On The Fly.

"Pray where do all the flies come from
That vex us so these days—
That buzz and fly and crawl about,
And pester us always?

"The tiger makes the bottle fly
Before he goes dead broke;
The blacksmith makes the fire fly,
Striking with lusty stroke.

"The carpenter makes the saw fly
From daylight unto dark;
The driver makes the great horse fly
Out at the driving park.

"The grocer makes the mean sand fly
To 'fix' his sugar cheap;
The beaches make the butter fly
Thus making landlords weep.

"And the cyclone makes the house fly—
The meanest fly of all.
But now 'tis time to say 'shoo fly,'
And wait for frost next fall."

TEACHER'S INSTITUTE

Will Meet at Louisa Sept. 11th.

Notice is hereby given to all concerned that the Lawrence county teachers' institute will convene at Louisa on Monday, September 11th, and continue five days. A portion of the law bearing upon the attendance is given herewith:

"Every teacher of a common school, including teachers of the graded common schools in cities of the fifth and sixth classes who hold a State diploma, State certificate or county certificate, or who contemplates applying for certificate of qualification to teach in the common schools, shall attend the full session of the institute in his home county unless he is teaching in another county in which the institute is yet to be held, or has attended the institute of a county in which he has a contract to teach. In teaching in a county other than his home county, whose institute is yet to be held, he must attend the full session of the latter. The county superintendent shall revoke the certificate of any teacher who shall fail or neglect to attend the full session of the institute.

Hall Hanged.

Henry Hall was hanged at Pikeville last Friday for the murder of his brother. About 5,000 people saw the execution.

He ate but little during the few days previous, but passed through the ordeal very well. After mounting the scaffold he was given an opportunity to make a statement. The Pikeville Monitor reports it as follows:

"I don't know that I have any thing to say, but let every body beware."

"Sol. Johnson swore a lie against me and Cherrisa swore a lie against me but she was made to do so and I don't think hard of her. Alex Johnson swore part falsely against me and part the truth. They have sworn away my life but I forgive them for it."

He then asked to have his coat taken off and the deputy removed it.

Hall seemed to be perfectly easy about his condition and obeyed every word promptly that was spoken to him.

As the black cap was drawn over his face and the noose adjusted around his neck he said, "This is the most unjust thing that ever happened."

The drop was about seven feet and he was dead in twelve minutes. Hall's wife and sister accompanied him to the gallows.

Hall seemed to have a weakness for shooting his relatives. It is said that he had shot four of his brothers. He claimed to have never heard but three or four sermons and attributes his awful career to the unholy home environments which existed all through his life.

The roads now have the whisky question thrown as a topic for discussion.

Dr. Cease is home from Knott county. He will go to Paintsville next week.

Charley Crutcher was awakened last Saturday night by a man groaning around in his room. He let out a yell which landed the fellow on the outside pretty quick. The next day Jas. Rho was arrested on suspicion and lodged in jail to await an examination, set for Monday. He had a hearing before Judge Rice on Monday and was bound over to answer at Circuit Court.

Most of our citizens remember James Cain, who made Louisa his home for awhile about nine or ten years ago, and will be very sorry to learn that he has recently lost the use of his lower limbs by a stroke of paralysis. He is in business in Chicago, and while at the World's Fair grounds a few days ago he was suddenly stricken with paralysis and [illegible] paralytic, [illegible] married [illegible]

Is It Thus?

By an examination of the late law on revenue and taxation the headquarters of the Sheriff is no longer in the saddle and his office in a pair of saddle pockets, but the people must go to his office at the coun'y seat and settle or at some place in the several precincts to be designated by him and for this purpose his office must be open during business hours.—Catlettsburg Chronicle.

Ayer's Sarsaparilla,
Scott's Emulsion,
Brown's Iron Bitters,
Dr. Pierce's Prescription
Smith's Tonic Syrup,

My little boy was very bad off for two months with diarrhoea. We used various medicines also called two doctors but nothing helped him until we used Chamberlain's Colic Cholera and Diarrhoea remedy which gave him immediate relief and soon cured him. "A report comes from the up Sandy valley which we trust is unfounded, but is to the effect that the West Virginia Mormons who have lately been kicked about so promiscuously in Kanawha, McDowell and other counties are crossing into Kentucky to advance their iniquitous doctrines among the residents of that section. These fellows, with their elders in a missionary guise, should be picked up, handled not over carefully and gently dropped into the placid bosom of the Sandy river. It would be in defiance of the State laws possibly, but in strict accordance with the views of a sensible, free-thinking and intelligent public."—Ashland News.

Monthly Crop Report.

The estimated shortage of the U. S. crop of wheat, as compared with last year; is very large. Europe is also reported as having a short crop, and is taking our wheat as fast as she can without attracting too much attention. Now would it or not be wise for the farmers to stack their wheat and hold it for a while as the price is so very low, hoping that this unsettled financial condition of this country will not last long. The average yield per acre from the reports I have received is 12½ bushels.

The corn crop up to the middle of July was very promising, and did fair to make a very large yield. The ground was well ploughed, the corn was fine color and looked well; but for the past fifteen days the early corn has suffered badly, and now both early and late corn are suffering alike. The per cent. is placed at 87.

The oat crop has been harvested in good condition, and I don't suppose that the quality was ever excelled in the State.

The per cent is 102.

The average of sorghum is placed at 82.

The crop of potatoes is a very large yield. Condition August 1st is 98.

The very excessively hot and dry weather has very materially checked the growth of tobacco, and more especially that of the late planted tobacco, which in many places, is doing little or no good. If present conditions last, the decrease in quantity will be great. One correspondent writes: My tobacco looking badly, some of it going to seed in shape of mullen. I give the per cent at 81. The acreage, as compared with last year, at 96.

The crop of timothy hay is very large, and stacked in fine condition. From reports short crops from abroad, it would be well for the farmers to take care of it, for there will be a foreign demand for it.

The average condition of apples on August 1st is not so good as on July 1st, having fallen off badly. It is a rare thing to find a perfectly sound apple, great many counties report none at all, but the few counties reporting good crops will make the average appear large. Percent. is. Peaches 57. Grapes 77.

The condition of all kinds of stock is reported good: Per cent. 95.

"Only the Scars Remain,"

SAYS HENRY HENSON, of the James Smith Woolen Machinery Co., Philadelphia, Pa., who certifies as follows:

"Among the many testimonials which I see in regard to certain medicines performing cures, claiming the blood, etc., none impress me more than my own case. Twenty years ago, at the age of 28 years, I had swellings come on my legs, which broke and became running sores, the family physician could do me no good, and it was feared that the bones would be affected. At last, my good old

Mother Urged Me

to try Ayer's Sarsaparilla. I took three bottles, the sores healed, and I have not been troubled since. **Only the scars remain, and the memory of the past, to remind me of the good Ayer's Sarsaparilla has done me.** I now weigh two hundred and twenty pounds, and am in the best of health. I have been on the road for the past twelve years, have noticed Ayer's Sarsaparilla advertised in all parts of the United States, and always take pleasure in telling what good it did for me."
