LOCAL AND GENERAL

Mr. and Mrs. Alexander Young, after a long absence from the Territory, returned evidently much improved in health.

Mrs. W. O. Smith and Mrs. W. D. Baldwin are booked to leave for Maui in the Claudine, which sails at 5 o'clock this afternoon.

Governor W. F. Frear, who has been in Washington, returned today in the Siberia. He was met off the harbor by Secretary Mott-Smith.

Rev. A. C. McKeever begins a second series of talks at the Y. M. C. A. tonight at 9 o'clock. The talk tonight is on "Habits." All men welcome.

All members of Excelsior Lodge, I. O. O. F., and brothers of the order visiting the islands, are cordially invited to attend the meeting on Monday evening, Jan. 18.

MAY ASK POLICE TO ARREST ACTORS

It is reported on good authority that the police will be asked to be present, and if necessary, to interfere with the performance to be given tonight in the Japanese theatre on Maunakea street. The performance, to be given under the auspices of the High-wage Association, is called "The High-wage Show," and on account of this name, the attendance, it is said, will be unusually large.

Some of the well known Japanese do not approve of the manner in which this high-wage proposition is being handled. They believe in going slowly and diplomatically. The theatrical performers, it is said, will go through some improper acts, in which event the police will be asked to put a stop to it, and if necessary, place them under arrest.

CANADIANS MAY COME

Among the passengers to arrive on the Alameda this afternoon was B. A. Stringer of Canada. Stringer represents a number of Canadian rural districts and comes here to look over the ground with the view to bringing over a number of immigrants. He will make a careful study of conditions here and, if he finds them satisfactory, will recommend that the settlers come.

PEARL HARBOR WORK

(Continued from Page 1)

Congress fail to make the necessary appropriation it will be possible to do the portion of the work for which there is money on the same basis as that agreed upon for the entire work.

"We have been instructed to commence work within the limits of a 300-foot channel. I do not believe that the channel will be as narrow as that, however, as various naval officers, called into consultation, opposed the idea of a narrow channel strongly. I believe that the channel across the bar will be at least 400 feet in width, if not wider.

"The contract obligates us to deposit 3,000,000 cubic yards of material, car measurement, at the Army reservation on the east side of the entrance to the harbor. We are also to deliver 400,000 cubic yards at the Naval Station.

"Just as soon as we can get ready we expect to locate a permanent camp at Pearl Harbor. We have not made any arrangements for skilled labor, as we desire to employ local men as far as possible. As far as possible, we shall make all purchases of local merchants, that the money appropriated may be spent here.

"We have arranged to farm out a part of the work to a San Francisco dredging firm. This will not be done until Congress has made the full appropriation, however."

MAYOR APPROVES

The Mayor has approved the resolution passed by the Board of Supervisors providing for a right of way for a military road at Waikiki, and has so notified the County Clerk. This is the first such approval made by the Mayor.

CHIYO IN TOMORROW

The new T. K. K. Chiyo Maru will reach here tomorrow morning at about 8 o'clock. H. Hackfeld & Co., agents for the company, received a wireless from Captain Greene early this morning.

IMMIGRATION BILL HELD OVER SESSION

Governor Frear stated this morning that conditions were not favorable for the introduction of an immigration bill at this session, and, for that reason, the matter was let stand for the present. It was thought better to get the Immigration Commission to come down here this summer, if possible, and then a bill could probably be got through on the strength of their recommendation.

Mr. Trenor's work has been mostly among the Italians, and the Governor stated that it was impossible at this stage to say just what will be the success of his work. It will be a slow process, but, with the aid of Ernest Fabbri, who has considerable influence with the Italian Government, it is hoped that good results will follow. Fabbri has been favorably impressed with what he has heard of Hawaii so far.

NO SHORTAGE IN STAYTON'S ACCOUNTS

Through the most searching examination of the books of Jack Stayton, assistant postmaster, it has been found that, instead of his being short in his accounts, as a matter of fact the balance was on the other hand, and it has been shown that the government is in debt to him. Mr. Stayton has maintained since his arrest on a charge of opening official mail that his accounts were straight, and the searching examination of Inspector Hare has borne out his statements. During the Christmas rush of business, it is often the case that post office clerks make minor mistakes, which sometimes lead to grave charges, but this is not the case with Stayton.

The fact that his accounts are perfectly straight, or are: if anything, in his favor, inasmuch as the government is shown to be in debt to him, is good news to Stayton's many friends in the city.

TO EXTEND RECLAMATION

(Continued from Page 1)

and I both dictated stories on land opportunities to be found in Hawaii, and these will be published through one bureau of Mr. Newell's department, in thirty-five of the leading papers of the States. In the interviews given out by Newell and my self we emphasized the fact that the American coming here should have some money, this being done to prevent every Tim, Dick, and Harry from sending promiscuous letters. These stories will be sent out as a general 'feeler' on land matters, and how they are considered by the average well-to-do American farmer.

"Mr. Newell has been ceaseless in his work for Hawaii. He has boomed the Islands in every possible manner, and has accomplished a vast amount of practical good."

FIFTH CAVALRY GOES OUT TO LEILEHUA

The First and Third Squadrons of the Fifth Cavalry began their march to Leilehua shortly after 8 o'clock this morning. Despite the early hour there was a good-sized crowd on hand to watch the troopers mount and start away.

The quarantine question was settled without hurting anyone's feelings. The horses will remain in quarantine for two weeks; the Territorial officials are satisfied; the place of quarantine is Leilehua, and the regimental veterinarian is in charge; that fixes it as far as the Army is concerned. The horses will not be put into their stables until the quarantine period is passed, but will be hitched on the picket line. The stables won't be ready for two weeks, so everything is all right there.

The band went out with the soldiers today to Leilehua, not to Fort Shafter.
