ZINC PAINTS, Manufactured at Newark, New-Jersey, by the NEW-JERSEY EXPLORING AND MINING CO.

This Company is prepared to furnish a supply of their valuable ZINC PAINTS,

which have been found, after several years' trial, both in Europe and in the United States, to retain their original beauty and protective properties, superior to any other Paint whatever. Their WHITE ZINC PAINT

is purely an Oxide of Zinc, and is warranted free from all adulteration whatever. It has no poisonous properties so objectionable to the health of families and workmen in some other kinds of pigments.

IT WILL NOT TURN YELLOW

when exposed to sulphurous or mephitic exhalations, or even when shut up in a close room, nor is it affected by pictures hung on walls coated with it. As an outside Paint, it withstands the changes of weather better than any other, not being liable to turn chalky or to crumble and rub off. It may be worked with any color, or with water and oil, or with varnish instead of oil, thereby giving the justly celebrated porcelain finish.

The Company also manufacture BLACK AND COLORED ZINC PAINTS, which are beyond question without any equal for coating roofs, ships, outhouses, fencing and all iron or other metallic surfaces. They are of pure METALLIC OXIDES,

and are unaffected by salt water or other exposure, less than any other paints within our knowledge.

Iron and other metals do not oxidize when coated with them, and they are remarkable for their fire-proof properties. Dealers supplied on liberal terms by S. T. JONES & CO., Agents for the Company, o27 tf 53 Beaver-st., N. Y.
