AYER'S CHERRY PECTORAL—For the rapid cure of coughs, colds, asthma, croup, hoarseness, bronchitis, asthma, incipient consumption and for the relief of consumptive patients in advanced stages of the disease.

This remedy is offered to the community with the confidence we feel in an article which seldom fails to realize the happiest effects that can be desired. So wide is the field of its usefulness and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs, which are incident to our climate. And not only is the formidable attacks upon the lungs, but for the milder varieties of Colds, Coughs, Hoarseness, &c. and for children it is the pleasantest and safest medicine that can be obtained. No family should be without it, and those who have used it, never will.
