BROWN AND BLACK ZINC PAINT—The best paint in use for iron, or other metal surfaces. For sale by S. T. JONES & CO. Agents, for N. J. Exploring and Mining Co., 53 Beaver-st.

See following certificate:

U. S. DRY DOCK OFFICE, NAVY YARD, PHILADELPHIA, Oct. 10, 1850.

Messrs. W. F. JONES & BRO., Philadelphia:

Gentlemen—I have thoroughly tested the Zinc Paint received from you some months since, and most cheerfully testify to its good qualities. I have found it fully equal to all you said of it. I had one pile-driving engine, which is exposed to the weather, painted with it, without any dryer in it. When partly dry, the work was suspended by a severe shower of rain, which lasted two days, and on resuming the painting after the storm, found the paint hard and perfect. The engine and boiler are perfectly protected by it from the weather, and where most exposed to heat, steam and hot water, the paint is perfectly sound. I have also tested it on wood and find it cheaper and better than any other paint I have ever seen. We shall use it for painting our sections in the spring if you can supply us. From conversations on the subject with the foreman and painter in the Navy Yard, I have no doubt but it will, after a fair test, be used exclusively in the Navy Yards. I need only wish you the success your paint deserves.

m20 2mMWS Resp'y yours truly, J. T. DEAN.

EXCELSIOR SOAP, manufactured solely by CADWELL, PAYSON & CO., Corner of Rivington and Cannon sts., New-York.

This Soap is far superior to any other offered to the public. It removes stains, grease, paint, tar and ink, and washes in soft, hard, or salt water, without the slightest injury to any fabric or to the skin. Sea Captains, Woolen Manufacturers, and all engaged in the trade, are especially invited to test its value. m22 tf

PATENT COMBINATION SOAP.—A recent invention! great saving in the cost of Soap for washing! being the greatest labor-saving article yet invented! No other Soap is needed in a family, for any purpose whatever. The inventors have labored hard and long to combine in the most concentrated and convenient form a Soap that will save labor, and that can be used with perfect safety. It takes the dirt from clothes by using a very small quantity, by simply soaking, boiling and rinsing (except clothes have stains, or are very dirty,)—in that case, a little should be rubbed on before boiling. It is converted into Soft Soap by dissolving into hot water, and, when made as per directions, costs about 5 cents per gallon—exceeding any other for all purposes for which Soap is used. The Patent Combination Soap being very hard, and containing no resin—making it the best, and by far the cheapest "bar Soap" ever used—it renders hard and salt water equal to soft for washing purposes, and, being free from acids, cannot injure or yellow clothes in the least. Consumers and dealers will do well to make themselves acquainted with this article without delay.

STARCH.—Important to Ladies.—The GLENSFIELD PATENT DOUBLE REFINED POWDER STARCH—The manufacturer of this Starch respectfully invites comparison with any other in the market; and he rests assured that Laundresses, Housekeepers, and others giving it a fair trial, will find that it stands unrivalled for

CHEAPNESS, STRENGTH, AND PURITY OF COLOR.

It imparts a fine Glossy Finish to the Goods, and retains that transparency and stiffness, which it has so preeminently attained, longer than any other Starch yet introduced. For the Dressing of LACE, LINENS, &c., nothing can equal it. It is particularly recommended for the Dressing of SHIRTS, as the easy elasticity, which it retains even in damp weather, presents to the wearer a pleasing and agreeable contrast to the stiff and uncomfortable appearance assumed by Linen when dressed with crystallized or common Starch. It requires no boiling, is perfectly free from all impurities, and is warranted not to adhere to the iron.
