THE UNION APPLE PARER.

ENTIRELY NEW.

THE UNION APPLE PARING MACHINE has constructed that the Knife pares going both ways, commencing at each end of the several apples alternately, thus avoiding a waste of time in turning back without paring, and also overcoming the objections to the "snap machine."

It contains a less number of parts than any other machine in market.

The gears are all connected directly with each other, thereby dispensing with the screw or rod to connect them, and which has always been liable to work loose and turn around without moving the parts.

It is about the usual weight of others but more compact, thus being stronger and requiring a smaller box and thereby saving freight.

IT IS VERY THOROUGH IN ITS CONSTRUCTION, and is not liable to get out of order by constant or hard using.

Only four turns of the crank is required to pare each apple.

It has a straight knife, consequently leaves the apple smooth and handsome.

It will pare a large or small apple equally as well.

Great pains have been taken to perfect this machine in all its parts, and it is WARRANTED ENTIRELY SATISFACTORY.

The Bay State

APPLE PARER, CORER AND SLICER.

The above is a simple machine, and warranted as recommended. It will Pare, Core and Slice by five turns of the crank. It weighs but 22½ pounds, and can be had at the low price of $2. Call and examine this machine, and we warrant you will be pleased with its operation.

PEACH, POTATO AND APPLE PARER.

This is a good and and useful Machine, and should be in the hands of all housekeepers. An examination of the above is requested.
