MRS. SCOTT'S SUFFERING OVER

Doctors Advised An Operation. How She Escaped Told By Herself.

Buckner, Mo.—"For more than a year I suffered agonies from female troubles and the doctors at last decided there was no help for me unless I went to the hospital for an operation. I was awfully against that operation, and as a last resort wrote to you for special advice and I told you just what I suffered with bearing down pains, backache, shooting pains in my left side, and at times I could not touch my foot to the floor without screaming. I was short of breath, had smothered spells, felt dull and draggy all the time. I could not do any work, and oh how I dreaded to have an operation.

"I received a letter full of kind advice, which I followed, and if I had only written here a year ago I would have been saved so much suffering, for today I am a well woman. I am now keeping house again and do every bit of my own work. Every one in this part of the country knows it was Lydia E. Pinkham's Vegetable Compound that has restored me to health, and everywhere I go I recommend it to suffering women."—Mrs. LIZZIE SCOTT, Buckner, Mo.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

GOVERNOR OFF

(Continued from Page 1)

[illegible]

WATER ENOUGH IN HONOLULU, SAYS CAMPBELL

Thus there is no water shortage in Honolulu, and none is anticipated immediately, is the statement made this morning by Superintendent Campbell of the Department of Public Works. But there is danger in the district of Honolulu and the water users of the Manoa Valley are seriously affected at the present moment.

Campbell says he has asked the Governor for an appropriation of $75,000 to be invested in engines and pumps that will relieve the situation. One pump is due to arrive on the Wilhelmina and will be ready for use in a couple of weeks, and that, it should relieve the situation somewhat, though the supply will continue to be somewhat limited.

Inspectors were kept busy in the Manoa Valley all last night, he said. The showers last night and today will have a tendency to relieve the situation temporarily, but the general condition is still serious for the residents in the outlying districts.

MILITARY CAMP LUMBER HERE

A race between the 1st Infantry and its necessary camp equipment was decided in favor of the latter this morning, when 207,000 feet of flooring lumber arrived on the Wilhelmina. For weeks it has been an even bet as to whether the First would arrive at Schofield and find plenty of earth and air, but none of the other requisites of a camp, not even water, but with the arrival of some of the equipment on the last Lurline and the balance this morning, the post quartermaster has a fighting chance of being in readiness for the regiment.

With the usual ilk of red tape requisitions, the lumber and piping asked for the First's camp, about which there was more fuss than over any previous requisition from Schofield, was ordered bought in San Francisco instead of in the local market. This is the first time that the post quartermaster hasn't been allowed to purchase this class of material in Honolulu. The flooring will be shipped out to Leilehua this afternoon or tomorrow, and Captain Watkins, post quartermaster, is ready to set his full force to work laying tent floors and laying pipe. He believes that he will just about make it.

Captain Game, depot quartermaster, has received cable advices that the Sherman sailed from Portland with the First last Friday, and that the transport is due here next Saturday about noon. The Sherman will not return to San Francisco from here, but will take up about 1[illegible] tons of local freight and proceed to the Philippines.

PORTUGUESE GIRL ESCAPES DEATH

An accident which nearly resulted in the death of Mary Silva, a young Portuguese girl, happened this morning at about 8 o'clock on Fort street, near King. The young girl was walking along near the Ewa sidewalk when suddenly a swiftly-driven wagon, in charge of August de Rego, came down Fort street and banged into the girl so violently that she was thrown down on the street. Pedestrians picked her up and sent her to the home of her parents for medical treatment.

Rego, according to the police, will be arrested some time today for heedless driving.

DR. McCOY'S OFFICE MOVED TO SURVEYOR'S

The office of Dr. McCoy, superintendent of the mosquito campaign for the Board of Health, has been moved from the little shack near the Judiciary Building into the office of Surveyor Wall, on the second floor of the building occupied by the Board of Health headquarters. The change was made necessary by the noise of the workmen at work on the steel frame of the Judiciary Building, which rendered it nearly that conversation in Dr. McCoy's temporary office was impossible.

PERSONALITIES

NEW YORK: Mr and Mrs. Allan Rathbone of Honolulu with their son, Master Francis Rathbone, arrived from Europe on the Caronia and will stay at the Hotel Wolcott, New York, for about a week before returning to Honolulu.

Miss W. J. Greene of Honolulu has joined Mr and Mrs. T. Guard of Hilo at the Wolcott.

Hotel Wolcott Management.

You must get the Bulletin to get the News.

CHINA QUIETER, SAYS HARLOW

"The China situation has since toned down to a state of practical calm, the powers in the north under Premier Li Yuan Hung, Captain Charles H. Harlow, U. S. N., retired, stated a homeward bound passenger on the China. Captain Harlow commanded the battleship California during the long stay in this port of the Pacific fleet, and took it ship to the Far East. He was retired at his own request April 15, after more than 38 years' service in the navy.

"I heard nothing of the China situation on my way home," said Captain Harlow to a Bulletin reporter this morning. "There is practically no excitement on that score now, and the Pacific fleet is pretty sure to complete target practice without being disturbed. The thing had not started when I left the fleet and had the Glacier arrived. The fleet organization is about the same as under Admiral Thomas, for Admiral Southerland made but very few changes in the staff."

Captain Harlow appeared as happy as a school boy the day after the summer vacation is declared.

"I've been in the navy a long time," he said, "and while the service has meant much to me, I'm glad of the chance to take a good rest and be my own boss. I'm going home to take things easy for a while."

Captain Harlow believes, from private letters received here that it will be several months yet before the Pacific fleet returns to the Coast, and that when the ships do make the trip it will be via China and Japan ports and by the northern route, sailing great circle to Bremerton. It is extremely improbable that a stop will be made at Honolulu.

THAT MINSTREL BUNCH IS HERE

All of the passengers on the Wilhelmina are talking about the minstrel troupe that arrived this morning, and according to the glowing reports that all of the tourists unanimously accord, H. Hugo Brothers' Minstrel Show must be all that it has been heralded to be.

Every day during the voyage the troupers put on an impromptu minstrel and vaudeville show for the amusement and entertainment of the other passengers, with the result that the entire passenger list, officers and crew of the Wilhelmina are to attend this evening's performance in a body. In doing this they are following the example of several of the city clubs who are going to make tonight's performance a real "first night."

Before the performance there will be a big street parade, to be followed by an open-air band concert given by the aggregation's own military band of thirty pieces. Miss Eva Clark will sing, and Mr Young, the famous impersonator formerly of Brooks' band, will conduct.

The performance will be a maze of beauty of color, three solid hours of fun and music, not a dull moment in the whole performance, and it has been guaranteed that every one will want to come back for more the second night. Tickets will be obtained at the Promotion Committee rooms, but hurry up before they are all gone.

FOLKS PAST FIFTY MUST USE CASCARETS

What glasses are to weak eyes, Cascarets are to weak bowels—a 10-cent box will truly amaze you.

Most old people must give to the bowels some regular help, else they suffer from constipation. The condition is perfectly natural. It is just as natural as it is for old people to walk slowly. For age is never so active as youth. The muscles are less elastic. And the bowels are muscles.

So all old people need Cascarets. One might as well refuse to aid weak eyes with glasses as to neglect this gentle aid to weak bowels. The bowels must be kept active. This is important at all ages, but never so much as at fifty.

Age is not a time for harsh physics. Youth may occasionally whip the bowels into activity. But a lash can't be used every day. What the bowels of the old need is a gentle and natural tonic. One that can be constantly used without harm. The only such tonic is Cascarets and they cost only 10 cents per box at any drug store. They work while you sleep.

"DICK" PATENT IN LOCAL CASE

Arguments were finished yesterday afternoon in the Rapid Transit case before the Supreme Court, and the suit is submitted to the court for adjudication. A decision is not anticipated for several weeks. It is a suit brought to determine the rights of the Territory, or the City and County, and of the Rapid Transit Company, in the matter of paving along the route over which the company, by virtue of its franchise, has control.

Attorney D. L. Withington for the Rapid Transit Company created a sensation in the Supreme Court yesterday when he introduced the "Dick" patent case decision recently given by the United States Supreme Court, and explained that under this ruling the Rapid Transit Company would be compelled to do its paving under the instructions of the paving company if forced to use a patent paving such as the bitulithic.

The United States Supreme Court has held, in the "Dick" case, that the holder of a patent shall say how it shall be used. Withington argued that this might be construed to mean that the Rapid Transit Company could be compelled to use materials throughout its system and equipment in conformance with the desires of the concern supplying the patent paving. For this reason, he said, the company should not be compelled by the Territory or City and County to use a definitely-named paving material in those portions of the streets which it must pave and keep in repair in accordance with its franchise.

The newest jabots are different from the big fluffy frills of some short months ago. They are small, flat and show very little trimming.

    Bass Solo by Mr. Schultz.
11. Goodnight ... Dudley Buck
    Quartet

Reserved seats, 50 cents, now on sale at the Y. M. C. A. General admission, 25 and 15 cents.

COLLEGE MAY HOLD EXERCISES IN BUILDING

Plans are on foot whereby the College of Hawaii may hold its triple celebration next June in the splendid new building now being constructed. Although the building is not completed, it is hoped that the first floor will be far enough along so that the exercises may be held there.

The college will celebrate the construction of its building, one of the finest in the Territory, its own annual commencement exercises, and the fiftieth anniversary of the establishment of the "land grant" colleges in the United States.

The building contractors, the Lord-Young Engineering Company, have run up against an unexpected snag in a shortage of water, which is preventing continuous work in certain features of the construction. However, it is hoped that the building will be far enough along so that the exercises can be held there.

Judge Cooper, who some time ago wished to resign as chairman of the board of regents, will continue to serve, according to report today. That he will not resign gives much satisfaction.

Borax or ammonia is effective and harmless when used to soften hard water, though rain water is always best for the toilet.
