Lamps and Burning Fluids.

JOBSON'S PATENT LIGHT and HEAT REFLECTING STOVE GRATE—The great superiority of this unique Stove Grate over every other, is now so fully proved by the continued increasing demand in England, that the patentees have appointed HENRY I. IBBOTSON, of New-York, their Agent for the United States (where the said Grate is also patented). By the use of this Grate there is a great saving of fuel, and all the light and heat are so completely thrown into the room as to afford a degree of cheerfulness and warmth which twice the amount of fuel would fail to produce in any ordinary fireplace. Said Stove Grates can be had either perfectly plain or with decorations; and may be seen now in operation at the office of the Agent, No. 218 Pearl-st., between Maiden-lane and John-st. d12 tf
