The Value of Money

Was never so forcibly illustrated as at present. The investor with funds available can now buy at prices that a year ago were unthought of and on a basis that will afford a return of

10 Per Cent or better

Sound stocks of undoubted merit have been carried along with those of doubtful worth in the cyclonic shifting of price levels, but as a measure of precaution it would be well for prospective investors to consult with us regarding the most attractive opportunities offered.

Upon application to Dept. S-29 we shall be glad to send gratis a copy of our latest market analysis.

CURB SECURITIES ADVANCE SLIGHTLY

Most Issues in Outside Market Show Small Fractional Improvements.

Moderate activity and a slight upward movement in prices, following a dull and irregular session early, characterized yesterday's dealings in curb securities. Small fractional improvements were noted in most issues. General Asphalt was in better demand after a lower opening. The new 8 per cent. bonds were traded in for the first time. Rights to subscribe were offered slightly lower.

The Ryan group of stocks were weak but displayed a stronger tone in the later trading. Ryan Consolidated fell to a new low of below 10, and Ryan Petroleum, which was merged into Ryan Consolidated, also changed hands at a new bottom price of 1. The bid price of Stutz Motors was around 190.

International Petroleum sold slightly higher, and there was a better demand for Maracaibo and Carib Syndicate after lower openings. Industrials were quiet, but moved slightly higher, and moderate activity was shown in some metals, such as Boston and Montana and Eureka Croesus.

Total sales and range of prices follow:
