THE WIFE THAT MEETS ONE AT THE DOOR.

I never leave my home a day,
However with others it may be—
But that I get, when I come back,
Welcoming smile and hearty smack,
That makes me love, still more and more,
The wife that meets me at the door.

Her dress is always neat and clean—
A pretty wife, and not too vain—
And when she sings my favorite song,
How sure am I the man is wrong
Who weds not—be he rich or poor,
A wife to meet him at the door.

The little chickens run to meet,
And pick the crums up at her feet;
Old Towser licks her proffered hand,
And frolics round her in the sand;
There's nothing like, I've said before,
A wife that meets one at the door.

In social hall her smiling face
In every heart wins quick a place;
The gayest lad that walks the green
Will tip his hat when she is seen;
And hopes to meet, when teens are o'er,
Just such a wife at his own door.

CALEDONIAN FESTIVAL IN NEW YORK—The Caledonian Club of New York held their third annual meeting at Jones' wood, on Thursday of last week, for the purpose of competing in the athletic games peculiar to Scotland. The members of the Cleb, numbering about 200, are all Scotchmen, or the sons of Scotchmen, and were dressed in Highland costume. Their first exercise was to dance a Scotch reel, to the music of bag pipes, and their bonnets and kilts and variegated plaids, amid the sylvan surroundings, presented a picturesque scene. The next was a trial of strength in throwing a heavy sledge-hammer, weighing 22 pounds, after swinging it over the head. The two who won the prizes, threw it 66 and 63 feet. The prizes for throwing a light hammer, weighing 12 pounds, were won by the two who threw it 84 and 79 feet. Tossing the caba, a log of wood 16 feet in length, next took place. A stone weighing 24 pounds, placed in the palm of the hand, was thrown by one member 23½ feet, and 22½ feet by another. The *cille collum* or broad sword dance consisted in dancing over two broadswords crossed on the ground, so as not to touch the swords. The longest standing jump was ten feet; the longest running jump, 15 feet; the highest jump was, 4 feet 5 inches; the best hop skip and jump 30½ feet; the best running high jump was 5 feet 1 inch. Dancing, hurdle racing and blindfold barrow racing closed their national sports.

BEAUTY.—Beauty has been called "the power and arms of woman." Diogenes recommendations." Carnedes reproclaimed it as "a queen without soldiers," and Theocritus says it is "a serpent covered with flowers," while a more modern author humorously defines it "a bait that as often catches the fishers as the fish." Nearly all the old philosophers denounced and ridiculed beauty as evanescent, worthless, and mischievous. But, alas! while they preached against it they were none the less its slaves. None of them were able to withstand "the sly smooth witchcraft of a fair young face."

"Fair tresses man's imperial race ensnare."
And beauty draws us by a single hair."

A really beautiful woman is a natural queen in the universe of love, where all hearts pay a glad tribute to her reign. But, it is nevertheless true, that the geographical standard of beautiful is various and unstable.—As Cowley sings:—

"Beauty, thou wild fantastic ape,
Who dost in every country change thy shape,
Here black, there brown, here tawney, and there white!"

WIFE.—This good old Saxon word (*wif*) is, after all, the dearest and most sacred word in the whole vocabulary of love. Around it clusters all that is most beautiful, chaste, and permanent in the tender passion. Into whatever forbidden paths the heart of man may wonder, still it must return at last, to the hallowed name of wife for consolation and rest. Any other relation between the sexes, however alluring to the immagination, invariably ends in wretchedness, in shame and degradation.

A Good Sell.

"Have you heard, Bill, that there was a telegraph dispatch from New York tonight that Sir John Franklin had been found?"

"No! Is it true?"

"Certainly; Grinnell's ship found him."

"Where did they find him?"

"Above the channel, of course."

"What was he doing?"

"Leaning against the North Pole, and trying to get up steam to thaw himself out!"

We left before the fight begun.

☞ The Southern Sun, published at Vicksburg, Mississippi, is down on all southern men who will not go the whole figure in their devotion to slavery. It says;

James G. Birney, the first Abolition candidate for the Presidency, was at one time a large slaveholder in Kentuckey. So was Cassius M. Clay, the vilest Abolitionist in the land, and we believe so yet. Sam. Houston and John Bell are both slaveholders. The treason of these men to the South has been open and flagrant. Devotion to our constitutional rights is not to be measured by the amount of property one possesses, but by his principles and acts. When a Southern man is found standing side by side with our enemies, we do not stop to ask whether he owns negroes or not: we set him down at once as a recreant to the section in which he lives.

A CRINOLINE JOKE.—At the last carnival in Paris many attempts were made to ridicule the prevatent style of female attire. The most successful one is thus described:

At another of those balls much merriment was excited by the appearance of a young gentleman of about twenty years of age, slender, fair and guiltless of beard, who had attired himself in the extreme of the prevailing feminine fashion. On his head, or rather a considerable distance beyond it, he wore a tiny pink satin bonnet, stuck on the ends of immense stell pins, about half a yard long, fastened firmly on the back part of the hair, put on for the occasion; his dress was of course enormously wide when he entered the ballroom. Making his way to the centre of the saloon, he proceeded by means of some ingenious hidden mechanism, tod evelope the ample folds of his skirt, and until his gown literally assumed the dimensions of a balloon, filling the ballroom from wall to wall, and driving the company into the corns, and forcing them into the adjoining rooms.

☞ "Is that man who desires to be appointed Receiver of the Public Fund in your State," said Gen. Jackson, "a good hand to keep money?"

"He's *kept* everything he's ever laid his hands on, General," said his neighbors.

The appointment was postponed.

☞ An old leg attracted the attention of an engineer on a New York railroad track last week, and search being made other portion of a human body were found scattered about. Upon putting them together, they bore a faint resembling to a man named Bowman, who, very much intoxicated, was seen walking upon the track, and, it is supposed, overtaken by a train was killed and distributed in this melancholy manner.

AYER'S
Ague Cure.
FOR THE SPEEDY CURE OF

Intermittent Fever, or Fever and Aue, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangement, caused by the Malaria of of miasmatic countries.

NO ONE REMEDY IS LOUDER CALLED for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such a remedy we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity.

That which protects from, or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "CURE" expels the miasmatic poison of Fever and Ague from the system and prevents the development of the disease if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body, and in bilious districts, where Fever and Ague prevails, every body should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of intermittents, is that it contains no Quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "CURE" expels the poison from the blood, and consequently cures them all at once. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. It takes occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents, if they avail themselves of the protection this remedy affords.

Blood Purifier and Blood Pills.

BOTANY. CHEMISTRY. EXPERIENCE. PHARMACY.

DR. ROBACK'S
SCANDINAVIAN REMEDIES.

WHEN DR. ROBACK, THE CELEBRATED Swedish Physician, introduced his Blood Purifier and Blood Pills in the United States, he set forth in plain language their curative properties. This was years ago. The task of recommending them has since been taken out of his hands. Enlightened men whose character for sound judgment and philosophy, gives their opinions weight in the community, men who observe, reflect, and make assurance doubly sure before they decide—are everywhere approving and urging the use of these wonderful Preparations. All who confide in the wisdom and honesty of this class, or who chose to investigate for themselves are now of one mind on his important subject.

Dr. Roback invites the attention of the sick to the

These parties may be consulted personally or by letter, by those who have any doubt upon the subject. The evidence in the possession of Dr. Roback, which is at all times accessible to the public, establishes the following

FACTS:

That the Blood Purifier and Blood Pills have been proved by analysis to

CONTAIN NO MINERAL;

That they cure the almost universal complaint,

and restore the health and strength of the sufferer. That

SICK FEMALES,

who have languished for years in helpless weakness and despondency, recuperate with great rapidity under their invigorating operation. That all sexual disabilities are removed by their cordial and gently stimulating properties. That they recruit

SHATTERED CONSTITUTIONS,

however they may have been trifled with and abused; that their direct tendency is to lengthen life, and render it enjoyable. That operating directly upon the poison of disease in the blood they

and that there is no disease of the Stomach and Bowels, the liver, the nervous system, the skin, glands or muscles, in which they do not give prompt relief, and, (if administered before the very dilidal of life has been invaded,) effect a painless and perfect cure.

THE CELEBRATED
COPPER TOE!
Mitchell's Patent Metalic Tip,

DESIGNED ESPECIALLY FOR
Boys', Youths' and Children's
BOOTS AND SHOES.

AN IMPROVEMENT HAS BEEN APPLIED TO Boots and Shoes, by which a saving of expense to the consumer, of two thirds, is realized, by actual experiment

THE TIP,

consists of a piece of copper or other indestructible material, neatly fastened to the toe of the boot or shoe, forming a complete protection. This invention is now presented to the public, with the fullest knowledge of its practical utility, having been tested over two years, and is destined entirely to supersede the old style, for

CHILDREN'S, BOYS' AND YOUTHS' BOOTS AND SHOES.

The importance of this invention may be readily appreciated, as it is well known that children invariably wear out their boots and shoes

FIRST AT THE TOE,

and, with this protection, they will upon an average, wear at least two to three times as long as the old style, while the expense is

BUT A TRIFLE MORE.

This invention is also especially applicable to Miners' Boots, and all occupations subjecting the one of the boot or shoe to be cut or worn.

Merchants, and the public generally, will see the importance of obtaining these goods immediately, as they are destined for general use, to supersede all other kinds.

The goods may be obtained of nearly all the wholesale dealers in the principal cities, or of the Subscribers,

F. NIPPERT,
Sept. 20, 1859. A. NIPPERT.

Mr. A. Nippert will continue the business at the old stand. He has just refitted and altered his store room, preparatory to receiving a fine stock of Fall and Winter Goods, which he expects to sell to the old customers of the House and to as many new ones as may favor him with their patronage.

As he intends to keep up the reputation of the old House, for cheap bargains, he will not let himself be undersold by any house in the city.

Mr. A. Nippert is now receiving goods daily, and will soon have his full stock.
A. NIPPERT,

All those who know themselves indebted to F. Nippert & Bro., are requested to call and settle, either by note or cash, as they are anxious to close their books.

The above request will, we hope, be attended to at once.
