Armies of Europe.

The Almanaih de Gotha for 1890 has a number of very interesting and undoubtedly accurate statistics in regard to the military forces of the various European states. The peace establishment of Germany is estimated at 487,866 men, that of France at 560,563 and that of Russia at 799,928. It is practically impossible to ascertain the fighting strength of the German army when placed on a war footing on account of the complicated arrangements by which portion of the territorial forces are worked into the strength of the regular corps, but the estiment of the Russian forces when on a war footing is given at 4,695,500 men exclusive of local troops, and that of the French at 3,784,000 men. Add to these formidable figures an array of about 10,000 pieces of artillery, and there will be but little wonder that even the most ambitious ruler should hesitate to call into action such engines of destruction.

By Trail to Deming.

The catule purchased in Aravaipa Canyon by A. H. Palmer, of Emporia, Kansas, arrived at George Frisk's rauch Wednesday. There were 506 head in the herd, purchased from the Eureka Springs Company, Dunlap Brothers and Messrs. Kenedy, Brewer, Knight, Jones and Cassidy. Mr. Palmer has intended to ship the cattle from here, but the Southern Pacific refused to allow him to use Santa Fe stock cars for the haul to Deming unless he paid mileage at the rate of five cents per mile a car, which would add $6.50 additional freight for each car, he decided to drive the cattle to Deming, and contracted with Otto Davis to deliver them at that place for $300. Mr Davis, with six other men, yesterday started with the herd, (which had been increased to about 540 head by steers purchased by Mr Palmer from T. T. Hunter, of this place), and expects to reach Deming in seven days. When Otto returns from this drive we shall have him report on the feasibility of the Deming trail, as he will then be prepared to speak from practical experience.—Wilcox Stockman.

Consumtion Surely Cured.

TO THE EDITOR —Please inform your readers that I have a positive remedy for the above named disease. By its timely use thousands of hopeless cases have been permanently cured. A BILL.

To authorize the leasing of the school and university lands in the Territory of Arizona and for other purposes.

BE IT ENACTED BY THE SENATE AND HOUSE OF REPRESENTATIVES OF THE UNITED STATES OF AMERICA IN CONGRESS ASSEMELED,

That the county supervisors of each of the counties organized or hereafter organized in the Territory of Arizona are hereby authorized to lease the lands devoid of timber and known mineral deposits heretofore reserved or that may hereafter be reserved for school purposes in their respective counties, in such manner as may be provided by the laws of said Territory.

SECTION 2. That all money derived from the leasing of the lands as provided by the first section of this act shall become part of the school funds of the county where such lands are situated, and shall be used for the building of school houses and the support of public schools in such county, and for no other purposes.

SECTION 3. That the Governor, Superintendent of Public Instruction and Treasurer of the Territory of Arizona are constituted a board, with authority to lease the lands heretofore selected, for university purposes, under provisions of the act of congress entitled "An act to grant lands to Dakota, Montana, Arizona Idaho and Wyoming for university purposes," approved February 18, 1881, in the said Territory of Arizona, in such manner as may be provided by the laws of the Territory of Arizona. Provided, that until the legislature of said Territory shall provide by law for the leasing of said university and school lands the said Governor, Superintendent of Public Instruction and Treasurer are authorized, with the approval of the Secretary of the Interior, to make the necessary rules and regulations to carry out the provisions of his act.

SEC. 4. That all moneys derived from the leasing of said university lands, as provided by the third section of this act, shall become a part of the university funds of said Territory, and shall be used for the support of the university of Arizina, and for no other purpose.

SEC. 5. That no lease under the provisions of this act shall be made for a term exceeding five years, and all leases shall expire within six months after the Territory is admitted as a State into the Union; Provided, That the Secretary of the Interior may, at any time in his discretion, annual any lease made under the provisions of this act.

SEC. 6. That where lands in the 16th and 35th sections, in the Territory of Arizona, are found upon survey, to be in the occupancy, and covered by the improvements of an actual pre-emption or homestead settler, or where either of them are fractional in quantity, in whole or in part; or wanting because the town-ship are fractional or have been or shall hereafter be reserved for public purposes, or found to be mineral in character, other lands may be selected by an agent appointed by the Governor of the Territory in lieu thereof, from the surveyed public lands within the Territory not otherwise legally claimed or appropriated at the time of selection, in accordance with the principles of adjustment prescribed by section 2, 276 of the Revised Statutes of the United States, and upon a determination by the Interior Department that a portion of the smallest legal subdivision in a section numbered 16, or 36, in Arizona, is mineral land, such smallest legal subdivision shall be exempted from the reservation for schools, and indemnity allowed for it in its entirety, and such subdivisions, or the portions of them remaining after segregation of the mineral lands or claims, shall be treated as other public lands of the United States.

Goo Results Will Follow.

An Alabama paper says that a philanthropist of Talladega, in that state, at the begining of the year began a bit of practidal work among the boys of that town, which will bear good fruit in the future, On New Year's day of 1889 he issued an invation to all the youngsters between 8 and 12 years of age to at his office. Sixty boys responded To each he gave $3 and a pocket knife, after which he invited them to a lunch. He then offered three cash prizes to the boys who should add the largest amounts to their $1. On the first of this month the boys were again invited to hiso ffice and $3 and a knife again given to each All had added to the original $3, and the boy who got the first prize $20, had on hand, $138. With early ideas of thrift thus installed Tallageda will show up with a large number of rich men among the coming generation.

Merit Wins.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters, and have never handled remedies that sell as well, or that have given ssch universal satisfaction. We do not hesitate to guarantee them every time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. D. J. BRANNEN.

On the rolling paririas. A band o cowboys has captured a horse-thief Cowboys (in gleeful chorus)—We've got you now you villian, and you are going to swing.

[They prepared the rope and selected a convenient tree.]

The Villian—Hold on, boy's. I'll bet you the drinks you don't stretch my neck.

Cowboys—Oh won't we, just!

[They pinion his arms.]

The Villain—I can put you up to some valuable secrets.

[They tie feet together]

The Villain—I know where $60,000 in gold is buried.

[They adjust the noose to his neck.]

The Villain I can put you on to a new silver mine.

[They commence to hoist him up.]

The Villain—And I've got six new tricks at cards.

Chorus of voices (excitedly)—Hold on! Let him down.

[He is let down, released and pardoned.]

Globe District in 1889.

The year 1889 was a fairly prosperous one for the mining industry of Globe district; the production of both silver and copper will show a considerable increase over that of the previous year, and the outlook is brighter for a more successful season in 1890 than we have enjoyed for years. A.L. Walker, Superintendent of the Old Dominion Copper Company, has kindly furnished us with figures representing the output of copper by his company during the past year; namely 5,915,510 pounds, as against 4,600,000 pounds in 1888. This is certainly a fine showing for the Old Dominion Company, and the value of their mine the Globe, is better appreciated by those who recently had access to the underground works, and occular proof to the extensive ore bodies in sight, sufficient to supply the smelter with ore through the current year; and developments now in progress, and contemplated, will increase the ore supply and facilitate its extraction. With an active copper market, a liberal supply of coke on hand and the probability of an open Winter, there is every reason to hope that the Old Dominion Copper Company will enjoy a continuous and and prosperous run.—Silver Belt.

The Grave Gets Tired Yawning.

Seemingly, for certain wretched invalids who toddle feebly along, though always looking as if they were going to die, but omitting to do it. They dry up, wither, dwindle away finally, but in the meantime never having robust health, know nothing of the physical enjoyment, the zest of that existence to which they cling with such remarkable tenacity. They are always to be found trying to mend by tinkering at themselves with some trashy remedy, tonic or "pick me up" to give a fillip to digestion, or "help the liver." If such misguided folks would resort and adhere to Hostetter's Stomach Bitters it would be well with them. This superb invigorant supplies the stamina that the feeble require, by permanently reinforcing digestion and assimilatisn. It overcomes nervousness, insomnia, malaria, kidney complaints, biliousness, constipation, rheumatism and neuralgia.

After the Faro Banks.

Suits aggregating $22,000 have been brought aginst five proprietors gambling houses in Kansas City, Kansas. by Mrs Laura Pearman, whose husband she says, lost $12,000 in these houses at playing faro

The $2,000 added in each case to the amount of money alleged to have been lost is in the way of damages. In her petition Mrs Pearman avers that the money her husband wagered and lost belonged to her and was given to him to increase his buisness and invest for her in real estate.

To Dispel Colds,

Hedaches and fevers, to cleanse the system effectually, yet gently, when costive or billious, or when the blood is impure or sluggish, to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, use Syrup of Figs.

To Whom it May Concern.

Notice is hereby given that I forbid the sale or incumberance of that ranch on the east side of San Francisco mountain known as the Smith Ranch, or of the black team of horses known as the Smith team, or of that house in Brannen's Addition to Flagstaff, known as the Smith house, and that I forbid my husband to sell or dispose of any such property, or to contract bills on my account.
