CERTICATES.

NEW-YORK, August 13, 1850.

J. TYLER, Esq.—Sir: The awning manufactured by you, last Spring, and warranted not to mildew, has been fully tested, and is in every respect, what you warranted, (free from mildew or shedding of water.) To those in want of a durable article, we can fully recommend the above.

PETERSON & HUMPHREY, Carpet Dealers, 152 Pearl-st.

Dear Sir: The Awning you made for us, warranted not to mildew, has fully sustained your guaranty of it, and we take pleasure in recommending it as being far superior to any awning we have ever had in use. Respectfully,

MOORE & CO., 112 Chatham-st.

Mr. JAMES TYLER, cor. Chatham and Mulberry sts.

We can certify that the preparation used by Mr. James Tyler in the manufacture of his Awnings, to prevent Mildew, has been fully tested in the experiment we have made, and has given entire satisfaction; the Awning made for our establishment, having been in use, and exposed to all weather since last Spring, we can therefore cheerfully recommend it to those who may be in want of the above article. EXCELSIOR SOAP, manufactured solely by CADWELL, PAYSON & CO., Corner of Rivington and Cannon sts., New-York.

This Soap is far superior to any other offered to the public. It removes stains, grease, paint, tar and ink, and washes in soft, hard, or salt water, without the slightest injury to any fabric or to the skin. Sea Captains, Woolen Manufacturers, and all engaged in the trade, are especially invited to test its value. m22 tf

PATENT COMBINATION SOAP.—A recent invention! great saving in the cost of Soap for washing! being the greatest labor-saving article yet invented! No other Soap is needed in a family, for any purpose whatever. The inventors have labored hard and long to combine in the most concentrated and convenient form a Soap that will save labor, and that can be used with perfect safety. It takes the dirt from clothes by using a very small quantity, by simply soaking, boiling and rinsing (except clothes have stains, or are very dirty,)—in that case, a little should be rubbed on before boiling. It is converted into Soft Soap by dissolving into hot water, and, when made as per directions, costs about 5 cents per gallon—exceeding any other for all purposes for which Soap is used. The Patent Combination Soap being very hard, and containing no resin—making it the best, and by far the cheapest "bar Soap" ever used—it renders hard and salt water equal to soft for washing purposes, and, being free from acids, cannot injure or yellow clothes in the least. Consumers and dealers will do well to make themselves acquainted with this article without delay. L. K. NORTHROP & CO.

SPECTACLES SCIENTIFICALLY APPLIED.—OFFICE 52 BOWERY, 3 doors from the Theater, New-York.—Professor SKOTT, Spectacle Maker, Consulting and Practical Optician, Public Lecturer on the Anatomical Form and Physiology of the Human Eye, and on the good and bad effect of Spectacles.

TESTIMONIALS OF ABILITY AND RECOMMENDATION.

NEW-YORK, Nov. 30, 1850.

"Adjusting Spectacles to vision requires great judgment on the part of the Optician. Many sights are injured, and some totally lost, for want of this. We, the undersigned Physicians, consider it of the utmost importance to the public to have good Spectacles, and accurately applied. Mr. SKOTT delivered an interesting and instructive Public Lecture on the subject, in the Society Library, Broadway, Nov. 29, 1850. He is well acquainted with the science. Therefore we recommend him as a very competent practical Optician.—George Wilkes, M.D., 23 Lafayette-st, Surgeon to the New-York Eye and Ear Infirmary; Abraham Dubois, M.D., 608 Houston-st, Consulting Surgeon to the New-York Institution for the Blind, and Surgeon to the Eye and Ear Infirmary; Isaac Wood, M.D., 58 East Broadway, President of the New-York Academy of Medicine, and Consulting Physician to the Institution for the Blind; Wm Darling, M.D., 226 Wooster-st, Anatomical Demonstrator to the New-York University Medical College."

"Nov 30, 1850.—Mr. SKOTT is an agreeable Lecturer, has paid unusual attention to the subject, and is a clever Optician. W. CLAY WALLACE, M.D., 289 Fourth-st."

All Spectacles purchased from Prof SKOTT will be exchanged, free of cost, if not satisfactory. He also repairs and fits glasses into parties' own frames, and always adapts the Spectacles to the Eyes, on the most approved Principles that have been discovered in ancient and modern science.
