The Morphy Testimonial.

The London Era, of April 17, contains a long account of the reception of Paul Morphy in London, upon his return from the continent. He was treated in princely style by the London Club, by which he was feasted and toasted, but not beaten at chess.

The following is a description of the Testimonial which has been prepared for Mr. Morphy upon his return from Europe.

Through the courtesy of Messrs. Tiffany & Co., we were recently enabled to inspect the set of chess men which is to be presented to Mr. Morphy upon his return from Europe.—The white pieces are of solid silver, and the black pieces of solid gold, standing upon bases of cornelian—the gold metal being covered in all cases, with elaborate and delicate workmanship. The Pawns, Bishops, Queens and Kings, are all human figures; the Knights are horses rampant; the castles are elephants, each with a spread eagle. The white Pawns are Gothic belligerents, with clubs and helmets, and are dressed in skins, with the horns of the animal projecting from their heads.—The black Pawns are less barbaric soldiers, armed with the shields and short swords of the Roman legionary. The Bishops evidently belong to the church militant, being stalwart warriors, with elevated swords, bucklers, helmets, and even a pair of Mercury's wings.—All the royal personages bear globes or balls upon their heads in place of crowns, which are unused at their feet. On the shield of the white King is seen the motto "Liberty."

The chess board is a splendid piece of workmanship, and artistically inlaid with ebony and mother of pearl. The border is made of silver, and will exhibit at each corner, encircled in wreaths, the letters "P. M.," the initials of the greatest chess genius that yet ever lived. The sides of the border are chased and beautifully designed.

On the first side are seen one pyramid in the foreground and two in the back ground. Two allegorical figures, denominated Sphinxes, lie in bold relief at each angular base of the front pyramid, and on its face are engraved the names of the following eminent chess players Morphy, McDonnell, La Bourdonnais, Lepez, Philidor, Saint, Bilguer, Petroff, Kieseritzky, Von der Lasa, Andersen, Lowenthal, Harwitz, and Lange.

The second represents a shield, with the arms of the State of New York and a sphynx at each side.

The third is illustrative of a shield surmounted with a wreath, and surrounded with flags. At the top of the shield is seen the inscription, "To ——."

The fourth side is surrounded with shields and lances. In its centre is also a sphynx, coupled with the names of the Testimonial Committee.

This magnificent equipage, when finished will be highly creditable to Messrs. Tiffany & Co., and will be well worthy of its future possessor.

What a Decived Husband ought to do.

From the Balt. Daily Sun, on the Sickles Tragedy

No married woman can be approached by any man with undue professions of regard or of affection, but with an instinctive knowledge of his design. Not the slightest impropriety, not the least indelicacy in a word or deed can be thrust upon her observance, without startling her honor and putting her on guard. She is at once armed; she has a counsellor ever at her side to direct her, and a champanion to defend her—in a true and honorable husband. Hence the law extermines guilt at least equal to that of the most seductive and designed invader of her honor, when she falls.

The married woman is arrayed in the very panoply of virtue and cannot be *surprised*. She can hardly be said to *fall*—she steps aside of her own free will and sins deliberately With these premises can there be any difficulty in answering the question, what husband ought to do in the event supposed? We say just what many a good and true and honest man has done before, and we could name a shining example in the act of one who well deserves the title of hero and philosopher.

He neither slew the man nor woman. He called the erring wife before him, and bade her take whatever she could rightfully claim as her own, and leave him forever, and then like the hero that he was and is, he pursued manfully the even tenor of his way, and all men honor him. This is what, in our opinion, a man ought to do.

The Watson & Shannon Money.

The law passed a few weeks ago in relation to individual issues of promises to pay, having bearing upon the Watson & Shannon money—their notes are as good now as they ever were. The impression has gone abroad that under the late law, they will be compelled to wind up, which we are assured is not the case.—Therefore, we will here state for the benefit of the holders of this money, not suffer themselves to be shaved upon amount of it, for if they will but present it at the counter they can get an equivalent to gold and silver, dollar for dollar.—*Terre Haute Daily Union March 15th.*

COMMERCIAL EXCHANGE BANK.—What we said in our paper of Tuesday, regarding the currency of Messrs. Watson & Shannon, is equally applicable to the issues of Commercial Exchange Bank. The recent enactment of our Legislature and, as both are managed by gentlemen of responsibility and integrity, are equally entitled to the confidence of community. When people lose a hundredth part as much from this class of currency as they have already from issues of *authorized* Banks, (so called,) in this State, that have depreciated on their hands, it will be times to complain.—*Terre Haute Daily Union 16th.*

☞ A novel and very admirable idea is in process of being carried out at Tarrytown on the Hudson. About 100 acres of ground adjoining Sleepy Hollow—made memorable by Irving's pen—have been converted into a park which, when finished, will contain carriage drives of several miles in extent, neatly kept walks for promenaders, and spacious lawns sloping terraces, where the children can play and gambol. Within this park are villa sites from one or two to six eight acres in extent which are for sale, and each purchaser will not only possess as charming homestead, but also be guaranteed all the privileges of the park, which ground will be for the use and benefit and under the control of the owners of the sites.

BRITISH ANNEXATION.—The English have taken possession of another island in the Red Sea, which they claim to have purchased from an Arab Sheik. The name of this last acquisition is Kramakau. It lies north of Perim, near the Arabian shore, and it is said to be almost wholly surrounded by submarine banks, rendering it easy of defence.

☞ Horace Greeley announces that he will leave New York about the 10th of May for a trip through Kansas to the alleged gold region at Pike's Peak, thence through Utah and the Great Basin to California, returning across the continent or by the Isthmus, as circumstances may dictate, against the 25th of September. He will write as frequently as practicable for the Tribune.

☞ The Legislature of California, at the suggestion of Gov. Weller in his annual message, has passed an act appropriating one thousand dollars annually to the Washington Monument.

P. M. Donnelly set his magnificent Sodamount into active operation on yesterday. The sparkling liquid which it distils, is exceeded no in this city.

☞ But she (Miss Hulett) only holds man accountable so far as his intellect is capable of dictating reason.—*Union.*

Aside from the lucidness of the above period, it would be very fortunate for the editor of the *Union* if such was the true doctrine—for he would then most certainly escape all punishment, in another world.

☞ We noticed, yesterday, workmen measuring off the ground between the Southern Bank and buildings east, with a view to filling up that gap on Wabash Street. This will be a great addition to the appearance of that street. A block of the same character on the S. W. corner of Wabash and 5th will complete that side of Wabash street, nearly.

CELESTIAL.—Such of our citizens as are tired of looking at earthly objects, can have an opportunity of gazing heavenwards, as some enterprising individual has placed a very large Telescope on the corner by Edsall and McDougall's store, where for a dime a look they may gaze upon the Sun, Moon and Stars, magnified, about like we magnify our neighbor's faults.

Printers' errors are sometimes laughable. A young clergyman printed a sermon, the subject of which was the necessity for moderate and rational recreation, in which occurred the passage, "Men should work and play too." The want of a stoke ruined it, and the religious world was scandalized by reading, "Men should work and play too."

☞ The Shelbyville, Ind., Banner says that an Irishman, named Pat Carey, recovered $660 damages of a Mr. John Bumgarner for breaking his leg by placing an obstruction on the track of the Columbus railroad, which threw a hand car off the track.

☞ The Washington correspondent of the New York Tribune says President Buchanan will save $12,000 a year out of his salary. His private secretary and steward are now paid by the Government, which was not formerly the case.

The list of the Bachelors Assemblies at the Buntin House on Thursday evening, was a brilliant final to those delightful parties.

☞ The notes of the Central Bank of Pennsylvania, at Hollidaysburg, were discredited in Philadelphia on Wednesday.

☞ Barr's Soda Fount is the place to get refreshed. It is in full blast all the time.

Terre-Haute Female College,
TERRE-HAUTE, INDIANA.

THE Second Session of this Institution will commence on TUESDAY, the first of February, and continue Twenty Weeks.

Eighteen Professors and Teachers of superior qualifications, and selected with great care, constitute the Board of Education. Profs. Alphonso Wood and R. C. Bonsfield, and all the leading Teachers, have been so long, and so favorably known in the public, as to render unnecessary any remarks respecting their qualifications.

The location of the College, for health and beauty, cannot be surpassed—and the Buildings erected and furnished at an expense of about $70,000, offer home comforts, rarely to be found in institutions of learning. They are warmed by steam and lighted by gas.

The apparatus for experimental illustration, includes a good Telescope, Microscope, and every requisite to illustrate fully all the principles of the sciences pursued.

Weekly Lectures are delivered before the School. The Music Department, under the care of Prof. Anthon and Miss Newby, both of whom rank in their respective departments, is in a highly flourishing condition.

The course of studies is extensive and thorough.—the Classics constituting a prominent feature. All the classes in the College course are responsible for numbers and attendance, the School Class numbering Ten.

The expenses per annum, including rooms furnished, board, tuition in all the branches of the regular course, fuel, lights and washing $225.

☞ Any further information respecting the School may be had, by addressing Rev. John Covert, or Rev. Jeremiah Wood, Terre-Haute, Ind.

THE EYE.

OF all the organs which benificent nature has endowed man with, the eye is the most important, most complex, and most delicate in organization. From its exposed situation it is constantly liable to disease which assumes varied forms and which when neglected, or maltreated, too frequently terminates in blindness. To consult a Physician—absolutely necessary, that the practitioner shall be thoroughly conversant, not only with the eye ball and its appendages, but that he shall have a most accurate and perfect knowledge of all diseases to which that organ is liable.

In presenting this card for public consideration, I would observe, that after an experienced of over ten years in the principal ophthalmic hospitals of Europe together with the advantage of a large private practice I am prepared to treat all diseases of the Eye with that certainty of success which can only be ever amplished by years of experience.

Ayer's Cathartic Pills,
For all the Purposes of a Family Physic,

ARE so compounded that disease within the range of human medicine can rarely withstand their effects. Their penetrating property is such, and extends to every portion of the human organism, correcting its disordered action, and restoring its healthy vitality. As a consequence of these properties, the invalid will soon be found to cease to complain of pain or physical debility is speedily found to find its health or vigor restored to a degree, at once astonishing and exciting.

Not only do they cure the everyday complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints:

Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,

And other kindred complaints, arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else.

Ayer's Cherry Pectoral
FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Confirmed Consumptive Patients in advanced stages of the disease.

SO wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from apparently dangerous and even desperate diseases of the lungs by its use.—When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public and druggists hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many imposters for notice thrust upon the community have failed and been discarded, this has gained friends at every trial, conferred benefits on the afflicted they can never forget, and produced cures for testimonials and are a remarkable one to be forgotten. Prepared by DR. J. C. AYER & CO.,
Lowell, Massachusetts.
