Monday night he first went to a leading theatre, but he was unable to obtain admittance, as the theater was full, otherwise it is likely that he would have thrown his explosive missile among the people assembled in the place of entertainment.

Henry also said: "As I intended to kill as many bourgeois as possible, I went to the St. Lazare railroad station in front of which I saw a cafe full of customers. I entered and threw the bomb."

M. Girard, of the municipal laboratory believes that Henry made four bombs and that two of them were now in the hands of his accomplices.

RELATIONS STRAINED.

France Has Recalled Her Minister to Portugal.

PARIS, Feb. 16.—A semi-official note has been issued in regard to the attitude of the Portuguese government in most of the questions which have arisen between France and Portugal, and especially in regard to those questions which affected French investments.

The attitude of Portugal in these matters, it is announced, has caused Premier Casimir-Perier to recall the French minister to Paris in order to confer with the government upon the situation.

During the absence of the French minister from Portugal, the first secretary will replace him, and will so act until the present crisis permits of the French minister's return.

Considered Serious in Spain.

MADRID, Feb. 16.—The queen regent and the cabinet have discussed the departure of the French minister from Lisbon, and the situation is regarded as being serious.

A STRANGE CASE.

A Child Who Is Afflicted in the Most Peculiar Way.

Dr. George H. Hazelwood relates the story of a 10-year-old child of one of his patients, who cannot speak to its father, though perfectly glib with everyone else. The cause assigned may be gathered from the following: Previous to the child's birth a difference arose between the parents, and for several weeks the mother refused to speak to the husband. The offense, whatever it was, was condoned, but not till after the child was born. In due time the little boy began to talk, but when with his father was invariably silent. It continued thus until the child was 5 or 6 years old, when the father, having exhausted his powers of persuasion, threatened condign punishment for its stubbornness. This was inflicted, but without eliciting a word, though his groans told too plainly he could neither cry nor speak, and that he vainly tried. Those present joined in the opinion that the prenatal effect of the parental quarrel made it impossible for the boy to speak to his father. Time has proved the correctness of this theory. Though on perfectly friendly relations with his father, attempts to speak to him elicit nothing but signs.
