☞ On the 24th the memorial of our Legislature to the U. S. Senate in relation to the right of Bright and Fitch to seats in that body, was presented, after which Mr. Seward moved a resolution, that Lane and McCarty be admitted to the floor, but Brown objected, and the resolution was laid over for one day.

Speaker Orr, a fortnight ago, courteously granted them the privilege of the floor of the House, at the request of the Indiana delegation. They will endeavor to obtain permission to address the Senate, orally, concerning their rights to seats. If this be refused, they will present the Judiciary committee an elaborate brief, arguing their case minutely.

This brief enlarges upon the outlines of facts set forth in the memorial, and proves conclusively that while the journals of the Indiana Senate show that the Senate repeatedly refused to go into joint convention to elect Senators, the friends of Bright and Fitch fabricated a record to the contrary, and that this fabricated record being palmed upon Reverdy Johnson as genuine, influenced his legal opinion, and constituted the chief muniment of title of Bright and Fitch to their seats.

☞ A negro slave, Bob Butt, who buried 1,159 victims of the yellow fever during the pestilence in Norfolk, Virginia, visited Philadelphia on his parole of honor to participate in the imposing ceremonies in honor of the Norfolk martyrs a few days ago. Rev. Mr. Duchêtet closed his address by the following eulogy on Robert Butt, who was sitting at the time in one of the front pews:

He spoke of his devoted faithfulness and large-hearted humanity, and asked if such a man should remain a slave? No, he replied, we must set friend Bob free. (If he desires it,) with his wife and family. He has been sent on here with these bodies, though a slave, by his master, and he shall go back to Virginia a free man, and tell our friends in Norfolk what we have done. With his own hands he has buried 1,159 bodies, and has nursed and buried our friends and kindred.

These remarks, in reference to Robert Butt created a strong but subdued sensation in the church, and at the close of the services hundreds of ladies and gentlemen thronged around Bob and grasped his hand. As for him, he was entirely overcome by emotion.—An elderly gentleman offered him his freedom on the spot, but Bob replied he would see about it.

☞ In our issue to-day, a most exciting account of the recent difficulty between Douglas and Fitch is given. It is very apparent that the Little Giant showed the white feather, and quailed before the Mississippi Senator—We wonder that Douglas did not show more pluck.

By a more recent telegraph it is said, that mutual explanations have been made between the Indiana and Illinois Senator, and the difficulty is entirely settled.

Douglas has decidedly the worst of this difficulty.

Drs. Wortman & Williams,

Are traveling Physicians, they establish a route and aim to visit each place once in about six weeks. That course enables them to see their patients often, consequently they can prescribe with much better success than by writing.

One of them will be at the Terre-Haute House, in Terre Haute again on Saturday and Sunday, Feb 19th and 20th, 1859. They devote all their time to the study and treatment of Chronic Disease. Their extensive traveling affords them an opportunity to see and investigate a great variety of diseases. At nearly all the places they visit, their rooms are crowded with patients, all having different stages of disease, this gives them all the advantages that physicians derive from visiting Hospitals, they are prepared to treat, successfully, all curable cases. They treat Consumption and all diseases of the throat and air passages, by the inhalation of medicated vapors, together with general treatment. They at all times have from one hundred to several hundred cases under their special charge and and treatment—they are discharging cured, and receiving new applicants daily. By their local and general treatment, Consumption, in its first and second stages, is as much under the control of medicines as any other formidable disease. They wish it distinctly understood, that they are possession of, and use the Brompton Hospital remedies, that were adopted after many years experience, and the treatment of thousands of cases. Thus it may be seen, that they are not, as many are, experimenting, they pledge themselves to deal candidly and honestly with all, and give their opinions freely in all cases, they never urge any one to take their treatment, but leave all to choose their own course.

☞ All persons wishing their advice, will call early, as the air stay is short.

Dr. J. Dupenco's Golden Periodical Pills, for Females.

Infallible in correcting irregularities and removing obstructions of the monthly turns, from whatever cause.

These pills are nothing new, but have been used by the Doctor for many years, both in France and America, with unparelleled success in every case; and he is urged by many thousand ladies, who have used them, to make the pills public for the alleviation of those suffering from any irregularity whatever, as well as to prevent pregnancy to those ladies whose health will not permit of an increase of family.—Pregnant females, and those supposing themselves so, are cautioned against using these pills while pregnant, as the proprietor assumes no responsibility after the above admonition, although their mildness will prevent any mischief to health; otherwise these pills are recommended. Full and explicit directions accompany each box.

Their ingredients are known to all Agents selling them, and they will tell you, they are the best Pills ever introduced for all diseases peculiar to females. Price $1 per box.

☞ It would hardly do for any one now-a-days to have the temerity to question the excellence of Dr J. Hostetter's Celebrated Stomach "Bitters" for all diseases of the Stomach. In cases of Dyspepsia, Bodily Weakness, Costiveness, Dysentery, and general derangement of the digestive organs, their many virtues have long since been made plainly apparent. They purge from the system the morbid humors which retard their natural functions, embrown sallow pale ness to the cheek, and suffering to the brow. They banish those clogs upon pleasure, restore the system to high health, and necessarily prove a valuable adjunct to the digestive organs. A trial is all that is needed to establish them in the confidence of the sceptic.

Wood's Hair Restorative.—Prof. Wood the renowned discoverer of the invaluable Hair Restorative, still continues to labor in behalf of the aged.

His medicines are universally admitted by the American press to be far superior to all others, restoring the hair on the head of the aged, that has been silvered for many years, to grow forth with as much vigor and luxuriance as when blessed with the advantage of youth.

There can be no doubt that it is one of the greatest discoveries in the medical world. It restores perfectly gray hair to its original color, and makes it assume the beautiful silky texture, which has been so very desirable in all ages of the world.—[St. Louis Morning Herald.

IN ONE YEAR!

THE RESTORATIVE OF PROF. C. J. WOOD for Restoring hair perfectly and permanently, has never yet had a rival, volume after volume might be given from all parts of the world and from the most intelligent to prove that it is a perfect Restorative; but read the circular and you cannot doubt; read also the following:

☞ TOP HAIR.—People have for centuries been afflicted with bald heads, and the only remedy heretofore known, has been those abominable wigs. By a recent discovery of Prof. Wood these articles are being fast dispensed with, but a great many persons still patron them, because they have been so often imposed upon by Hair Tonic of different kinds. To all such persons we earnestly make the request, that they will try once again. For in Wood's Restorative there is no such thing as fail. We know of a lady who was bald, who used the article a short time, and her head is now covered completely with the tiniest and most beautiful curls imaginable. We know of numerous cases where hair was rapidly falling out which it restored in greater perfection than it ever had been before.

It is without doubt one of the best articles for keeping the hair in good condition, making it soft and glossy, removing dandruff, and has proved itself the greatest enemy in all the ills that hair is heir to.

It is the duty of every one to improve their personal appearance, though some may differ in regard to the ways of doing it; but every one will admit that a beautiful head of hair, either on man or woman, is an object much to be desired, and there are no reasons that should be left untried to obtain such a consideration.—[Woman's Advocate, Philadelphia.

COLUMBIANA, O., Nov. 17, 1858.

Backinson,) and having experienced the beneficial effects of it myself, I would like to obtain an agency for the State of Ohio, or some State in the West, should you wish to make such an engagement, as I am convinced there is nothing equal to it in the United States, for restoring the hair. I have been engaged in the Drug business for several years, and have sold various preparations for the hair, but have found nothing that redness secretive organs of invigorates the scalp as well as yours, being fully convinced that your restorative is what you represent it to be, I would like to engage in the sale of it, for I am satisfied it must sell.

Yours truly, S. T. STOCKMAN.

PROF. C. J. WOOD & CO.—Gents: Having realized the good effects of your Hair Restorative, I wish to state, that finding my hair growing thin, as well as gray, I was induced from what I read and heard, to try the article prepared by you, to promote its growth and change its color as it was in youth, both of which it has effected completely. In the operation I have used nearly three bottles. Yours, &c.,

The **Howard Association**, in view of awful destruction of human life, caused by such diseases, and the deception practised upon the unfortunate victims of such diseases by quacks, several years ago directed their Consulting Surgeon, as a **Charitable Act** worthy of their name, to open a dispensary for the treatment of this class of diseases, in all their forms, and to give **Medical Advice Gratis**, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and (in cases of extreme poverty, to **Furnish Medicines Free of Charge.** It is needless to add that the Association commands the highest Medical skill of the age, and will furnish most approved modern treatment.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal, to this very important but much despised cause.
