TRUTH AND LIBERTY.

NO. 153. THURSDAY, MAY 21, 1896, SALT LAKE CITY, UTAH. VOL. XXIX.

SPAIN IS SATISFIED.

The Competitor Case Is Not Going to Be a Cuban Bull.

REBELS BEGINNING TO SURRENDER

The Military and Political Situation Improving, Says Premier Canovas in an Interview.

NEW YORK, May 21.—A cable to the World from Madrid says:

"The Competitor case is not at all likely to disturb the relations between the Spanish and American government," said Premier Canovas in an interview.

"The official relations between the two countries," the premier went on, "have become of late even more cordial, if possible, than ever, while the general relations are also improving with the substance of popular sentiment on both sides.

"The Spanish government is quite satisfied with the friendly disposition shown all through by President Cleveland, Secretary Olney and the other Federal authorities, especially with the fair tone adopted in the representations made about the Competitor."

Premier Canovas spoke also of the efforts of the American government to get from the inferior courts and the United States supreme court a well defined fixed jurisprudence in regard to the filibustering expeditions and cases still sub judice.

The prime minister added:

"The appointment of General Fitzhugh Lee to be consul-general of Havana causes no concern or apprehension, as the Spanish minister at Washington continues to report the excellent disposition of the consul-general.

The debates in the American and Spanish congresses will not materially affect the relations of the two countries. We understand that the executive in America cannot interfere with the freedom of speech of the members, though in Spain we have no privilege that our ministers in the Cortes can always point out that the government and the majority of the parties are not responsible for the utterances of the opposition members.

"My opinion is that the state of affairs in Cuba is improving in its military and political aspects. The insurgents are beginning to surrender with their arms, and families are coming in to seek the protection of our forces, which have been able to pass operations in May, as the rains began near the end of April.

War the a Trust.

CHICAGO, May 21.—A powerful commission to wage war on the ice trust which was formed here a few days ago was perfected at a meeting last night at a meeting of the Grocers and Butchers' association. Nearly 600 business men, customers of the different ice companies, attended. An organization was formed known as the Consumers Ice Delivery company was perfected and active war entered on on the ice trust.

The idea of the grocers and butchers is to force the ice men to their own grounds by going into the ice business for themselves and forming a number of their association for one-half the price charged by the trust company. There are 1,500 members of the Grocers and Butchers' association in Chicago, all of whom will join the consumers company. As they are among the best patrons of the ice companies their action, it is believed, will be a serious blow to the trust, and especially as the grocers' association has already perfected arrangements by which it can secure all the ice required for its members and other consumers.

To Resume Work.

DENVER May 20.—A special to the News from Washington says: F. P. Kruel, Julius A. Myers and Judge Mitchell Benedict of Denver are here in consultation with Congressman Green, trying to arrange for the reopening of the American National bank. It is given out that if the bank is reopened it must be on a thoroughly reorganized basis.

Bankers for Gold.

YANKTON, S. D., May 20.—The Bankers and Dakota Bankers' association is in annual session here today to the number of forty. But one address was made bearing upon the money question, and this was a direct arraignment of free silver by A. B. Wilcox of the American Mortgage company, Yankton.

The bankers are all in favor of the gold standard.

A PLANK THAT WAS REJECTED.

A Promise Touching the Bates Between Gold and Silver.

DUBUQUE, Iowa, May 21.—Governor Boies, who will lead the Iowa delegation to the Republican national convention at Chicago, prepared the following plank of the platform, but it was rejected by the committee and not reported to the convention:

"In making this declaration we do not ignore nor underestimate the importance of the Democratic doctrine that the party of coin must have the two metals of which a double standard is composed should be faithfully and honestly maintained. And while we believe a double standard has been substantially continued for three quarters of a century in the most prosperous period of our country's history will prove equally efficient and satisfactory if restored now, still, if, when silver and gold are restored to absolute equality before the law with equal rights to the mints of the nation and as money of final redemption, reasonable experience shall demonstrate that a parity at the ratio already made by law cannot be maintained, we pledge the Democracy of Iowa to aid by every means within its power in the establishment of a new ratio just to all classes of our citizens alike, by which such parity shall be maintained."

AN AMERICAN IN TROUBLE.

Frank Lurge Imprisoned in Cuba Charged with Conspiracy.

NEW YORK, May 21.—A special to the Herald from Havana says:

Frank Large, a naturalized American citizen, a wealthy merchant of Cardenas and a prominent sugar planter in Matanzas province, has been imprisoned by the Spanish military authorities in the district on a charge of political conspiracy. Large's political sympathies are known, and when arrested was also ordered, is in doubt. Large refused to make any statement unless United States Consul Hanna should be present. The consul has proceeded at the summary proceedings, demanding a civil trial and the right of legal defense. The Spanish military officers haughty in the place.

El Diario del Ejercito, a Spanish story organ, in a leading article, produced the signature of certain correspondence between Generals Blanco and Hamilton in February, 1895, making charges and counter-charges of treachery and of intimidation, which and execution of prisoners as reprisals during the American rebellion. These letters are quoted by Diario to justify the barbarous treatment by the American people to Captain General Weyler in Cuba.

Captain Lobordo of the Competitor, interviewed in the Cabana castle, said he was put to the torture by election officer of Pinar del Rio volunteers at La Palma just after he was captured. The Spanish screws and sharp steel Waltz Balls, he says, were used.

Alleged Bank Wrecker Surrenders.

MILWAUKEE, May 21.—O. C. Trumpff, the president of the defunct South Side Savings bank, fled to Europe after the failure of the bank in 1893. His partner, J. B. Koeting, is now serving a term in state prison for wrecking the bank. The same charges of which Koeting was convicted were made against Trumpff. The bank examiner showed the assets of the bank had been dissipated in grain speculation and the bank examiner said there was a shortage of nearly $600,000, while the assets were about $1,200,000.

Mr. Trumpff made his way to Europe and resided in Germany for the last three years. He came back voluntarily last evening and is at the residence of his daughter. When seen Mr. Trumpff declined to talk saying he had returned to answer all the charges made against him. He said he had left Milwaukee as a result of relations to have had nothing to do with the active management of the bank for a long time previous to the failure of the bank. Mr. Trumpff will surrender himself to the authorities today.

ANTI-MISSIONARY RIOTS.

The British Consul Will Demand Redress.

VANCOUVER, B. C., May 21.—The steamship Empress of India arrived from Hong Kong and Yokohama last night, bringing news of additional anti-missionary riots. Just before her departure details of an outrage on missionaries at Chingkiang was received. Mr. Ferguson of the British and Foreign Bible society and Mr. Walker of the National Bible society of Scotland left Chingkiang in their missionary house boat, the Shaftesbury, for the Tieno district. The place has a bad reputation among foreigners, so the precaution was taken to notify the local officials through the British consul of the intended visit. When the boat arrived at Tieho, however, it was attacked by an immense crowd and the crew, seeing the state of affairs, deserted. Ferguson and Walker tried to pacify the people, but without effect, and in the midst of the riot the former gentleman was shot through the head, but fortunately the wound was not serious. Later some days an official with ten soldiers appeared, but he was powerless and the only thing to do was to let the boat to gradually retreat, which she did, followed by a crowd for miles by the natives, who damaged her considerably. The disturbance was a local one, but for some time the missionaries were in great danger. The matter is now in the hands of the British consul at Chingkiang, who will insist upon immediate redress.

THE BUILDING FELL.

And Many People Were Buried in the Debris.

BUFFALO, N. Y., May 21.—The old Brown building, corner of Main and Seneca streets, formerly occupied by the Western Union, collapsed today. The portion that fell was being reconstructed. The cause of the collapse is supposed to have been the giving away of the props. Many carpenters were working in the building, and the harbor ship of Morris Jones was full of customers. There were perhaps fifteen or twenty people in the building. Two have been taken out fatally injured, George Metz, a laborer, may die in the hospital. Mike O'Brien, back broken, is dying. Others injured are M. L. Hawkes, James Adams.

The body of Jacob Birkman, a barber, has been removed. Jennie O'Brien, the woman cashier of the barber shop, is under the rules and no news of her death is known.

working to clear the ruins and rescue the unfortunate, numbering probably in less than fifteen. A crowd of more than 1,000 people was soon on the ruins when the crash came. Cries were heard from the debris.

The following is the list of injured so far as known:

S. L. Hawks, crushed and cut about the body.

James Adams, bruised, cut and injured internally.

Michael O'Brien, carpenter, back broken.

Missing—Miss Jennie Graff, cashier of the Jones barbershop, buried beneath the ruins. Ar Herman J. Schlotzk, one of the barbers who escaped unhurt, was running out of the shop he saw the walls and ceiling fall upon her.

When the Western Union moved out of the building, a decrepit structure of forty years' standing, contract men were employed to remodel and reconstruct it. This they attempted to do by putting in timbers under the floor joists held up by piers. The immediate cause of the collapse was the removal of part of the foundation walls. There were few tenants in the building at the time.

Another body, that of a man, was recovered after several hours' labor by the French. The name is not known. Peter Hrnak, contract, Wm. Kappinger and F. W. Myer, workmen, injured by bricks and beams, have been taken out of the ruins.

All Earner Sunnerie's employes, except one woman cashier, have been accounted for.

Journey of the Czar and Czarina to Their Ancient Capital

CANNON BOOMING, BELLS RINGING.

A Grand Scene, Unparalleled, Perhaps, in the History of Nations—Thousands Shouted for Joy.

MOSCOW, May 21.—[Copyrighted 1896 by the Associated Press.]—The czar and czarina made their triumphal entrance into this city this afternoon, amid the thunder of the batteries of artillery, the clanging of countless bells and a shrieks of a vast multitude of Muscovites and equally enthusiastic visitors from all parts of the world. Probably never in the history of nations has there been such an assemblage. Possibly the scene may never be repeated in its grand entirety.

At 1 o'clock in anticipation of the meeting of the czar, the entire route from Petrovsky palace, about three miles on the road to St. Petersburg, to Kremlin, was lined with people. The route to be followed by the imperials had been guarded by troops and police on foot and mounted, until the road way and the sidewalks were lined with citizens after thickness of blood and iron. The weather was delightfully fine, a great relief after the bitterly cold and damp experience the past few days. The sunshine put everybody in good humors.

The signal for the commencement of the day's festivities was a salute of nine guns from a battery outside the city. This was followed by the dull booming of the big bell of the cathedral of the Kremlin and the sounding bugles of the troops at the various mustering points. Then rose the high diplomatic of the empire and foreign princes began to gather at Petrovski palace to take places in the gala equipages or escort to the Kremlin the carriages of their imperial majesties. The grand dukes and grand duchesses, princes and princesses, Asiatic potentates, the ambassadors and representatives of every country under the sun, assembled here to do honor to the czar of Russia, the ruler of a mighty empire which had crown the globe.

Generals with staffs, side de camps riding at breakneck speed, orderlies galloping furiously, were seen everywhere.

At 2:30 p. m. there was a further thundering of cannon, this time from the direction of the Petrovski palace, the signal for the imperial and state carriages to start on their journey to Kremlin.

ALBERT J. DIAZ HEARD.

Central Methodists Under the Observation in Cuba.

WASHINGTON, May 21.—Rev. Albert J. Diaz, the American Baptist missionary who, with his family and brother, was expelled from Cuba after having been arrested and incarcerated in prison there, has just been given a hearing before a subcommittee of the house committee on foreign affairs, consisting of Senators Morgan and Davis. Mr. Diaz made a statement under oath to the subcommittee, the substance of which has been furnished to the Associated Press.

Many of the statements made by Mr. Diaz to the committee have already appeared in print. The case has published the state department was at Guaba where the Spanish soldiers were quartered, and that he had different houses and gathered seventeen men. They had these together, two by two, among them being Leslie Quinlero, an American twenty-one years old, at Key West, who was found sick in bed. They were taken to the street and outnumbered to kneel down. The soldiers fired at them, killing all except the American. This occurred on February 22, in the immediate presence of the wives and children of the unfortunate men.

Dr. Diaz's statement gives accounts of cases where he alleges explosive bullets were used by the Spaniards, and of the shooting of two children in the street of their mothers by the Spaniards.

On the 15th of March in Havana he saw a man who had been killed by the soldiers, and who had seventy-one bayonet wounds. Dr. Diaz mentioned several instances where the Spaniards bombarded insurgent hospitals, killing the inmates.

Storms at San Diego.

SAN DIEGO, Cal., May 21.—Senator Mason arrived in the city last evening. He was given an informal reception and a banquet by a party of gentlemen. In referring to the proposed $4,000,000 appropriation for Santa Monica he declared emphatically that it was only good for half a million, and expend even one dollar is constructing an artificial harbor so near to San Pedro, a natural harbor.

For the Benefit of Shippers.

WASHINGTON, May 21.—The Senate committee on interstate commerce to-day authorized reporting a bill for the uniform classification of railroad freight, framed on the lines recommended by the national board of trade. The bill provides for a permanent commerce commission to prepare and publish a classification which shall apply in all sections of the country. The bill is intended to meet the complaint of shippers that the railroads in different parts of the country have a classification which renders it impossible to manufacture scientifically to advance the cost of shipments.

PRESBYTERIAN CONFERENCE.

Burning Questions to be Considered by the Assembly.

NEW YORK, May 21.—The home church and foreign general assembly of the Presbyterian church of America, began its sessions at Saratoga at 11 o'clock today. The scheduled business of the assembly is the consideration and furtherance of the benevolent and missionary work of the denomination. For this purpose certain [illegible] hours are set apart according to a fixed schedule.

Interested among those regular hours is the consideration of reports on ministerial matters which have great interest to those who are outside as well as inside of the church. Prominent among the reports that is expected to be submitted by a committee of seven, Dr. David R. Breed of Pittsburg, chairman, to whom was committed the consideration of that part of the report of the committee on bonds and their relation to the church.

An attempt has been made to agitate for the retention of Prof. Henry Preserved Smith, D.D., formerly of Lane Theological seminary, who was suspended from the church for years ago on account of heretical teaching. It is reported that the executives have threatened to employ their power in his case by expulsion, unless a stop is put to this movement, and it is said that Prof. Smith would prefer such action rather than remain longer under suspension.

Another burning question has reference to the answer of the New York Presbytery to the "Briggs case." There is many rumbling in from resolving such a case, with a view to drawing the students from Union Seminary.

Another report that will be awaited with interest is dealing with revision of the assembly's theological seminaries.

The general assembly of the northern Presbyterian church opened at 11 o'clock at the First Presbyterian church, where so many previous assemblies have met.

The opening sermon was delivered by Rev. Dr. Roberts of the Presbyterian of New York, the retiring moderator, on the subject, "Christian union and denominational loyalty."

Dr. Roberts spoke of the conflicts in the church and appealed to the assembly to take measures for the abatement of strife.

ANOTHER ASSEMBLY.

MEMPHIS, Tenn., May 21.—The thirty-sixth annual assembly of the Cumberland Presbyterian church was opened at 11 o'clock. The opening sermon was delivered by the retiring moderator, Rev. Charles R. Hemphill of Louisville, Ky.

Dr. Briggs Will Go to Europe.

NEW YORK, May 21.—The Herald this morning says: Prof. Charles A. Briggs, professor in Union Theological seminary, said to a reporter: "It is true I am to have a long vacation. The seminary managers have decided to give me a year's rest from work. My vacation will not begin, however, until January 1, 1897. In the meantime I expect to do my usual duties at the seminary. Dr. Briggs says his health was good but he has had no vacation in twenty-three years.

He will probably go to Europe. In this connection it is reported that the United Presbyterian churches have asked Rev. H. P. Smith to be their moderator, that Dr. Briggs, has had trouble with the general assembly, it being charged that he teaches that the Bible contains errors in consistence with the doctrines of the Presbyterian church.

The plant includes forty acres of ground in different parts of Elizabeth. It was purchased by H. C. L. Corbin, acting for a syndicate, who it is said, will reorganize the company. John T. The Methodist Conference.

CLEVELAND, O., May 21.—Governor Bushnell visited the Methodist conference this morning and was received with applause. Bishop Merrill, presiding, presented him to the conference. The consecration of bishops was set for Thursday next, at 11 a. m.

Dr. Henry Miller attempted to secure the suspension of rules in order to reconsider the vote by which pastors are required to secure the consent of a presiding elder before engaging an evangelist or holding a camp meeting or chautauqua. The motion was promptly voted down, there being 110 presiding elders and but 70 pastors in the conference.

For corresponding secretary of the church extension society Dr. A. J. Kynett and Dr. W. A. Spencer were nominated on the first ballot. On the fifth ballot Dr. Smith was elected secretary of the missionary society.

For secretaries of the Freedmen's Aid society Dr. J. C. Hartzell and J. W. Hamilton were nominated. Dr. R. F. Rust of Cincinnati, was made assistant secretary. The committee on epworth reported against the insertion of epworth residences. Boston and New York were selected without a second. Efforts to substitute Cleveland, Shanghai, Nagasaki and Pittsburg failed and Buffalo was opposed.

Dr. A. Lemmon moved to substitute Savannah for Pittsburgh, but the motion was defeated.

Washington, New Orleans at Fort Worth, Chattanooga, Knoxville and St. Louis were approved. When Topeka was presented the Omaha people attempted to substitute Omaha. A prompt point was made by leading Topeka or Omaha. Simultaneous and Denver were approved and San Francisco failed to get a second. Omaha failed to rise to read the Los Angeles and the contest ended. The amendment was carried and the report as amended was adopted. When Japan was reached Mr. Hoskin and Mr. Amos of Japan made strong plea for Japan. A motion was made to amend it by adding "or Tacoma." The motion was withdrawn before reaching a conclusion.
