DR. GOURAUD'S LILY WHITE.—This delightful compound is intended to supplant the noxious articles which have been heretofore used by ladies for whitening the cuticle, such as prepared chalk, Paris white, plaster of Paris, &c. Unlike the pernicious and unnatural whites adverted to, GOURAUD'S Lily White gives a delicious softness, smoothness, brilliance, and perfectly life-like whiteness to the complexion. When used, after the skin has been thoroughly washed with GOURAUD'S Italian Medicated Soap, the effect is luxurious and delightful in the extreme. It is also very valuable for gentlemen with tender skins and stiff beards—as it completely allays the irritation consequent on shaving. Mothers should also use it on their babies, as it is much superior to common powder for that purpose. 25c a box.

READ THIS NOTICE.—Virtue of Naptha.—The discovery of the celebrated Dr. Hastings, of London, of a remedy for Pulmonary Complaints in Naptha, has been the source of a great relief to those afflicted with this almost universal scourge of our race. There is no excuse for suffering, where a never-failing remedy is at hand, if employed.
A positive cure for that terrible disease, the Consumption, is at last found in the preparation known as Dr. Hastings' Compound Syrup of Naptha. It is just superseding the use of all other remedies, so prompt and satisfactory is its action on the disease. We have heard of its stopping the most violent and distressing cough in twenty-four hours. Any medicine that is as strongly recommended as this, by certificates of people of well known respectability, is certainly worth a trial.

FARMERS' BANK of KENTUCKY. —$500,000 Additional Stock.—The business of the Farmers' Bank and its several branches having been found to demand a material increase of its capital stock, the Board of Directors of the principal Bank at Frankfort now offer *Five Thousand Shares* of this highly productive and desirable stock at par.

ON THURSDAY, 12TH JUNE, FROM 12 TO 1½ o'CLOCK, subscriptions will be received by the undersigned, at the Banking House of the OHIO LIFE INSURANCE AND TRUST COMPANY, 45 WALL-ST.

The shares are ONE HUNDRED DOLLARS EACH. The Farmers' Bank was incorporated by the Legislature of Kentucky, at the session of 1849-'50, in pursuance of reports from the Committee on Banks of the Senate and House of Representatives, setting forth the insufficiency of the Banking Capital of the State as limited for a period of near twenty years past, to the Bank of Kentucky, the Northern Bank of Kentucky, and Bank of Louisville.

The Farmers' Bank of Kentucky was, therefore, incorporated with a capital of $2,650,000.

About $700,000 of the stock was subscribed in Kentucky, and in the City of Cincinnati, upon which the Bank has been transacting a highly successful business since last Fall.—The large amounts of safe and productive paper drawn upon shipments of hemp, bale rope, bagging, tobacco, produce, live stock, &c., vastly exceeding the ability of the Bank, with its present means to purchase, render this proposed increase of capital an unusually safe and lucrative investment, for capitalists, while the extensive agricultural, commercial and manufacturing districts, upon which the Bank relies for its patronage, will in turn reap the most important benefits, and ensure the continued prosperity of the Bank, by a rapid and full development of the resources of the country.

The leading characteristic of this investment is its SAFETY. For a full copy of the charter, with by-laws, rules and regulations, see pamphlet, which can be had at the Trust Company Bank, No. 45 Wall-street. These contain provisions of such a nature as to afford the strongest guaranty to the stockholders and patrons of the Farmers' Bank of Kentucky, that their rights and interests are fully protected by legislative and other safeguards. The undersigned takes pleasure in referring also, as an ample ground of confidence, to the *well-earned reputation of the Banks of Kentucky for honest, prudent and skilful management.*

The attention of capitalists is also called to the PRODUCTIVENESS of this investment. For particulars, see pamphlet and circulars. The current business of the Bank is highly satisfactory in its nature and results, showing that the Directory will doubtless be enabled to *divide 5 per cent. semi-annually, and accumulate a handsome surplus fund.*

Dividends will be paid in this city at the Ohio Life & Trust Company, or other bank, of which due notice will be given.

The present condition, business and prospects of the Farmers' Bank, must ensure a rapid advance of its stock above par, placing it upon a similar footing with the stock of the Bank of Louisville, the Bank of Kentucky, and the Northern Bank of Kentucky, which are now scarcely to be had at the advanced rates of premium asked. The former is now quoted at 104@105, the Northern Bank at 111@111½, and the Bank of Kentucky at 106@107. A long course of successful business has deservedly placed the stock of these institutions high in the estimation of the holders.

The practical operation of the Bank has shown that the locations of the Branches are eminently favorable and indicative, without exception, of highly profitable results.

The field thrown open to the Farmers' Bank for the transaction of a successful business in Kentucky, and neighboring States, is undoubtedly superior to any other in the Union. The credit and standing of the Kentucky Banks are equal to those of any other State.

The notes of the Farmers' Bank now form an important part of the circulating medium of the Mississippi Valley, passing current from Pittsburgh to New-Orleans. The notes of the Kentucky Banks have in general commanded a *premium over other bankable funds* at Cincinnati, and have never been at a discount. It may be safely said that no Banks in the Union are better managed. Their capitals are to a large extent employed in the purchase of bills drawn against shipments of staple products, of which the single County of Bourbon exported in value $1,400,000 during the year 1850. It is believed that such a field for banking operations, based upon the produce of the soil, in a highly flourishing district of country, with the entire West and South-West for the circulation of its notes, is surpassed by none other.

A third favorable feature of this stock is its PERMANENCE. The capital of the Farmers' Bank of Kentucky expires on the first day of May, 1880, and has therefore now, with no power reserved by the Legislature in anywise to alter or control it, twenty-nine years to run.

The charters of nearly all the western and southwestern Banks expire during the next ten years, and in the great majority of cases will not be re-granted, or will be divested of their most valuable provisions and privileges. The thirty years' charter of the Farmers' Bank offers, therefore, the advantage of permanence, while it will secure a field of circulation of the utmost value to its stockholders.

A valuable provision of the charter will be found in section 43, to wit: "The President and Directors of the principal banks, shall have power and authority to purchase and transfer any scrip or bonds which may be issued by the State; Provided, not more than half the capital of said Bank, paid in, be held in such scrip or bonds at the same time."

This section will enable the Bank to realize, when deemed expedient, whatever advantages are to be found in the system of banking upon a partial basis of State securities.

The charter of the Farmers' Bank is, in other respects, similar to those of the Northern Bank of Kentucky, and the Bank of Kentucky, with such additional provisions and emendations as experience has shewn to be useful.

Transfer books will be opened in this city for the accommodation of stockholders, under the inspection and management of suitable officers, subject to special rules and regulations, imposed by the Directors, for the security of the Bank.

The terms of the subscription will be as follows, to-wit:
Ten per cent. at the time of subscribing.
Thirty per cent. on the 25th day of July, 1851.
Thirty per cent. on the 15th day of August, 1851.
Thirty per cent. in full, on the 15th day of September, 1851.

Certificates of subscription, with receipt for instalment paid, duly executed by the President and Cashier of the Bank, will be delivered at the time of subscribing.

The undersigned can be found daily from 12 to 1½ o'clock, at the Ohio Life Insurance and Trust Company Bank, 45 Wall-st., where pamphlets and circulars will be furnished and any further information given. W. B. ROBBINS,
je6 6t Special Agent of the Farmers' Bank of Kentucky.

Panama Railroad Company.
$900,000 SEVEN PER CENT. COUPON BONDS, convertible into Stock within five years.—Sealed Proposals will be received at the office of this Company, 78 Broadway, in the City of New-York, until the 14th day of June next, for any sum not exceeding Nine Hundred Thousand Dollars, of the first and only bonds of the Panama Railroad Company, payable on the first day of July, 1865.

The bonds are for $1,000 each, dated July 1, 1851, with interest, at seven per cent. per annum, payable half-yearly, in the city of New-York, and are convertible into stock at any time before the first day of July, 1856. They are issued in pursuance of the act of incorporation of the Company, passed by the Legislature of the State of New-York, section 8th, as follows:

"The said corporation may borrow from time to time such sum or sums of money as may be necessary to complete said road, and for the other purposes authorized by this act, in the whole not exceeding the amount of the capital stock actually paid in, and may issue and dispose of their bonds for any amount so borrowed; and are hereby authorized to mortgage any part of their corporate property and privileges to secure the payment of such bonds. And the said Directors may offer on the holder of any bond they may issue for such money so borrowed, the right to convert the principal due thereon into stock of the said corporation at any time not exceeding five years from the date of said bond, under such regulations as the Directors may see fit to adopt; and for such purpose, the said corporation are authorized to increase its capital stock to the amount so borrowed, whenever the persons, or any of them, to whom such money is due, shall elect to convert the same into stock."

One million of Dollars of the Capital Stock of the Company has been subscribed, and more than $900,000 actually paid in.

The section of Railroad from Navy Bay to Gorgona, 27 miles, it is believed, will be completed by the 1st of September next.

Twenty miles will be in operation in July.

The track between Gorgona and Panama, 19 miles, has been surveyed and located, and part of the rails are already in Panama. It is for this section that the money for the Bonds is required.

Any of the present Stockholders making proposals as above, will be entitled to take, at par, Bonds to the extent of their Stock respectively, and the amounts not thus taken will be sold absolutely to the highest bidder; but no offers below par will be considered.

Parties whose bids are accepted will be required to pay twenty per cent. upon the amount awarded to them on the 1st day of July, and the remainder in instalments of twenty per cent. every two months thereafter.

Bonds will be issued when required for payments made beyond the first instalment; but every party will be at liberty to pay in full at once. Interest will commence from the time of payment.

The Company reserves the right, in case of default in payment of the instalments, to re-sell the bonds, at the risk and expense of the party making default.

This Company, by grant from the Republic of New-Granada, possesses very liberal rights and immunities; and among others, the *exclusive privilege* of establishing and continuing a railroad across the Isthmus or Panama, forty-nine years from the completion of the road; during which period the Government binds itself not to permit "any other carriage road, macadamized or of plank, or of any other class, which may serve for the use of wheel-carriages, between the two Oceans, across the Isthmus of Panama; nor to permit any person or persons, *without the consent of the Railroad Company*, to make any canal across the said Isthmus."

No road now exists superior to a mule path. *The neutrality of the Isthmus of Panama is guaranteed by the Government of the United States.*

No taxes or contributions of any kind can be imposed on the road by the Government of New-Granada, nor upon passengers, nor any duties on property of any kind, transported across the Isthmus upon the road.

Any further information required may be obtained at the office of the Company.—New-York, 30th May, 1851.
