KAIMUKI GETS A TURN-DOWN

"There's nothing doing until we have the money in sight," is about the gist of the solitary crumb of comfort tossed the residents of Kaimuki by the City and County fathers.

A list of petitions and resolutions have been pouring into the Mayor's office each beaking generous signatures of residents along several streets said to be in sore need of attention from the municipal road gangs.

Kaimuki is declared by dwellers of less favored sections of the city as having already received the lion's share of attention at the hands of the old board. One delegate from Manoa valley stated right out in a meeting held last night, that Kaimuki had received $25,000 in street improvement alone by the board that went out with the close of the year.

"No wonder, when two-thirds of its members resided there" snapped another disappointed Manoaites.

Last night the city fathers turned down action upon five distinct petitions or resolutions.

The axe swung upon the following projects:

Repairs to Ninth Avenue, Kaimuki, mauka of Waialae road.

Repairs to the street in vicinity of Eighth Avenue.

Opening of Fifth Avenue from Waialae Road to Isabella Avenue.

Repairs to Koko Head Avenue from Pahoa Avenue to Waialae Road.

Repairs to Eleventh Avenue from Moanalua Avenue towards Diamond Head.

Chairman Dwight and member Arnold of the road committee presented an unfavorable report. Low, the other member of that committee failed to concur, declaring that he believed that something ought to be done in effecting the repairs asked.

The Schuman Carriage Company has been awarded a contract for furnishing the city plumbing inspector with a Ford auto at a monthly rental of $50. The city to supply the gasoline and pay for any damage done the machine.

Under a new law lately passed by the supervisors, Auditor Bicknell filed his monthly report for March. Balance on hand January 1, 1911, $38,761.56. Since then he received from the Territory $105,000 and other realizations bring the total up to $119,347.63 making a grand total of $158,109.19. The total disbursements amounted to $123,760.50, leaving a balance of $34,348.69.

In order to comply with the request from C. Brewer and Company and Bishop Estate, the improvement asked for will necessitate a storm sewer along King street from Bishop of 140 feet in length, one man hole and two catch basins, the same to cost nearly four hundred dollars.

City and County Physician Wayson has made an examination of all persons connected with the manufacture of poi at the plant of the Kalihi Taro & Land Company and reports that they are in good health and in no way suffering from contagious disease.

Road Supervisor Wilder stated that to cover Kalakaua avenue, from King street to Makee Island, with light oil will cost $1547.30.

Attention has been called to the bad condition prevailing at Manalaha road in Nuuanu valley through a communication received from J. M. McLean. The highway is a menace to safety and is said to have been one of the legacies handed down by the former board of supervisors.

Among communications received last night was one from L. Mathews of Emma street, who wants a tree in front of his place trimmed as he believes it is dangerous to traffic.

The third reading of an ordinance making it an offense to erect or maintain a tenement within five hundred feet of a public school building was read for the third time and is now ready to receive the signature of the Mayor.

McClellan asked the road committee for a report on the new road and street grades. Chairman Dwight said he had done nothing but would report next week. Murray said he did not see why there should be any delay. He moved to pass first reading and Dwight said he had not seen a copy. Murray withdrew his motion.

The persons who keep right along learning are all right unless they let their minds leak.
