LOSS OF SHRINKAGE IN MEATS.

VERY few people know that the Shrinkage of Meats roasted in a close oven is from thirty-five to forty per cent. All meat contains seventy-five per cent. of water and only twenty-five per cent. of solid matter, and the loss that is made in the roasting is made in the evaporation of the juice, which is the VITAL PART OF MEAT.

Effect of the SOLID OVEN Door.

A TEN pound Sirloin, medium or well done, will be REDUCED to SIX pounds and four ounces of Roasted meat, showing a loss of three pounds and twelve ounces of juice. While the loss is 37½ per cent of the total weight, it shows the enormous Loss of FIFTY PER CENT. OF THE JUICE.

Effect of WIRE GAUZE OVEN DOOR

A TEN pound Sirloin, medium or well-done, will be REDUCED to SIX pounds and eight ounces of Roasted meat, showing a loss of eight ounces of juice. While the loss is five per cent. of the total weight, it shows the very small LOSS OF BUT SEVEN PER CENT OF JUICE.

The committee on ways and means reported a concurrent resolution for a recess from December 21st until January 6th. Agreed to.

Under the call of States the following bills were introduced and referred:

Horrible Story of Cruelty.

ST. LOUIS, Dec. 18.—A story of horrible and barbarous cruelty, in which George A. Guenther, a fiendish old man, was slain by his twelve-year-old son yesterday, was related today by Charles Guenther, elder brother of the murderer. The son's story brands the dead man as a savage fiend incarnate, who delighted in acts of inhumanity toward his children. Among other barbarities alleged was the chaining up of the children in a dismal apartment, nude, and while in that condition torturing them with all the cruelty practiced in the Inquisition.

"I have not lived at home for five years," said Charles Guenther. "I left home after one period of slow torture that made me desperate. I had done something that my father did not like. It was a small offense, but the way my father tortured me would have made any one believe either he was crazy or I had committed a terrible crime. My father made me go up stairs with him to a room in the rear part of the house. Here he brought out some chains, and when I caught sight of them I set up an outcry, but no one heard me. My father shouted to me to stop that infernal noise, and when he found he could not, we had a regular fight. Finally, he got the better of me, and by threatening to do me even greater violence compelled me to keep quiet. Then he began to bind me with these chains. When I thought he had finished he took up another and fastened it around my neck and fixed it so that I could

HARDLY MOVE MY HEAD.

Then he left me several hours, during which I suffered fiendish tortures. After the lapse of a few hours he came up stairs with a bottle of whisky. He released me from the chains and compelled me to strip from head to foot until I stood nude before him. Then he chained me up and took a good-sized pin and began pricking me with it from head to foot until I was bleeding all over. My father then wet his fingers from the bottle and rubbed over what seemed to me every sore he had made on my body. He did not rub it all over my body at once, but would rub over a small space until all the stuff had been rubbed in, when he would wet his fingers again and begin on another place. The pain was terrible and excruciating. I must have fainted, for I remained in that room all night, chained up, and did not know anything until the next morning, when I was released. After that I ran away."

The boy Emile was held for beating his wife to death, acts like an imbecile and is believed to have been driven insane by the cruelty of his father and the tragedy of yesterday. Today he failed to recognise his own brother, and when appealed to almost suppliantingly for a recognition, there was a silly smile about the murderer's mouth.

News From Zanzibar.

ZANZIBAR, Dec. 18.—Details of events just previous to the execution of Bushiri, the Arab leader of the insurgents in the revolt against the Germans, show there had been an engagement between the Germans and Bushiri's forces, in which thirty of the latter were killed. Bushiri was captured by Wasegu and surrendered to Captain Wissman, and received a reward of 10,000 rupees.

At a banquet given Monday night to Henry M. Stanley by Coleman Smith, British consul-general, Stanley highly praised the Zanzibarians who accompanied his expedition. When his men were starving in the forests the Zanzibarians collected fungi, which kept the Europeans alive. The Zanzibarians touched nothing until after the Europeans had eaten.

The Indian community here today presented Stanley with a silver casket containing an address praising his energy in opening Central Africa to commerce. Stanley gratefully thanked them for the unique compliment and dwelt upon the prospects for the early commercial development of the British East African company's territory. He urged the importance of connecting Mombasa, on the coast, with Victoria Nyanza by a railway, which would pass into the heart of the region, all of which teemed with a dense population, and would consequently open for European manufactures vast markets now dormant and unknown.

The London Scandal.

LONDON, Dec. 18.—As a result of the secret examination in connection with the West End scandal, a summons has been issued for the arrest of Solicitor Arthur Newton, Clerk Taylor and Interpreter Delgala for conspiracy to defeat justice. It is understood Newton assisted the proprietor of the Cleveland Street house, in which the scandal occurred, in reaching America.

Preliminary to his demand in Parliament, when that body shall assemble, that the government take official cognizance of the West End Club scandals, Labouchere publishes in *Truth* a searching review of the infamy, which is the most thorough exhibit of the rottenness of a certain class of English aristocracy that any journal has yet dared to place before its readers. While of course no names are mentioned, the readers cannot fail to recognize the persons most likely to be called to account. One peer implicated, Labouchere asserts, has already tacitly admitted his guilt by not only leaving the country, but has been seeking congenial associations in the service of the Sultan of Turkey.

A Widow Robber.

COLDWATER, Mich., Dec. 18.—A sensation was created here by the disappearance of Dr. P. P. Nicholas, formerly mayor and at one time registrar of deeds. It is alleged Dr. Nicholas' business methods have impoverished several families, among them needy widows and old soldiers. It is presumed he has gone to Canada. His debts are estimated at upwards of $30,000.

In Opposition to Vest.

JEFFERSON CITY, Mo., Dec. 18.—Hon. Jeff Chandler has consented to enter the field as a candidate in opposition to Senator Vest at the expiration of the latter's term. It is claimed that Chandler would enter the field as a protection democrat, and would have a large support from the outset of his canvass. Chandler was a republican in years gone by and was candidate for the Attorney-Generalship in 1874, but latterly allied himself with the democrats. He would be remembered as one of the counsel for the defense in the "Star Route" trial.

WASHINGTON MATTERS.

Confirmation of Appointments.—The Opposition to Judge Brewer.

WASHINGTON, Dec. 18.—Representative Payson today introduced a bill appropriating $75,000, to be immediately available, for the purpose of paying members of Congress their salaries lost by the Silcott defalcation. It charges the investigating committee with the duty of transferring the assets of the office to the United States Treasurer, who shall be entrusted with the disbursement of the same. Any private deposits of members found in the safe are to be held by the Treasurer subject to disposition by the court of claims.

THE TARIFF BILL

introduced in the House today by Representative Dockery includes those sections of the Mills bill relating to timber and wood, wool and woollen fabrics, carpets and clothing.

NATIONAL SCHOOL SYSTEM.

A bill containing the outlines of a national school system was introduced today by Ingalls. It provides for the appointment of a national board of education, consisting of one member from each State and Territory and the District of Columbia, who shall have charge of all the machinery of the school system, districts of which shall be established wherever the parents of twenty-five children ask for the appointment of a teacher. All instructions shall be in English.

JUDGE BREWER.

The negative vote on Judge Brewer's confirmation was said to have been cast by Blair, Wilson (Iowa), Colquitt, Allison, Chandler and Pettigrew. Senator Edmunds, it is said, declined to vote.

MILITARY ORDER OF AMERICA.

Representative Wheeler of Alabama today introduced a bill to incorporate the Military Order of America. The bill proposes the incorporation of a society which was to bring together a fraternal and beneficent association, non-sectarian and non-political, between those who were engaged in the war of the rebellion. The order is to have a building in Washington, to be used as a memorial building, military and naval museum and library, wherein will be deposited copies of all government publications. Provision will be made for the interment in the court of this building of the mortal remains of the great commander, Grant, and the erection of a suitable monument to his memory, and to all other soldiers, sailors and marines who served during the war.

APPOINTMENTS CONFIRMED.

The following appointments were confirmed by the Senate today: William Walter Phelps, minister to Germany; Thomas H. Anderson, Ohio, Minister to Bolivia; Frederick Douglass, Minister to Hayti; A. Loudon Snowden, Pennsylvania, minister to Greece; Frank W. Palmer, Illinois, public printer, and a number of consuls, including Warner P. Sutton at Nuevo Laredo, and Archibald J. Sampson, of Colorado, at Paso Del Norte.

REPRESENTATIVE SPRINGER'S BILL

For the organization and admission into the Union of Columbia provides the necessary machinery to enable the five civilized tribes in Indian Territory to form a constitution and be admitted into the Union as a State.

Representative Hansbrough, of North Dakota, today introduced a bill amendatory to the act admitting the new States, which provides for specific grants of lands for educational purposes and public buildings to the new States.

CHIEFS OF THE SIOUX NATION.

Leading chiefs of the Sioux nation had a conference today with Secretary Noble in the presence of members of the Sioux Commission, Indian bureau officials and several western senators. The Indians asked for a re-survey of one of the boundary lines of the reservation, and that they be compensated for ponies appropriated by the United States troops in 1886. They also asked for more schools and that Indians be employed in positions about the reservation when practicable.

SUBSIDIZED RAILROADS.

Increased appropriations were asked for the buildings at Los Angeles and Sacramento.

The number of bills introduced under the call was 1014. Many of these are duplicates, if not in language at least in the subject matter of their provisions.

The death of James Laird, Nebraska, S. S. Cox, N. W. Nutting, and R. W. Townshend, Illinois, were announced to the House, which, as a mark of respect to the memory of the deceased, adjourned until Friday.

Attorney-General Miller today appointed Charles H. Aldrich, of Chicago, special assistant attorney for the Department of Justice, to have charge of suits to be instituted against a number of subsidized railroad companies for failure to comply with the requirements in respect to the maintenance of separate telegraph lines and other features.

Shop-lifting.

KANSAS CITY, Dec. 18.—Miss Maud Curran, who has been supposed to be one of the most faithful workers for charitable associations in this city, was arrested last night for shop-lifting. The police found over $1000 worth of goods stored in her residence.

Quiet in Brazil.

NEW YORK, Dec. 18.—The steamer Capri arrived from Brazilian ports today. She reports business going on just as before the revolution. Citizens are tearing down all emblems and coats of arms having any connection with the imperial party. All streets which bear names pertaining to royalty have been changed to conform with republican ideas.

Henri Rochefort is dangerously ill in London.

Dyspepsia

Makes many miserable victims every year. Distress after eating, headache, heartburn, sour stomach, faintness and capricious appetite are symptoms of this very widespread and growing disease. Hood's Sarsaparilla tones the stomach, creates an appetite, promotes healthy digestion, relieves the headache, and cures dyspepsia.

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I had a faintness or tired,

All-Gone Feeling

as though I had not eaten anything. Hood's Sarsaparilla did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced. It relieved me of that faint, tired, all-gone feeling. I have felt so much better since I took Hood's Sarsaparilla, that I am happy to recommend it." G. A. PAGE, Watertown, Mass.

"I had dyspepsia many years, and despaired of ever being well. But Hood's Sarsaparilla has entirely cured me." MRS. J. S. BAILEY, Marblehead, Mass.

THE HISTORICAL RECORD

COMPLETE IN FOUR VOLUMES:

In Leather Binding $5.00
In Cloth " 4.50

For Sale at the Deseret News Office.

From the Deseret Evening News, September 28th.

A day or two since we noted the issuance, by Andrew Jenson, of vols. 5, 6, 7, and 8 of the *Historical Record*, bound in one. This combination makes a book of over 1000 pages. It is next to impossible to over estimate its value. As a book of reference on matters of Church history, also upon matters of interest to localities, and to ecclesiastical organizations it is simply worth its weight in gold. It also affords much information of a personal character, embodied in numerous biographical sketches.

What could be more interesting or profitable in literature to Latter-day Saints than a "Church encyclopedia," and this is the genius of the work which Brother Jenson offers.

The Church of Christ in this dispensation has an unwritten history. It must in time be given to the world in more or less elaborate shape. This is a labor yet to be performed, and when the task is undertaken it will be found that the compiler of the book now referred to will have made the work of the future historian comparatively easy. He furnishes a ground work that will doubtless make a most valuable base of operations, the keys given in his compendious labor enabling the searcher after details to reach them by much more direct paths than he could without such potent assistance.

We should think that the book would not only be an excellent and prized addition to any private library among the Saints, but would prove a most useful auxiliary to any association of the young which makes the study of Church history a part of its exercises.
