KENTUCKY LEGISLATURE

FRANKFORT, June 28.—SENATE.—The senate passed the following important measures, which congressmen would do well to observe: "Section 1. That any railroad, telegraph, telephone, bridge or common carrier company, or company engaged in carrying part in this state, that violates the provisions of section 38 of the constitution of the commonwealth, shall, upon conviction thereof in the circuit court of any county in which said company does business, be fined not less than $1,000 nor more than $5,000 for each violation."

HOUSE.—The senate substitute for the charter for the government of cities of the second class came up as a special order in the house. Mr. Myers offered a batch of amendments. The charter, as amended, passed by an almost unanimous vote, and will be reported to the senate. The resolution providing for the appointment of a committee of three members from each house to codify, classify, index, and set forth, the general statutes of Kentucky, was adopted in the house as it came from the senate. The house passed the bill introduced by Mr. Wilson, of Newport, prohibiting the issuing of investment bonds, with an amendment offered by Mr. Myers, of Covington, prohibiting stock companies from operating in this state unless they shall file with the commissioner of insurance the certificate accepting the terms of all laws of this state applicable to insurance companies, and shall be under the direction and control of the insurance department.

FRANKFORT, June 29.—SENATE.—The senate passed the bill to provide police protection for counties containing cities of the second class. The senate refused to concur in the house amendment to the charter for the government of cities of the second class, and a committee of conference was appointed. The senate adopted Senator Gardel's amendment excluding class Nine of fifty-five thousand population with two exceptions, where circuit court is held, from the provisions of the bill authorizing county courts to submit the proposition for county seat removal to a vote of the county. The amendment excludes Kenton, but Campbell come under the provisions of the bill which was passed. Senator Newman asked that Campbell be included in the bill.

HOUSE.—The bill regulating the liability of railroad companies to suits for damages for injuries incurred by the negligence of fellow servants, was postponed by the house. The appropriations for Kenton county are not to be raised eighteen per cent. as rumored, to the alarm of its citizens. The board of equalization in session here now has decided to allow the assessment to remain at the present figures, and complimented Assessor Pugh upon his work. The assessments for Kenton county aggregate thirty million dollars.

FRANKFORT, June 30.—SENATE.—The senate reconsidered the appropriation bill, the largest item of which was $150, the bill of the public printer for furnishing the Daily Capitol to the members during the session, and passed it. The bill was reported to the house, and had its first reading. The bill relating to charitable institutions was reported from the house to the senate with a number of amendments, some of which had been adopted in a batch. The senate refused to concur in any of the amendments, and the bill was reported back. The conference committee came to an agreement upon the house amendments to the charter for the government of cities of the second class and the senate adopted the report. The senate killed the house bill which gave the professors of medical colleges the custody of unclaimed dead bodies for purposes of dissection, etc.

HOUSE.—The house adopted Senator Gardel's amendment to the senate bill authorizing the submission of county seat removal to the voters of the county, and passed the bill. The house reconsidered the vote by which Representative Myers' amendment to the anti-Trust Evangelical Co. was adopted, and defeated the amendment which placed the companies under the control of the insurance department, and required them to deposit $5,000 per county of the state, or proportionately with the companies of insurance. The further consideration of the bill which prohibits the companies from operating in the state at all was postponed until Saturday. The house defeated the amendment to the representative redistricting bill changing the arrangements of the counties of Breathitt, Letcher and Wolfe, Magoffin and Morgan, in the original bill passed some days ago.

FRANKFORT, July 1.—SENATE.—The senate passed the bill changing the time for holding court in the Nineteenth judicial district. The bill authorizing several corporations to have the power of both houses, have enrolled, and is ready for the governor's approval. The governor nominated Philip H. Carpenter, E. H. Hume and John W. Gulver to be trustees of the state normal school, and the senate promptly and unanimously confirmed them. They are all citizens of Frankfort.

HOUSE.—The conference committee's report on the charter for cities of the second class was reported. It is probable that Gov. Brown may recommit to the general committee the bill adopted by the house, to consider the charter bill for cities of the second class. A resolution was adopted in the house providing that the session on Monday begin at 8 o'clock, in order that all business may be finished by noon, the hour fixed for adjournment. Mr. Pettit's resolution, requiring the president to recommend to the secretary of war the ceding of the $1,000,000 appropriated to finish the improvements of the rivers in Kentucky, was adopted, with amendments including Salt, Green and Barren rivers. The bill authorizing cities of the second class to issue bonds to pay for the construction of sewers, passed. Senate bill requiring pleadings in equity cases to be filed in 60 days, passed. The bill appropriating $100 each for the seven clergymen who have acted as chaplains of the house, passed.

FRANKFORT, July 2.—SENATE.—The senate concurred in the house amendments to the appropriation bill and passed it.

HOUSE.—The house struggled over the appropriation bill, and many retrenchment and reform speeches were made, but it finally went through with not a single vote to spare. A message from the governor announces that he has approved the bill repealing private corporation act. The amendment puts state insurance companies upon the same footing as foreign companies. The governor has also approved the following bills: Providing for the levy and collection of a tax in one-tenth mill, and authorizing to pay off outstanding indebtedness incurred by the trustees of mill districts in the erection and equipment of schoolhouses; act amending an act relating to the state penitentiary to establish a state board of pharmacy, defining its duties and power, and to regulate the practice of pharmacy in the commonwealth; act amending an act for the government of cities of the sixth class; the resolution directing the public printer to furnish delivery to the superintendent of public instruction, five hundred copies of the law concerning the state agricultural and mechanical college; bill providing for fighting the governor's mansion with electricity instead of gas.

BEN LARKIN and E. H. Dewitt, formerly of Cincinnati, fought desperately on the street at Frankfort, the other night. Larkin slashed Dewitt several times with a knife, nearly cutting off his left hand and making several ugly gashes on both arms. Dewitt broke a heavy cane over Larkin's head.

A NEW OFFICE has been established at Isiah, Leslie county, and Richard T. Wilson commissioned as postmaster.

IN the noted case of D. R. Wiles, who has been on trial in the Christian circuit court for the murder of Walter Weaver, the jury, after two days' deliberation, returned a verdict of not guilty.

A THREE-YEAR-OLD child of Simon Jones, colored, residing in the northern portion of Christian county, fell into a boiler of scalding water and was burned to death.

At their weekly meeting the other day the ministers of Owensboro agreed to dispense with their next Sunday night meeting, and join each other in a union gospel meeting against liquor at the tabernacle.

THE Kentucky home at the fair contains one of the 10,000 rifles used by Daniel Boone, and one of the 20,000 hunting-knives he left.

NEWS has been received from Beverly, a village south of Hopkinsville, in regard to a difficulty that occurred in a field near there between Callum Littlefield and some colored hands over work, and during which the latter became very insolent and threatened Littlefield's life. Leaving the field he went and got his gun and fired on the colored men, killing his neck with shot, inflicting an ugly, and, it is thought, fatal wound.

QUEEN ELIZABETH'S prayer book, which was printed in 1574, has been sold recently. It is bound in gold and enamelled, and was worn by the queen, suspended from her girdle.

An engaged couple of Bluefield, W. Va., recently ran a foot race. The woman won, and then refused to marry her lover on the ground that she did not wish to wed an inferior.

THE general secretary of the International Stockhavers' union has issued a circular letter to the local unions, requesting them to demand the eight-hour working before making demands for higher wages.

World's Fair Letter.

Those who participated in the one hundredth anniversary of our American independence on the fourth of July, 1876, in Philadelphia, no doubt recall the feelings of joy and thanksgiving which seemed to permeate the very air and fill our souls with patriotism. And now after seventeen years we and our children have gathered together and again renewed our fealty to these United States, in the glorification which has taken place this week, at World's Columbian Exposition. A trained chorus of 2,000 voices, supplemented by an immense audience of perhaps 200,000 were joined together in thanksgiving and praise to Him who rules the universe. It is doubtful if upon any one occasion "Old Hundred" was ever sung by so large a choir. This was followed by the "Star Spangled Banner," "Red, White and Blue" and "America." Cannon were brought into requisition, and served to punctuate each sentence. The new Columbian or Liberty Bell, which had just been cast pealed forth its joyous chimes for the first time, and the flag adopted by Congress in 1796, and afterward presented by them to its rescuer, Lieut. Stafford, was, through the courtesy of his descendants hoisted and unfurled to the breeze.

It began to be doubtful from the visitors' standpoint whether Hayti's doors would ever open, but this doubt has been dispelled, and the formal ceremonies finally took place. Tongues of eloquence were unloosed and amid wine and song those who were invited were much interested in the large display made.

The sacred concerts given on the last two Sundays were not merely sacred in name, but in reality, and were listened to by an appreciative audience of many thousands.

The religious services held in festival hall proved that the people are glad of the opportunity to spend an hour in praise and song.

Miss Sophia B. Hayden was tendered a complimentary reception in the woman's building, of which she is the architect. She has reason to be proud of her undertaking, for she has reared a beautiful structure. So many prominent women, outside of Mrs. Potter Palmer, who are indentified with woman's work, were present, that space prevents giving their names.

We can only add to what we have already stated, that the music in the music hall, leaves nothing to be desired—soloists, chorus, instrumentalists and conductors, each do their part, which in many instances are beyond criticism.

What is Chicago's love, is Brooklyn's scorn, for Sousa's renowned band, has left the shores of Lake Michigan for the waves of Manhattan Beach, and while there will be music and good music here, still it will not be Sousa's.

Chief Buchanan of the agricultural department, shares in Chief Allison's glory, for he now tells us that the installation in the commerce building is complete. At the banquet served in honor of this long looked for event, everything from soup to cigars was furnished by the exhibitors from their exhibits, and a mighty fine feast it was.

Sweden's exhibit is imposing and is all contained within her own house.

The cowboy race is ended, and while most everybody agrees that Berry won the score, still, some of his competitors are disposed to take issue with him on this point.

Amid sounding of cymbals and beating of tom-toms, the Japanese village have at last declared themselves in readiness to receive. They have had many obstacles to overcome, and suffered some losses by death, from among their number, but they have come out with flying colors. Among the other interesting exercises was a procession by the little "brownies," such as they enjoy at home when the rice crop has matured, and their joy is expressed on many strange instruments.

Evidences multiply daily, proving the correctness of what has frequently been stated in these letters that the visitor to the exposition can expend much or little in seeing the fair, according to his means or inclination. One of the latest and most practical economical moves is the opening of Camp Lincoln on the lake shore only 600 feet from the south-easterly gate to the fair grounds. By rail the Illinois Central suburban trains stop at the south shore station only two blocks from the camp. Family tents, and tents for parties of six, eight or more are provided, the camp covering an area of five acres. Meals are furnished at 25 cents, or the visitor can eat where he pleases. There is letter carrier, collection and delivery at the camp three times a day, and mail directed to Camp Lincoln, South Chicago, will find the visitor as readily as if addressed to a city hotel. It is in fact one of the finest combinations of city and country life ever devised, and after seeing the neat and comfortable camp, it is a matter of surprise that similar camps are not dotted about in all directions. The originators and promoters of this camp life at the World's Fair are certainly public benefactors.—Boyce's Correspondence.

A Few Summer Suggestions.

Do not make too many visits, and when you go be sure that your visit is a convenient one. Do not entertain too generously; summer should be a time of rest, and it is difficult to rest with a house full of guests.

Place a large dish of water in a room where the heat is very oppressive. Change once or twice, and the temperature will be perceptibly lowered.

Sponge your babies with cold water at bedtime.

Give your children water to drink during the hot weather. They need this to make up for the loss of perspiration.

In washing summer frocks, if the colors run, put half a cupful of salt in the last rinsing water.

For insomnia in summer time, take a cold bath at bed time.

Press towels, folded as usual through your clothes wringer, and save your laundress.

Have mercy on your cook in your arrangement of meals for hot days.

Bathe daily.

Have your house gowns made with open necks and elbow sleeves.

Save your steps.

Allow double the amount of time in catching boats and trains that you do in winter.

Eat your meals slowly.

Drink milk slowly.

To wash summer silks remove all grease or other spots with soap and water before proceeding. Make solution of a tea-spoonful of ammonia and in this dip the silk again and again until the dirt is removed. Do not wring out, but press between the hands. Rinse in water from which the chill is gone, and hang in a shady place until partly dry, and lay between two cloths and press with a hot iron.

BUCHANAN, KY.

Misses Lizzie Hatten and Lizzie Warren, gave a delightful Sobing party last Thursday evening, which was voted by all present as the most enjoyable party of the season. Among those present were Misses Maggie and Lizzie Hatten, Lizzie Warren, Norma Bowers, and Messrs Manley Warren, Cloyd Huston and Curtis Montague. The time was pleasantly spent with music and the spinning of many amusing yarns, but the yarn spun by Mr. Manley Warren deserved the premium. After spending two hours on the water, the party disembarked, and the evening will long be remembered by all present.

Miss Flora Waters of Cincinnati, has been visiting her grand parents.

Mr Barr Kinner, made a flying visit to our town to-day.

For some time past Miss Norma Bowers, of Wheeling, W. Va., has been visiting Miss Lizzie Hatten and during her stay, has made a number of friends. Miss Bowers is an expert vocal and instrumental musician. She wears a large handsome gold medal, awarded her for proficiency in music, at Barbourville College, W. Va.

Messrs. Curtis Montague and Cloyd Huston, of Ashland, have been visiting Mr. Manley Warren.

Dr. Banfield has been having a streak of "bad luck," for the past week: First, he lost some money in the failure of the Second National Bank of Ashland; Second, he broke his fine $50 saddle; Third, the hogs mistaking his bridle for a potato patch, carried it off and did not discover their mistake until they had completely ruined the bridle. He is now wearing out all of his old clothes in order to economize.

Miss Norma Bowers, Misses Lizzie, Maggie and Emma Hatten visited the Sulphur Spring Thursday. Miss Bowers drank one gallon of the water, in two hours time, and Miss Maggie Hatten drank a half gallon. We think they both look better. Y. P. & S. W.

"My little boy was very bad off for two months with diarrhoea. We used various medicines, also called on two doctors but nothing could do him any good until we used Chamberlain's Colic Cholera and Diarrhoea Remedy which gave immediately relief and soon cured him. I consider it the best medicine I recommend it." E. E. Hane Trenton, Tex. 25 and 50 cent bottles for sale by A. M. Hughes Louisa Kentucky.

"Last fall I taken with a bad cold, or summer complaint. We used almost every thing with out result. Then I said let us try Chamberlain's Colic Cholera and Diarrhoea Remedy which we did and thank God we might say. John Burcher Bethel Berks Co., Pa.—25 and 50 bottles for sale by A. M. Hughes Louisa Ky.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional cure. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address, F. J. CHENEY & Co., Toledo, O.

Dr. Miles Medical Co., Elkhart, Ind.
Gentlemen: I take pleasure in informing you of the very beneficial results which have followed the use of Dr. Miles' Restorative Nervine in the case of myself and wife. For a year I was subject to a distressing pain at the base of the brain and upper portion of the spinal cord, but feel well and am greatly benefited with sleeplessness. Your Nervine has kept me from worse. My wife has been troubled with nervous prostration for years, but now feels that she has confidence in this efficacious medicine. Yours truly, J. M. Vandervere.
