Dancing Schools.

A CARD.—Mr. CHARRUAUD takes pleasure in announcing to his numerous patrons and well-wishers, residing in the upper part of the city, that his Dancing and Waltzing classes will reopen in October next, at his new room, No. 54 East 13th-st., two doors west of Broadway, and near University place. The locations are commodious, convenient and pleasing, suitable for a select, genteel School, and at proximity to the several lines of Broadway and 5th-av omnibuses, and the 4th av. rail cars. There will be also classes at his old room, No. 20 White-st. The 6th and 4th av. rail cars pass in West Broadway at all hours during the day and evening, and land passengers at the corner of White-st. within half a block of his saloon. Please look for particulars in future advertisement.

N. B.—Mr. Charruaud will rent his saloon and rooms at No. 20 White-st for select parties, balls and soirees, throughout the ensuing season. Terms moderate. Please call at his residence, No. 88 West 11th st.

A CARD.—Mr. CHARRUAUD takes this early opportunity respectfully to acquaint private families, and the Principals of Boarding Schools, that his intention being not to attend at Brooklyn this season, he will devote the two afternoons he attended there in giving instruction in everything appertaining to his profession, either at their residences or at his new room, No. 54 East 13th-st., near Broadway. All orders left at his residence, No. 88 West 11th-st., between 5th and 6th-avs., will be punctually attended to.

500 TUNS of WIRE WANTED.—Proposals are invited by the undersigned, on the part of the NIAGARA FALLS INTERNATIONAL BRIDGE COMPANIES, for the construction of the wire cables of the Railroad Suspension Bridge, of 800 feet span, to be erected over the Niagara River, below the Falls, for the delivery of ONE MILLION OF POUNDS OF IRON WIRE, or any portion of it, not less than 100,000 lbs., at the site of the bridge, on the following conditions:

1. The wire is to be of No. 10 size, so that 20 feet will weigh exactly one pound.
2. The skeins to weigh no less than 18 lbs. An offer for 30 to 40 lbs. will be greatly preferred.
3. The wire must be finished with a lime coat, smooth and even, both ends of the same thickness.
4. It must be finished in three holes, or nearly as hard as spring-wire.
5. The iron must have been manufactured of the best quality of charcoal blooms, which will make hard wire of great elasticity, strength, fibre and toughness.
6. The blooms must have been manufactured of cold-blast charcoal pig, and not of anthracite pig, nor of hot-blast pig.
7. Satisfactory evidence will be required beforehand of the quality of the iron, of which the wire is to be drawn.
8. The wire must be drawn on blocks of no less than two feet in diameter.
9. It must be put up in bundles of 200 lbs., as near as can be done, without small skeins.
10. The wire is to be delivered in five equal portions during the months of May, June, July, August, and September of next year.
11. On delivery the wire will be examined and tested in the following manner: Of every 5 bundles, or 1,000 lbs., one skein will be selected, and suspended between two posts 400 feet apart, the one end attached to a capstan, by which it will be gradually hauled on until it breaks. The condition now is, that this wire must not break with a greater deflection than 9 inches, which is equivalent to 1,300 lbs., or 90,000 per superficial inch of solid wire section. If it stands this test, then further examination of that 1,000 lbs., in respect to other qualities, will be continued; but if not, it will be rejected and placed at the disposal of the contractor.
12. As regards toughness and fibre, each end of a skein will be tested by bending it square over the jaws of a large pair of new and sharp pliers, and bending it back again. The wire must stand this test without the least sign of failure. Its hardness and elasticity will at the same time be examined by bending and swinging, also by hammering, filing and notching the ends, which forms part of the operation of splicing.
13. Such lots as have stood the various tests satisfactorily, will then be accepted conditionally, and 80 per cent. of its full value will then be paid to the contractor in bankable funds.
14. The 20 per cent. will be reserved for four months longer. Should in that time, during the construction of the cables, any more defective skeins be discovered, such skeins will be rejected and placed at the contractor's disposal, either broken or whole, oiled or not oiled, in such condition as they happen to be during the progress of the work. The value of such wire, together with the labor expended upon it, will then be deducted of the 20 per cent. reserved.
15. The undersigned, as the Engineer of the Bridge, will be the sole judge of the above tests; he will stand as an impartial umpire between the contractor and the Bridge Companies, and from his decision there shall be no appeal.
16. Proposals for imported wire will also be accepted. One-half or 500,000 lbs. will be used on the Canada side, and must be bonded, if imported by way of New-York.
17. Proposals will be received until the 1st of October next; they are to be directed to the undersigned, at Niagara Falls, N. Y., and should be marked on the envelope "Proposals for Bridge Wire."
18. Those contractors, whose proposals are accepted, will be informed of the fact by mail before or on the 10th of October next. JOHN A. ROEBLING,
Engineer of the Niagara Falls Railroad Suspension Bridge.
Niagara Falls, N. Y., August 5, 1852.

SECRET OF BEAUTY—HOW to be HANDSOME.
I can instruct any person how to be handsome.
I teach how to make brown skin fair and clear.
I teach how to remove tan, pimples and freckles.
I teach how to change the sallow face into one of beauty.
I teach how to make the wrinkled skin smooth.
I teach how to make brown teeth as white as pearls.
I teach how to make offensive breath perfectly sweet.
I teach how to make hard brown hands soft and white.
I teach how to make diseased gums hard and sound.
I teach how to make the hair grow luxuriantly.
I can hasten the growth of whiskers, moustaches, &c.
I teach how to have bright and sparkling eyes.
I teach how to preserve the eyesight for life.
I teach how to restore impaired eyesight.
I teach how to change gray hair to its original color.
I teach how to change the color of the hair as desired.
I teach how to make the hair soft, rich and glossy.
I teach how to make the lips and cheeks red.
I teach how to remove superfluous hair.
I know the above are all perfectly harmless.
I know they are all very cheap and pleasant.
I know every person will like them on trial.
I give directions to make and use these compounds.
I know they are better than any advertised cosmetics.
I ask ONLY ONE DOLLAR for all this information.
I receive no letters unless postpaid.
