LUMBER STEALERS ARRESTED.—The *Chicago Journal* of the 1st inst. gives the following account of numerous seizures of vessels engaged in the lumber trade on the Upper Lakes. The *Journal* says:

"The Government, for the past few days, have done a 'Land Office business' in this region. Forty-six vessels, engaged in the lumber trade between Milwaukee, Chicago and other points upon this and the other side of the lake, have been seized by the United States officers, most of which have been bonded. The officers are now here awaiting the arrival of the balance of the fleet.

"It is supposed the vessels engaged simply in the carrying trade will be released, but such as are owned by the proprietors of mills located on, or supplied from land belonging to the Government, will be forfeited to it.

"Two thousand of the saw-logs seized a short time since at Crane River were sold last week at auction, bringing on an average one shilling each. This sum represents the government an amount equal to the price for which the land can be entered.

"The most efficient steps have been taken to protect the public lands from depredations of this nature, and we think with a very fair prospect of success."
