over him, like as the angel which smote the first born of the Egyptians, but left the children of God untouched. As Mr. Romayn looked at him he mentally thanked Heaven that the Doctor had no children, who might, by their disobedience, disturb the serenity of his life.

"Doctor," said he, "in the hour of sorrow you have wept with me, and when I have rejoiced you have rejoiced with me. As a minister and a friend, I have ever sought and found in you that sympathy which is so gratifying and so soothing to a suffering heart. I have now come to you to unburden my spirit of a load of grief and disappointment.',

The Doctor, who had no idea what this solemn preamble was going to lead to, exclaimed in an agitated tone of voice:

"David! has anything dreadful occurred? Your wife, or Edith, are they sick?"

"Oh no! worse than that."

"Bad news from Walter, then?"

"No, he is doing well enough. Thank Heaven, I am not to be disappointed in both of my children. Children," continued he, "can be great sources of satisfaction and happiness to parents, or causes of anxiety and trouble."

"Yes, I presumed that you had made that discovery before this time of life.—Upon what new development are you now studying human nature?"

"Edith has concluded to get married."

"Oh! is that all?" replied the Doctor, somewhat relieved. "Marriages are incidents that have occurred, and are constantly occurring. You married, the strongest evidence you can furnish that you approve of the institution."

"I am not a woman, and did not want to marry a Frenchman and an author. The circumstances are different in our cases, I married to please my parents."

"And yourself, also," remarked the Doctor. "Edith should be allowed the same privilege, unless there is something objectionable in the man."

"He is altogether objectionable. He is a Frenchman, that is one objection. He is an author, that is another. It is proverbial that authors make the most disagreeable of husbands. There is scarcely an exception to the rule. In the next place he spends most of his time traveling around the world, pulling up flowers and weeds, and searching for geological specimens, and classifying them, as they term it.—People that travel very much now days are liable to be killed."

This latter was, to Mr. Romayn, a serious objection, he never having traveled farther than Albany, in a sloop. He regarded railroads and steamboats, not as we do, as offering greater facilities for traveling, but as instruments designed by wicked men for wholesale human slaughter.

"Marriage, it has often been remarked, is like a lottery ticket. Some draw prizes and others draw worse than blanks, in this chance office of life. Edith, if she invests in a ticket, will have to run the risk of the drawing."

"Finally, then, as an objection of more weight than all others, I have set my heart upon Edith's marrying Henry Clements. For years I have looked forward to this event, and it will be a sore disappointment for me to have my only daughter thwart me in my wishes."

"It is very unwise for parents to make plans by which they expect their children to be governed, years before their plans can be accomplished."

"You don't think it wrong for us to desire to settle our children well in life, do you?"

"Certainly not. The means that you would use to promote the happiness of your child, and a marriage of which we all approve, might make not only her, but another, perfectly wretched. The objections which you have urged against Mr. Villeneau are not worth a thought. I know him by reputation only, as a talented man. If his goodness of heart is equal to the strength of his intellect, I would be pleased to join the hand of our child, (for such Edith will ever seem to me) in his, and to pronounce a blessing on their union."

"My prejudices are so strong against all foreigners, Frenchmen particularly, that I never could sanction it. I do hope something will occur to prevent it. People, as I remarked to my wife yesterday, have changed very much since we were boys, Doctor, and I am sorry to say, in many respects not for the better. When we were young men it was customary for a man and woman to regard a marriage engagement as sacred, and persons would have thought it a sin, and a disgrace, to have broken their vows of fidelity. Things are entirely different now. The young people enter lightly into engagements, and if it suits their convenience to consummate it they do so, and if not, their vows are as lightly broken as made. Something may transpire to prevent the consummation of this. I wish it with all my heart."

Fourth of July.

We are glad to see some arrangements being made to celebrate, in a becoming manner, the approaching Anniversary of American Independence, by our citizens. We notice in some of the cities of the State, all the different Orders are making arrangements to participate in the celebration, and at Evansville the different trades are going to appear in procession with emblems and banners.

If necessary, the City Council should assist in the proper observance of this day. To make the proper display the fire companies and other companies may desire assistance, and they should have it.

The influence of the celebration of the 4th day of July, upon the young, is very great, and it should not be neglected.

Let us have a good time, an enthusiastic time, a patriotic time, a glorious old fashioned time, such as our fathers used to participate in.

☞ The committee appointed by the meeting on Thursday night last, met last evening, at the Town Hall, and appointed the following committees:

On Grounds—W. C. Lupton, James Hook and John Haney.

On Invitations—Dr. Young, C. O. Wood, J. C. Yates, John A. Bryan, and E. Raglin.

On Music—W. E. Hendricks, Frank Frey and Dr. Thompson.

To procure Orator, Reader and Chaplain—A. Lange, Dr. Davis, W. C. Lupton.

On Artillery—J. C. Yates, C. A. Goodwin, W. H. Stewart.

The above committees will report to the General Committee on Monday evening next.

C. Y. PATTERSON, Pres't.
J. C. BURNETT, Sec'y.

LINCOLN IN DELAWARE.—By a private letter from a gentleman in Delaware to a friend in this city, we learn that the Chicago nominations and platform is very well received by the Opposition or People's Party there and that the ticket will receive their most earnest support.—We may expect a good account from Delaware.

Douglas is snowed under in the

For the Express.

WHAT SHALL MY DREAM BE?

What shall my dream be, Kilie?
Where shall I wander to-night?
Shall I roam thro' blooming meadows
By the side of streamlets bright?
And cull for thee some choice wild flowers
To gladden thy tear-dim'd sight?

Or shall my dream-thoughts bound away
To some mountain-lake afar?
Where the moonlit shadows deck its breast
Revealing thy favorite star;
And silvery music echoes soft,
To the notes of thy sweet guitar—

Shall Fancy lead me where mermaids dwell
'Mid coral groves 'neath the deep sea?
Whose bright laughing eyes, and tresses of gold,
Are imaged, sweet Kilie, in thee!
Oh help me to choose the best dream of them all
For *all* seem so pleasant to me!

GERMANTOWN, 1859. W.

WABASH & ERIE CANAL.—We notice that the business on the W. & E. Canal is quite large this season.

INCREASE OF BUSINESS.—We are informed that the business on the several railroads leading from this city has largely increased recently.

☞ Mr. Chauncey Rose is having built a fine brick building, containing three fine business rooms, on the south side of Wabash street, near the canal bridge.

TURTLE SOUP.—Charley Kern regaled his friends yesterday morning with nice Turtle Soup, a dish said to be the particular delight of obese alderman.

☞ Remember the meeting of the Lincoln Club on Friday evening, at the Court House. Speech will be made and other matters of importance transacted.

GODEY FOR JUNE, is received, it is an exquisite number, abounding in gems and most handsomely embellished. No lady of good taste voluntarily deprives herself fo this admirable Magazine.

☞ We learn that the pastoral relation which has existed for more than a quarter of a century between the Rev. Dr. Jewett and the Congregational Church of this city, has been dissolved at the request of Dr. Jewett, the Church and congregation concurring in the request.

INDIAN DEPREDATIONS.—The news from the Plains is of the most painful and exciting character, Indian massacres are of almost daily occurence, and there is every reason to fear that a general war between the U. S. and Indians is inevitable. Active measures are being taken to protect emigrants and frontier settlers.

DIED.—At 3 o'clock yesterday morning the 12th inst. Mr. George A. Detlor, Telegraph operator in this city, in the 22nd year of his age.

His funeral took place at 4 o'clock last evening and was attended by a large concourse of the young men of our city, among whom the death of Mr. Detlor is much regretted.

MEETING IN HIGHLAND.—A large and enthusiastic Republican meeting was held at Highland, Clay County, on last Saturday.

Col. T. H. Nelson, Albert Lange, Esq., of this city, and W. W. Carter, editor of the Bowling Green Patriot, addressed the meeting.

A pop(u)lar pole, st sight as an arrow, and 140 feet high, was raised, with a maul on the top, and with a beautiful flag, inscribed with LINCOLN & HAMLIN, LANE & MORTON.

The utmost enthusiasm and good feeling prevailed, and it was manifest that the freemen of Clay County are fully awake and aroused to a sense of the importance of the campaign just opened.

Thus the work goes bravely on.

For the Express.

Medical Skill.

EDITOR EXPRESS—Dear Sir: In asking the use of your columns for the purpose of giving publicity to the following, I am actuated by no other motive than the good of those who may be similarly afflicted. Myself and son the past year have been afflicted with diseased eyes, which baffled the skill of our physicians. In December last I received a letter from Lemuel Chandler of Bourbon, Douglas Co., Illinois, informing me that his wife and daughter were at Terre Haute at Dr. Hulburt's Infirmary, and that he was trating them very successfully. I immediately sent my son to the Infirmary. He had already lost the sight of one eye by unskillful treatment.—He returned in five weeks with his eyes perfectly sound, except the previous loss of sight of the one.

Mr. Allen Campbell, an acquantance of mine whose P. O. address is Okaw, Ills., came to Dr. Hulburt's Infirmary about the first of Feb. last. He had had sore eyes for a long time and was so blind that a pilot was necessary to get him to the Infirmary. He left March 19th with his eyes as sound as they ever were in his life. At this time I had abandoned all hope of getting relief short of Terre Haute. My eyes getting worse, on the 12th of May I commenced treatment at the Infirmary. I have been under the Dr.'s care four weeks and returned home with well eyes. During my short stay with the Dr. I saw much to interest me. One lady, a Mrs. Bilby of Terre Haute, had been afflicted for three yeaas. One eye was covered with a fleshy film; the other with a white film on the pupil. She represented herself as nearly blind. She described her pains as most excruciating. After about three weeks medication appeared to be well, but was still under treatment. She could see to read fine print with ease. I was present every morning when her eyes were treated. Her gratitude for her delivery was unbounded.

One more case I will mention. A Miss Webster of Bridgeton, Ind. She had been nearly blind for a long time, caused by films or some unnatural girths over the eye balls. This the Dr. said was one of his hardest cases. She had been at the Infirmary seven weeks. When I left one eye was entirely restored, and the other nearly so, but still under treatment. To do justice to all parties I ought to state that the eye patients who visit the Infirmary are all treated by Mrs. Hulburt. Patients need not wait to see the Dr., as the Eye Department is wholly in the hands of Mrs. Hulburt, who in my judgment is one of the most skillful eye physicians of the age, and altogether a most extraordinary woman. She is one of the truly benevolent, who labors diligently for the relief of patients and comfort of her guests.

JOHN POORMAN.

☞ Vesuvius is in a state of splendid activity. The crater still sends out its thunders, followed by red hot stones. At the bottom of it one sees a mass of fire, from which rise up fiery circles like carriage wheels. The exhalations of muriatic acid are so strong that it is difficult to approach.

RICHMOND CONVENTION.

RICHMOND, VA., June 11.

The Convention assembled at noon.

Gov. Lubbec of Texas was called to the chair, and returned thanks; he deemed his selection a compliment to his State; he trusted they assembled for a triumph of principles and not for plunder, and that if their principles are repudiated they will go before the country as the true Democratic party, with their principles emblazoned on their banners.

Prayer was offered by the Rev. Mr. Burroughs.

The States were called. New York responded amidst immense applause. A list of delegates appointed by the trustees of the National Democratic Hall of the State of New York was handed in.

The delegate who presented the credentials is Thaddeus T. Mott, who is here as the alternate of Gideon J. Jackson who is delayed by serious illness. He said that time did not permit the calling of a State Convention, but he was assured by the President that 15 of the 16 members of the committee approved of the delegation and desired that they should represent the State in the Richmond Convention.

The presentation created quite a stir and much surprise; it is supposed to be a move in favor of Dickinson. N Y members o the Press do not understand the movement.

All the seceding States are represented except Delaware.

Mr. Barry of Miss. moved the appointment of a committee of one from each State on permanent organization, and at 1 o'clk the Convention adjourned, till 10 o'clock to morrow.

Mayor Wood has sent word here that the delegation represents nobody, and the impression is that they will be repudiated by the Convention.

There will be little or no discussion in public; everything will be settled in committee and all differences of opinion accomodated.

There is no doubt that the Convention will close to morrow to await the action at Baltimore.

RICHMOND, June 12.

The proceedings of the Convention were opened with prayer by Rev. Dr. Duncan.

Mr. Calhoun, of S. C., son of John C. Calhoun, from the committee on permanent organization, made the following report, which was adopted:

For President, John Erwin, of Ala. with one Vice President and Secretary from each State, with the exception of N. York.

The temporary chairman then retired after making a brief but eloquent speech, concluding with the hope that the result of their deliberation might be such as to preserve the Constitution inviolate.

Mr. Erwin was then conducted to the chair, when he delivered an address to the Convention, explaining the position of the South, whose duty he said, is to protect its own rights to unfurl its flag to the breeze and to firmly and proudly march on, demanding that the Constitution shall be preserved in word and deed and letter, and the equal rights of the States guaranteed. He would say nothing in favor or against going to Baltimore; but whatever is done, we must strangle this serpent of squatter sovereignty. He denied the imputation that their purpose was disunion. The Northern Democrats have gone in pursuit of false gods; that the South cannot worship, and we must endeavor to bring them back to the true facts. He earestly hoped that the result of our deliberation here, would result, not only in securing our own rights, but the welfare of the whole country.

Mr. Middleton, of S. C., chairman of the committee on credentials desired to be discharged from the further consideration of the certificates of the National Hall delegates. These delegates, he said, had informed the committee that they did not come here as delegates, but as commissioners from New York to consult with us in a fraternal feeling.

The committee was discharged and the New York commissioners invited to seats on the floor, but not as delegates.

A motion was made to appoint a committee on business.

Mr. Hulbert, of N. C., offered as a substitute, the following resolution:

Resolved, That the delegates to this Convention having been appointed on the basis of the majority platform adopted at Charleston; we deem it unnecessary to take any further action in relation to a platform at the present time.

Resolved, That when this Covention adjourn it adjourn to meet in Richmond on the 25th of June, unless the President should deem it necessary to call the Convention sooner.

Mr. Davidson, Ala., moved that after the word Charleston, there be inserted the words, "whilst we heartily approve."

A motion was made to refer the amendment and reolutions to a select committee.

Mr Meek of Alabama hoped that a direct vote would be taken on the resolutions.

After considerable debate Mr Yancey suggested that a committee on resolutions be raised, and that all the resolutions and amendments be referred to it.

Mr Barry of Miss. said these resolutions were prepared and informally submitted to all the delegations, and having been approved by a majority of all the deegations with the understanding that they should be adopted without discussion; he thought that a vote should be taken directly upon them.

Mr Hunter of La. moved the previous question; he was surprised that after the full and formal understanding that there should be no opposition to a direct vote on the resolutions; it was to avoid all discussion.

Mr Jones of Ga. said it would be highly improper to take any action at this time on the platform; we expect, should we not be able to harmonize at Baltimore, to have Kentucky, Tennessee, Missouri, North Carolina, Delaware, Maryland and Virginia in the Convention with us when we re assemble, and it would be improper for us o take any action now on a platform.

The vote was then taken on the resolution, and adopted unanimously, with the exception of S. C.

The day of the re assembling of the convention was changed to Thursday, the 21st.

The committee on credentials reported that delegates were present from Arkansas Alabama, Texas, Louisiana, Mississippi, South Carolina, Georgia, the second district of Tennessee and the seventh district of Virginia.

Col. Baldwin, of Syracuse, said, New York came here to assist to throw oil on the troubled water, to urge you to do as you have done, to take no decisive action here, but to go to Baltimore. The commissioners, he said, agreed with this convention in deploring the nomination of an individual whose selection would be as injurious to himself as destructive to the Democratic party and dangerous to the Union.

Mr. Baldwin proceeded at some length to deprecate the dissolution of the Union, and to say that he was one of those who could not see how the Union could be dissolved.

Mr. Dawson of Ga. called the gentleman to order.

Mr. Baldwin persevered, and continued for a few minutes in the same strain, when Mr. Barry of Miss. rose and said, Whilst we of the South have avoided all discussion of the question we cannot permit others to open the discussion. We have allowed the gentleman from New York to speak from courtesy, and he has abused that courtesy.

Mr. Baldwin resumed, and was speaking when a motion to adjourn was made and carried unanimously.

Cries were made for a speech from Mr. Gaury, but he declined by saying that he had much labor before him at Washington and Baltimore, and would take occasion to address the citizens of Richmond on his return.

LETTERS OF ACCEPTANCE OF HON. A. LINCOLN AND HON. H. HAMLIN.

NEW YORK, June 8.

The following are the letters of Abraham Lincoln and Hannibal Hamlin accepting their nomination:

SPRINGFIELD, ILLS., May 23, 1860.

Hon. GEO. ASHMUN, President of Republican National Convention:

SIR: I accept the nomination tendered me by the Convention over which you presided, and of which I am formally apprised in the letter of yourself and others, acting as a committee of the Convention for that purpose.

The declaration of principles and sentiments which accompany your letter meet my approval, and it shall be my care not to violate it or disregard it in any part. Employing the assistance of Divine Providence, and with due regard to the views and feelings of all who were represented in the Convention, to the rights of all the States and Territories and people of the nation, to the inviolability of the Constitution and the perpetual union, harmony and prosperity of all, I am most happy to co-operate for the practical success of the principles declared by the Convention.

Your obliging friend and fellow citizen,
ABRAHAM LINCOLN.

Hon. GEO ASHMUN.

WASHINGTON, May 30, 1860.

GENTLEMEN: Your official communication of the 18th inst. informing me that the representatives of the Republican party of the United States at Chicago, on that day, had by unanimous vote selected me as their candidate for the office of Vice President of the United States, has been received, together with the resolutions adopted by the Convention, as its declaration of principles. Those resolutions enunciate clearly and forcibly the principles which unite us and the objects proposed to be accomplished. They address themselves to all, and there is neither necessity nor propriety in my entering upon a discussion of them.—They have the approval of my judgement, and every action of mine will be faithfully and cordially ———. I am profoundly grateful to those with whom it is my pride and pleasure politically to co-operate for the nomination so unexpectedly conferred, and I desire to tender through you to the Convention my sincere thanks for the confidence thus reposed in me. Should the nomination, which I now accept, be ratified by the people, and the duties devolve upon me of presiding over the Senate of the United States, it will be my earnest endeavor faithfully to discharge them with a just regard for the rights of all.

It is to be observed in connection with the doings of the Republican Convention, that a permanent object with us is to preserve the normal condition of our Territorial domain as homes for freemen.

The able advocate and defender of Republican principles whom you have nominated for the highest place that can gratify the ambition of man, comes from a State which has been made what it is by the special action, in that respect, of good and wise men, who founded our institutions. The rights of free labor have there been vindicated and maintained. The thrif and enterprise which so distinguishes Illinois, one of the most flourishing States of the glorious West, we would see secured to all the Territories of the Union and restore peace and harmony to the whole country, by bringing back the government to what it was under the wise and patriotic men who created it. If the Republicans shall succeed in that object as they hope to, they will be held in grateful remembrance by the busy and teeming millions of future ages.

I am, very truly, yours,
HANNIBAL HAMLIN.

Hon. GEORGE ASHMUN, and others.

Iron as a Medical Remedy.

The coloring matter of the blood comes from the iron therein, which cannot be diminished below a certain quantity without rendering the blood unfit for the perfect nutrition of the different organs. In such cases the fact is apparent by general paleness, weak circulation, impaired breathing, cold extremites, &c.

It may be asked, from what is the blood derived? We answer, principally from the food. But if the food is not properly digested, there can be no healthy blood, and consequently no adequate nutrition of the body. The bad blood will irritate the heart, clog up the lungs, stupify the brain, obstruct the liver, and cause derangement everywhere. The feeble girl will suffer from chlorosis and menstrual irregularities, the adult from dyspepsia, neuralgia, and headaches; many will suffer from boils and skin diseases; the bilious from inflamed liver, dropsy and constipation; and the care worn professional man from every ill in Pandora's box. Now, it is certain that if the deficient amount of iron in the blood can be supplied, the symptoms of disease will consequently cease.

Chemistry proves that the only form in which iron can assimilate with the blood is that of a protoxyde, a salt very liable to further oxidation; when it becomes nearly inert in the stomach.

In the *Peruvian Syrup*, by chemical ingenuity, this difficulty has been for the first time overcome; and this assertion is amply sustained by the distinguished Chemist and Assayer to the State of Massachusetts, Dr. Hayes. It must be admitted, then, to be a most important addition to the Materia Medica, and an invaluable remedy for many of the worst forms of disease.

"PERUVIAN SYRUP is a *Solution of Protoxide Iron*, a new discovery in medicine, and strikes at the root of disease by producing *healthy blood*, the source of all vitality in the human organism. For Sale by all Druggists."

Agents at Terre Haute,
June 13, w4w T. H. BARR, & Co.

Read the following from the Hon. Morris Morris, formerly Auditor of the State of Indiana:

INDIANAPOLIS, Sept. 9, 1857.

Dr. C. W. ROBACK—*Dear Sir:* Having been troubled for several years with extreme debility and weakness, so much that I was unable to attend to my ordinary business at times, and having heard of the wonderful cures that your Scandinavian Blood Purifier and Pills were effecting, I was induced by a friend to try them. I have been using the Purifier for the last twelve months, and find the medicine fully equal to its recommendations. So valuable is its use to me that I cannot now dispense with the use of it at my advanced age of life—seventy seven years. Yours,
MORRIS MORRIS

NEW ADVERTISEMENTS.

Trial of Wheat Harvesters.

There will be a trial of Wheat Harvesters in Jacob Brown's wheat field east of Early's grove farm, as soon as the wheat is ready to cut. Of which time due notice will be given.

The trial will be for the machine doing the best work.

All persons wishing to enter machines must do so by Thursday, the 21st., at the Auditor's office.

A premium of $10 will be awarded the successful machine and a diploma from the Vigo Agricultural Society.

Each machine is required to cut three acres, and the headers are to deliver the wheat at the stack or have in good order, and the other machines to bind and shock. Not less than five entries to make the match.

FREDRICK MARKLE,

THE NEW TREATMENT OF CONSUMPTION.

MOST EXTAORDINARY RESULTS.

The attention of sufferers, whether in the incipient or advanced stages of Consumption, is directed to the following evidence of the invariable efficacy of

WINCHESTER'S GENUINE HYPOPHOSPHITES,

from a physician of extensive reputation and practice, for the last twenty years, in Chester Co Penn:

CHATHAM, PA., 3d Month, 26th, 1860.

FRIEND J. WINCHESTER:—At the time of receiving your letter requesting a report of the cases in which I had used the Hypophosphites, I was very much engaged, both night and day.

Many of the persons who have taken Hypophosphites have not been under my immediate care; but most of them I have had an opportunity of examining previous to their commencing the treatment.

Thirty-six persons have obtained the medicine from me, twelve of whom have been under my own care. Five of them were, in my opinion, and in the judgment of other physicians, hopeless cases of Phthisis—irritable cough, copious expectorations of a purulent character, night sweats and emaciation. These cases were from one to three years' standing. Auscultation and percussion developed sounds, which taken in connection with the other symptoms, gave evidence of a condition from which I have never in seventeen years' practice, seen a single case recover by any other treatment. Under the use of the Hypophosphytes, all the bad symptoms ceased: they have gained Flesh, and strength and Health—some of them better than they have enjoyed for seven years previously.

The other cases under my care were in the incipient stage, and in them all symptoms or trace of the disease have disappeared. Of those who were not under my care I have not heard a single patient who did not express himself benefited by the use of the Remedy; although in some of them the disease was too far advanced to admit the possibility of recovery.

I presume I am as skeptical in medicines, or specifics, as most Physicians; yet, from the experience I have had in the use of Dr. J. F. Churchill's Remedy for Tuberculosis, I would say to all who have any tendency to that disease, take it; and the sooner the better, before there is disorganization. W. W. TOWNSEND, M. D.

WINCHESTER'S GENUINE PREPARATION

Is the only reliable form of the "Hypophosphites" and is put up in 7 and 16 ounce bottles, at $1 & $2 each. Do not confound this remedy with the Phosphates or "Chemical Food," and avoid all preparations of Iron, Cod Liver Oil, &c., which are injurious or useless in Pulmonary diseases. Sold by all repectable Druggists, and wholesale and retail, at the sole General Depot, by

Male or Female, Male or Female.

It is a fact long since established, that persons suffering with any disease of these organs are affected in bodily health and mental powers, and experience many alarming symptoms, among which will be found: Indisposition to Exertion, Loss of Memory, Difficulty of Breathing, General Weakness, Horror of Disease, Weak Nerves, Trembling, Horror of Death, Night Sweats, Cold Feet, Wakefulness, Dimness of Vision, Languor, Universal Lassitude of the Muscular System, often Enormous Appetite, with Dyspeptic Symptoms, Hot Hands, Flushing of Body, Dryness of the Skin, Pallid Countenance and Eruptions on the Face, Pains in the Back, Heaviness of the Eyelids, frequently black spots flying before the eyes, with temporary suffusion and Loss of Sight, Want of Attention, Great Mobility, Restlessness. These symptoms, if allowed to go on, which this medicine invariably removes, soon follow—Loss of Power, Paralysis and Epileptic Fits.

Who can say that these excesses are not frequently followed by those direful diseases, INSANITY and CONSUMPTION. The records of the Insane Asylums, and the melancholy deaths by Consumption, bear ample witness of the truth of this assertion.

HELMBOLD'S EXTRACT OF BUCHU

is a certain, safe, and speedy cure, from whatever cause they may have originated, and no matter of
