☞ Yesterday all the stores were closed during the day, with the single exception of J. C. Ross & Son!

☞ Yesterday morning, the 4th day of July, was so cool that fire was very agreeable. We make the record.

☞ Several fights occurred late in the afternoon yesterday. Esq. Smith administered the law according to Coke.

☞ We hear the oration, delivered in the German language, by Mr. Lange yesterday, spoken of in the highest terms. It is to be translated and published.

We have no doubt it will be a rich treat to read it, for Mr. L. is one of the finest scholars, and most thorough historians of the country.

City Item.

The editor of this paper announces that his issue of Saturday is the "*last number.*"

☞ There was a free fight on Main street, between Fourth and Fifth, yesterday. The city officers pitched in and soon made the majesty of the law respected. It was thought by many that the officers were unnecessarily severe in this matter, but we noticed it had a tendency almost immediately to quiet the increasing disposition to make the fight general. Officers often have to make themselves *felt* as well as heard.

☞ The daughter of Mr. Seely, of Lost Creek township, while riding along Wabash street yesterday, was thrown from her horse and considerably injured. We are happy to learn she is much better to-day, and her injuries are regarded as not serious.

☞ By telegraph, we have this morning further particulars of the Atlantic's aerial voyage from St. Louis to Jefferson county, New York. Also accounts of the celebration in various cities, and other interesting items.

The Balloon.

The Balloon was seen at Ft. Wayne, at 4 o'clock on Saturday, and at Niagara Falls at 12 M., same day.

CINCINNATI, July 3d.

The Balloon Atlantic landed at North Adams, Jefferson county, New York, at six o'clock yesterday afternoon. No particulars have yet been received, in consequence of the heavy storms prevailing on the eastern line.

☞ Those who visit Indianapolis will find Mr. Jesse D. Carmichael, and his right hand man, Mr. Morrison, who, together preside over the destinies of the Palmer House, very attentive and assiduous in their efforts to make your stay with them pleasant. They and the "Palmer" are deservedly favorites with the traveling public. Call and see them when you visit that city.

☞ The office of the *State Sentinel* was most elegantly decorated on the 4th, with flags, heads of Washington, goddesses of liberty, American shields, and other national insignia, making a magnificent appearance.

GOOD TASTE.—The locomotive, "Sampson," which, under the direction of Archy McKinney, took the large train over the T. H. & R. R. R., on Monday morning, was most beautifully and elaborately decorated, with flags, evergreens, a portrait of Washington, the signers of the Declaration, &c. No locomotive in the Union Depot at Indianapolis could compare with it.

☞ Notwithstanding the immense crowd on board the 6:30 train to Indianapolis, on Monday, McEwen, who possesses no superior as a special Conductor and clever gentleman, set all down at the Union Depot, Indianapolis, without the slightest injury to any one. McEwen understands his duty, and does it faithfully.

LOST.—A Gold Chain and Cross on the Picnic grounds near Hartford on the 4th.

The finder will be rewarded by leaving it at this Office or at C. A. Goodwin's Rifle Factory, Ohio st., between 3d and 4th.

Terre Haute July 6

☞ ANOTHER PITTSBURGH testifying to the wonderful curative powers of Boerhave's Holland Bitters.

Mr. JACOB WHITE, Third street, below Market, says:

"For a year past I have been afflicted very seriously with dyspepsia, so much so, that my stomach refused to retain anything; I have tried almost every remedy, and the regimen of several physicians, but without alleviation, until I began the use of *Boerhave's Holland Bitters*, and have now found relief almost amounting to a cure. I found it efficacious in removing the extreme debility occasioned by this disease, and generally as a tonic it has occasioned by this disease, and generally as a tonic it has few equals and no superior."

July 6 d1w w1t.

☞ We are rejoiced to find that the renowned Chemist of New England, Dr. Ayer, has at length turned his attention to the disorder which hangs like a blight on our community. Our section is as healthy as any other, with one single exception, and that is the Fever and Ague, which haunts us on every side.—his remedy does cure, as we should know it must, if he made it. Cast out this baleful distemper from among us, and ours is one of the lovelest spots in the west.—*Sentinel Fairfield Iowa.*

Tell the Truth and Shame the D——l.

We go for telling the truth in spite of consequences—and in spite of popular prejudice. The latter [popular prejudice] has recently been made use of after having been duly exercised by municipal authorities [we make no insinuations as to their motives] with a view to "crush out" Lotteries; and we blame not the efforts of said authorities, so long as they are *exclusively* directed against *bogus* institutions. But where notoriously honorable dealing has ever characterized enterprises of this kind [as in the case of Wood, Eddy & Co.] we fearlessly maintain that a crusade against such concerns is neither justifiable nor praiseworthy. Let the truth be told, we say again, regardless of consequences. And what is the truth? simply, reader, that the above firm and their predecessors have, in every instance, [and it cannot be denied] promptly honored drafts upon them in the shape of lucky tickets, several of which drafts have been for the first and second prizes viz. $70,000 and $36,000. Think of this fact, reader, before you indiscriminately condemn all Lottery management, and when you chose to venture ten dollars by addressing Wood, Eddy & Co. at either Augusta, Georgia, or Wilmington, Delaware, you will receive honorable treatment.—*Rahway N. J. Republican.*

ESTRAY NOTICE.—Taken up by Jesse McGrath, living in Sugar Creek township, Vigo county, Indiana, on or about the 31st day of May, 1859, one bay filly, supposed to be three years old this spring, marked with some white hairs on the right side of the face also a large scar on the right fore leg above the knee; also, a scar on the left hind leg just below the pastern joint, no other marks or brands perceivable, and has been appraised by George W. Russell and Frederick Blue, to be worth seventy-five dollars, as has been reported to me this 11th day of June, 1859.

SPECIAL NOTICES.

☞ Among disease, Dyspepsia and Diarrhœa rank as most difficult to cure. We are pleased to have it in our power to point out a remedy which has proved effectual in many cases, and which we can safely recommend as certain and healthful cure. It has been the means of rescuing thousands from an untimely grave, and given the glow of health to many a loan and cadaverous form. The medicine we have reference to is "Hostetter's Celebrated Stomach Bitters." These Bitters, whose virtues are promulgated through the State, are continually increasing in the favor of the public, and, from the many cures they have effected, have doubtless the ascendency over any other preparation before the public.

DR. J. H. ROBINSON

ON THE

NORTHERN TRAPPING GROUNDS!

Nick Whiffles in the Pison Newspapers ag'in, by mighty!"

The

NEW YORK MERCURY

FOR SATURDAY, JUNE 25th, 1859.

(NOW READY AT ALL THE NEWS DEPOTS AND BOOK STORES,)

Will contain the initial chapters of a new Western tale, from the graceful and felicitous pen of

DR. J. H. ROBINSON,

who has been engaged to write EXCLUSIVELY for that journal for a term of years. This story is entitled

"PATHAWAY;

OR,

THE MOUNTAIN

A TALE OF THE NORTHERN TRAPPING GROUNDS,"

And is considered by the author to be the very best work which his talent has yet produced.

Those who know the dramatic power and ELEGANT STYLE, the interesting situations and BEAUTY OF INCIDENT, which have rendered famous all the writings of the

Author of "Buck Bison,"

cannot but hail with delight this new emanation from his pen.

THE TRAPPING GROUNDS OF THE NORTH AND WEST

form a peculiarly favorable field for the location and working out of a romance, and the characters that roam through that FLOWERY WILDERNESS are especially fitted for introduction into its pages.

The readers and admirers of

Dr. Robinson's Writings

will remember with pleasure the character of

"Nick Whiffles"

in a story of that name, recently published, and will be glad to learn that the same personage will figure in

PATHAWAY,

surrounded, as ever, by many "Difficulties," and lending to the romance a vein of sympathetic humor and quaint drollery that will render it irresistible to the lover of fun and the student of human nature.

In addition to this attraction, the plot will be found more INTRICATELY MYSTERIOUS, and the situations more replete with the fire of DRAMATIC INTEREST, than in any other story the author has yet written. It is full of

Wild Life and Action,

crowded with stirring incident and

Perilous Adventure,

and through the whole story runs an underplot which interweaves a *golden-threaded woof* of sentiment, clothing all with the radiant light of the *gentle charm of love.*

The most exciting and picturesque scenes of

PATHAWAY

will be chosen as the themes for a series of

Beautiful Illustrations,

from the pencil of the most celebrated of American artists,

FELIX O. C. DARLEY,

whose drawings have made the

New York Mercury

such a favorite with all who appreciate true artistic excellence. The pen and pencil of Dr. J. H. Robinson's descriptive writing is such that the artist can seize upon his creation without difficulty, and thus the best powers of

PEN AND PENCIL

are brought to bear with as great a unanimity as if both were wielded by one person.

The proprietors of the Mercury are proud of the popularity which their journal has attained, and cannot but take some little credit to themselves for the good which they believe they have done in carrying out their first intention—that of making the

New York Mercury

a medium for the familiarization of the reading public with the best works of the most

DISTINGUISHED AMERICAN AUTHORS.

To secure this end, they have spared no expense; and whatever they have thought could gratify the tastes of their thousands of Readers, they have done, without questioning either the labor or expenditure required.

For the EXCLUSIVE RIGHT to the works of

DR. J. H. ROBINSON

they pay a larger sum than any American remunerator has ever before received from any newspaper, and the public are already aware of the great outlay necessary for the engagement of such men as

BAYARD TAYLOR,

FELIX O. C. DARLEY,

GEORGE ALBANY,

and others. Yet it is believed that the increasing

Refinement of the Popular Mind

demands such men, and the "Mercury" is intended to keep up with the progress of the age.

A series of

Brilliant Novelties

will appear in the columns of this

JOURNAL OF

AMERICAN LITERATURE,

in rapid succession, and while the proprietors are eminently well satisfied with the share of popularity hitherto accorded, they are determined to deserve still more by using every means possible to increase the attractions of their paper.

THE

Lyon's Magnetic Powders

Will destroy Garden Insects, Cockroaches, Bed Bugs, Fleas, Ants, Moths, and all pests of the Vermin kind.

The importance of a reliable article of this kind is incalculable. In warm weather all nature teems with these annoying foes. This powder is the only article ever discovered which will exterminate them. A company of botanists, from the Horticultural Society of Paris, while amidst the forests of Asia, observed that all insects fighting upon a certain kind of plant were soon dropped dead. This fact was made use of to guard their night camps from these intruders. Quantities of the plant were brought home by Mr. R. Lyon, and found a positive insect destroyer in every experiment. It is simply a powdered leaf, chemically prepared to retain its full effect of age and climate. Medals and Letters Patent have been obtained from the Governments of England, France, Germany and Russia, from the world's Fair, Fair, and numerous medical and horticultural colleges and societies.

Letter from the President of the United States.

Executive Mansion, Washington, Jan. 31, '58.

MR. ERANCEL LYON—Dear Sir: I have the pleasure to inform you that the Royal Commission of the World's Fair, at London, have awarded you a Medal and Certificate for the great value of your Magnetic Powders, for exterminating insects, &c.

MILLARD FILLMORE, Chairman.

The above was accompanied by a certificate from Prince Albert.

It is free from poison.

NEW YORK, October 1, 1858.

MR. R. LYON—Dear SIR: We have analyzed and tested your Magnetic Powders, and find them perfectly harmless to mankind and domestic animals, but certain death when inhaled by bugs, ants and insects.

NILES R. CHILTON, CHEMIST.
SARANCE REID, PROF. CHEMISTRY, N. Y. HOLAU

MR. JOHN L. HOND, Superintendent New York Hospital, says "he has expelled all the bugs, ants, roaches, moths, &c., with Lyon's Powder, and finds it of immense value."

Every gardener and housekeeper must have a direct interest in an article of this kind. Reference can be made to the Astor, St. Nicholas, and Metropolitan Hotels; to Judge Mason, President of the American Institute; James Gordon Bennett, Gen. Winfield Scott, Cyrus W. Field, L. M. Pease, the Five Points Mission, &c. &c. Judge Meigs says "This discovery of Prof. Lyon is of national importance. The Farmers' Club have tested it thoroughly. It will destroy locusts, grasshoppers, ants, moths, bugs, and all vermin. Garden plants can be preserved, and houses made pure."

Arrangements are now made through Messrs. Barnes & Park, of New York, to have it sold throughout the world. Many worthless imitations are advertised.—Be cautious!

"NEW YORK, Nov. 8, 1858.

"In retiring from business, I have sold all my Insect Powders and Pills, Letters Patent, and the secrets pertaining thereto, to Messrs. Barnes & Park.—This Powder is a discovery made by myself, and brought from the interior of Asia, and is unknown to any other persons. The genuine and effective article is put up in tin canisters, and will continue to bear my name. E. LYON."

Rats and mice cannot be reached by a powder, and are killed by a Magnetic Pill. Order them through any merchant.

"'Tis Lyon's Powder kills insects in a trice,
But Lyon's Pills are mixed for rats and mice.

Sample Flasks, 25 cents; regular sizes, 50 cents and $1.00. Follow directions. Use freely and thoroughly.
