All who have sense must readily acknowledge
Nothing's so good as really useful knowledge.
Since "useful knowledge" then, is such a boon,
You can't possess that same too soon;
But "how to get it?" "Would you like to know?"
Doubtless you would; then to H. TWELVETREE go.

WHAT WILL HE TEACH? Only this: How to do a large family six weeks' wash before breakfast for 6 cents, and how to clean the house with less than half the labor now used. This is true, or your money returned. Printed instructions how, sent by mail, sealed up, for $1. No housewife should be without it, says the Christian Intelligencer, and this advice is echoed by at least 500 newspapers and periodicals, and by thousands who have tried this plan. TEN THOUSAND CURES,

AND NOT A SINGLE FAILURE.

DR. HASTINGS'S COMPOUND SYRUP OF NAPTHA, celebrated throughout both continents for its wonderful cures of Consumption, Asthma, Decline, Spitting of Blood, Night Sweats, Difficult Breathing, Coughs, Colds, and all diseases of the chest and lungs.

Its effect upon the system is mild and soothing, at the same time certain and efficacious; rarely failing to give relief upon the first application, and by repeating it a few times a permanent cure is effected.

The proprietor, therefore, not only recommends his Naptha Syrup, but warrants it to cure. He warrants it to act upon the style, and purify it—he warrants it to remove all impediments which retard the free circulation of the blood—he warrants it to open the internal and external pores of the body, and eject all the obnoxious particles which have accumulated in the system; he warrants it as a never-failing remedy in

CURING DISEASED LUNGS.

Hectic Fever, Night Sweats, Dyspepsia, Liver Complaint, Pain in the Chest and Asthma; and he warrants it to arrest the formation of tubercles in the lungs, and to heal those already formed, so that persons in Consumption may take it with the most positive confidence of a cure, for its great seat of action is the Lungs, which it penetrates in all directions, purifying them of everything obnoxious in its progress, and which if applied according to directions, it cannot fail to leave in a perfectly healthy condition.

Dr. Hastings's Compound Syrup of Naptha is highly recommended by the medical profession. That eminent physician, Dr. Moll, of New-York, says, "that as a pulmonic remedy it cannot be too highly praised." Dr. Arnold, of the Marine Hospital, Savannah, Dr. Ware of Liverpool, England, Dr. Williamson of Manchester, England, Dr. Boyd of Lancaster, Dr. Hamilton of Bath, and those eminent English publications, the London Lancet, the Medical Journal, and Brethwaite's Retrospect, all accord to it the most convincing certificates of its virtues. In this country it has been used with distinguished success.
