FRIDAY, March 23, 1906.

The late Legislature passed 157 bills.

The newest Ashland fad is an Equal Rights Club.

Herr Most, the anarchist, died rather unexpectedly, of erysipelas, at Cincinnati.

Osteopaths living out of the State will not be allowed to practice in Kentucky.

Peach crops in the South generally were not damaged greatly by the cold snap Friday night.

Reports from George's indicate that little damage was done to the fruit crop by Friday's cold snap.

General orders for the inspection of the Kentucky State Guard have been issued by Adjt. Gen. Percy Haby.

A law has been passed by the Legislature making one-seventh the lawful toll to be taken by steam and water mills.

Although the system of standard time was first established 22 years ago, one still hears, occasionally, of "sun time."

The Senate Tuesday voted away $140,000,000 of public funds in twenty minutes, this sum being carried by the Pension Appropriation Bill.

At a social function held in a town up the river the following was on the program: "Tell Mother I'll Be There accompanied by Chas. Hunk."

Senator M. G. Watson is the author of the important resolutions on Prison Labor which was passed by the Kentucky Senate, and he was made Chairman of the committee provided for by the resolutions.

The giving of political contributions from the funds of a life insurance company by the officers of such a company does not constitute larceny or any other crime, in the opinion of District Attorney Jerome.

"A recent issue of the New York Sun says the 'Dog Catcher' of the city of Washington, euphoniously styled the 'pound keeper,' receives $1,500 a year salary. The average salary of graded teachers in the Washington city schools is only $500 a year. The significance of the above figures hardly needs comment.

Gov. Beckham is besieged with importunities to add other matter for the consideration of the extra session, but to all he gives a courteous and positive no. He doesn't want the members to have any excuse for delaying action on the matters now proposed to have their minds diverted to other consideration.—Kentucky State Journal.

By the loss of twelve lives in a snow slide near Silverton, the death roll resulting from the great storm of the past week in the San Juan mining districts has been increased to at least fifteen. At Silverton, at the Camp Bird mine, and at Coal Basin, on the western slope, hundreds of miners, their wives and children are facing starvation. Mills and other mining property estimated to be worth a million dollars have been swept to destruction in deep gulches. The cattle on a thousand hills are reduced to skin and bone.

It is the opinion of those who are in Frankfort that the session will continue from ten to fifteen days, and that it will not close without adoption of the bills on the subjects named in the proclamation of the Governor.

It seems conceded that the lower House will, as it did in regular session make the gallon the unit in taxing rectified liquor, but there will be a strong fight in that body to hold the tax down to one cent, or three-fourths of a cent per gallon. The advocates in the Senate of the graded license tax are confident tonight that that body will refuse concurrence in the gallon unit, as it did in regular session, and say that the same method of procedure will be resorted to as at the regular session appointment of conference committees from the two Houses to try to get them together.

Pale, Thin, Nervous?

Then your blood must be in a very bad condition. You certainly know what to take, then take it—Ayer's Sarsaparilla. If you doubt, then consult your doctor. We know what he will say about this grand old family medicine. Sold for over 60 years.

This is the first question some doctor would ask: "Are your bowels regular?" The best doctors prescribe a mild laxative to regulate the bowels. Ayer's Pills are a mild laxative, and they are sugar coated, so they are easy to take. Sugar or gold coating keeps the system healthy and your bowels regular by taking nothing ahead of Ayer's Pills.

The system of paying county officers in Ohio by fees is wiped out, and all County Auditors, Recorders, Sheriffs, Prosecuting Attorneys, Clerks of courts and Treasurers, will be placed on straight salaries beginning January 1, 1907, through a bill which was practically made a law Tuesday.

House Bill No. 2, proposing a tax of one and one-half cents per gallon on rectified liquor, was Wednesday made a special order of the lower branch of the General Assembly for consideration yesterday at 10:30, and from day to day until disposed of. This bill is thus given precedence of the Auditor's Agents Bill and the Anti-Lobby Bill.

Fifteen thousand dollars has been appropriated by the State to the Geological Survey. The Survey asked for $25,000, but was cut down. Evidently the members of the Kentucky Legislature do not understand the importance of the work of a geologist, else they would permit a report on our resources. Here's Kentucky, one of the oldest States in the Union, with promptly the least development east of the Mississippi. What's the reason for it? Simply because we are unable to show to the outside world by an authentic report the value of our resources. The State affords no help. All that has been done has been done by individuals. Look at Wolfe county, with her oil and gas fields; Powell, with her rich deposits of clay; and all eastern counties with their coal. These facts we know, but the State did not aid in discovering them. Whatever else the State contains we know not, but we want to find out. We have asked the State to give, and look at the result. Would the State gain or lose by a substantial appropriation for the development of her resources? There could be but one answer to that. The State would receive in taxes in two years tenfold the amount appropriated for the work. Experience of other States has demonstrated that fact. Experience of other States ought to teach us, but our State does not seem to believe in experience, and look at her—pauper counties, bankrupt towns, and starving people, and all because our State refuses to show to people interested that Kentucky is one of the richest States in the whole Union.

If our resources were known at the present time, Kentucky would double its assessed valuation of 1906, but it takes time to make inspections and reports, and we may be too late to get our share of the capital now seeking investment and looking to our State to invest, but fear that individual reports are not to be relied upon. We hope the State will soon discover that to help herself means to help her people.—The Brooklyn News.

The Webbville Debating Club will discuss the dog law to-morrow night. William Green, the versatile debater takes the side of the dog and is armed with statistics and shingle nails for the fellow that usually man's most devoted friend.

Owingsville, Ky., March 14.—G. H. Denie, oil operator in Beaver creek field, has purchased from Walton & Day, of Hindman, 16,000 acres of oil land in Knott county. The purchase price is not known, but is said to have been large. The property will be developed as soon as spring opens.

The contract has been let by the Norfolk & Western for a $50,000 round-house to be built in the yards at Williamson, and to be completed by the first of July. The house will be built just west of the present one, and will have triple the capacity. It will be built of brick and stone.

Richmond, Ky., March 19.—At Valley View, Nelson Horne, of this place, shot Winfield Crowe, of High Bridge, three times, perhaps fatally wounding him. The trouble was over the division of a raft of logs of which they were owners. The fight took place on a raft in the middle of the Kentucky river. Horne was arrested.

Mrs. Dempsey, widow of Martin Dempsey, and mother of Lewis and John Dempsey, died Tuesday and was buried yesterday. Rev. H. B. Hewlett, of Louisa, preached the funeral. Mrs. Dempsey was about 65 years of age. She was one of the most highly respected women in Martin county. Her sons are leading business men of Martin county.

The body of H. D. Kerr, who was killed in a nitroglycerin explosion near Williamstown, Wood county, W. Va., two weeks ago, has been found in the top of a large tree, 500 feet from the scene of the explosion. The remains were buried near where found. Search for the body after the explosion was fruitless, and it was supposed the body was blown to atoms.

Huntington, W. Va., March 17.—Irva Porter, aged 18, was tried today in Lincoln county, charged with the murder of J. X. Hill, a coal operator of the southern section of the state. The jury stood 11 for conviction and 1 for acquittal. Porter was remanded to jail until the next term of Court. Hill was shot down while walking in front of his office in Eden Park about one month ago.

Mason Maynard, of Coon Creek, whose critical illness was reported in our last items, and whose family is also ill, met with a sad loss yesterday by the death of his 18-year-old son, Leonard, and 15-years-old daughter, Amy, who died of measles, their deaths occurring only one minute apart. The family have the deepest sympathy of all who have learned of the sad circumstance. Caskets were procured here for the remains yesterday. Mr. Maynard is slightly better.—Pikeville Items.

Prestonsburg, Ky., March 17.—W. W. Reynolds and S. C. Ferguson, attorneys, to-day filed suit in the Circuit Court for W. M. Roberts against the National Life Insurance Company of Montpelier for $10,000. Roberts alleges to made application to the company for a $10,000 trust bond and paid the premium of $90, but did not receive the policy, although he passed the examination. He says the defendant refuses to refund the premium paid.

Are you any relation to Ezekiel, William or Walter McCoy? If you are you may be a rich man or woman, for it is reported that in the state of California there awaits a fortune of many millions to the ones who can prove their rights to it. Some reports have the estate worth $20,000,000 and other reports exceed this stupendous amount. There is but little doubt that an estate worth many millions, and left by the three McCoy boys named above is awaiting the possession of the legal heirs. There are said to be from two hundred and fifty to three hundred people in this section closely related to the three men.—Minns Republican.

The following is taken from the Cincinnati Enquirer:

Louisville, Ky., March 20.—After being held prisoners by the operators of a moonshine still for 28 days in the heart of the Kentucky mountains, John Thomas and C. W. Jamison, two prospectors from Chicago, arrived in Louisville this afternoon almost exhausted from their harrowing experiences. Them on claim they were forced to work at the still at the point of revolvers during the entire time they were in captivity.

Thomas and Jamison left for the mountains February 24th, and, after spending the first night at Hazard, the seat of Perry county, they set out up the Kentucky river. They were captured the following night by the moonshiners while watching them make moonshine whisky.

The prospectors were thrown into a cave and held as revenue men. At first the moonshiners decided to shoot them, but it was later decided to make them work at the still.

Sunday morning they made their escape by striking a guard on the head with a stone. Thomas and Jamison say they were pursued for 20 miles, when the chase was abandoned. (The above story sounds very improbable.—Ed.)

Sergent, Ky., March 20.—Pierce Shine, one of the moonshiners shot in the battle between officers and moonshiners at Carr's Fork, Knott county, in which two moonshiners were killed and Malcomb Holliday, Deputy Collector, was fatally wounded, died today of his wounds.

Prestonsburg, March 19.—Robert Lee Patton and Harve Terry were arrested charged with robbing Adam Campbell's and Bud Dyson's stores, in Knott county, also Joe Gearheart's store, on Beaver creek, last night. When arrested the stolen goods were found in their possession. Both men confessed to the crime.

Owingsville, Ky., March 20.—W. J. Fell & Co., of Salt Lick, this county, have purchased the oak timber from 700 acres of land belonging to W. H. Wells, in Morgan county, for a price not for from $5,000. The Fell company will at once establish three stave mills on the property, giving work to about three hundred men. Other stave mills will be established there if required.

Incorporation articles were filed in the Department of the Secretary of State Tuesday by the Ohio and Licking silver Railway Company, of Montgomery county. The capital stock of the company is fixed at $15,000, and the line is to be constructed from a feasible point of junction with the L. and N. company in Fleming county to a point in Brown county where Triplett creek empties into Licking river, thence through Bath, Menefee and Morgan counties, approximately Sixty miles. Woodson Post, of Cincinnati, R. H. Winn, of Mt. Sterling, and Robert Young, of Farmers, are the incorporators named.

IN MEMORY.

Martha Elkins, wife of Pa Elkins, was born Aug. 7, 1867. They were united in matrimony Feb. 14, 1886. She died at her home on Cat Mar. 9, 1906, in full realization of a better home in that place—a country far from mortal sight.

A short time before she died, with the assistance of the minister, she selected the 91. "Blessed are they that die in the Lord." She joined the United Baptist Church and was baptized under th pastorate of Rev. C. L. Diamond. She was laid to rest in the Burnett cemetery, to await the resurrection morn. She left three bright little girls, from 4 to 11 years of age. Funeral sermon delivered by C. L. Diamond. C. W. Jones.

POLLY'S CHAPEL.

Died, March 2nd, John Chaffin. He leaves a wife, mother and 8 children to mourn their loss. Weep not, dear children for father is gone to a brighter home above. He had been a true member of the Baptist Church for many years, and was always a straight, honest man, and had a large circle of friends.

He was laid to rest in the Scott branch cemetery. Services were conducted by Brus Berry and Hicks Uttle, both belonged to the Mills, and was loved by all who knew him.

Mrs. Monroe Walters is here today visiting her two daughters. PIT.

WOMEN'S KIDNEYS.

Women are more often afflicted with kidney disorders than men, but attribute the symptoms to disease peculiar to their sex, while in reality the kidneys are deranged. Nervousness, headache, puffy or dark circles under the eyes, pain in the back, are signs of kidney trouble that must not be ignored, or a serious malady will result. Foley's Kidney Cure has restored the health of thousands of weak, nervous, broken down women. It stops irregularities and strengthens the urinary organs, it purifies the blood and benefits the whole system. Sold by Louisa Drug Co.

BUSSEYVILLE.

Miss Laura Pigg completely surprised our whole village by being quietly married at the home last Saturday night, to Mr. Stanton Miller, Rev. W. H. Massey tied the matrimonial knot. The newly married couple left Sunday morning for Blaine where Stanton is teaching school. May their lot be peaceful and prosperous is the wish of all. Both are highly respected folks, and are both first class teachers in public schools.

Johnson Thompson has sold the remains of our vicinity and is now domiciled in the town of Louisa, where he has employment.

Lindsey Pigg, who has been keeping the county infirmary for the past three years, has returned to his old home, and in honor of such return his daughters gave a "Fudge" party which was highly enjoyed by all who were present. "Fudge" being rather new, proves quite interesting.

Mr. Lafe Hayes is now in control of the county farm, and from the way he starts out he is the right man in the right place.

B. H. Dalaney now occupies the Lafe Hayes property, as it is close thus in this country that as sooner a man family out of a house, that some one else is ready to move in.

Mr. Fred Pigg will soon return to Torchlight, where he is now digging coal.

The 3rd quarterly meeting of the M. E. Church, South, Blaine Circuit, will be held at Marie.

Rev. Hagan is in Paintsville assisting in a protracted meeting at that point.

Rev. L. C. Tillett has just closed one of his most successful revival meetings at Dingfelle ever held in that section, anywhere. His success far exceeded all expectation. The church was greatly revived, many sinners convicted, and seekers converted, several additions to the church, all preliminaries arranged for the erection of a new church building, work to begin at once. Buckskin Boss.

IVEL, KY.

Nathan Foster, a well known C. & O. section laborer (colored) was instantly killed by the falling in of slate, stone, etc., of a coal mine, opposite Lewis Layne's, near the mouth of Ivy creek.

Heavy water have the bank to dig out a load or two of coal, and not being an experienced miner did not post it sufficiently, and thus met instant death. Some time was required in removing him from under the stone. His body was horribly mangled. A Friend.

Quick changes from hot to cold and back again try strong constitutions and cause, among other evils, nasal catarrh, a troublesome and offensive disease. Sneezing and snuffing, coughing and difficult breathing, and the drip, drip of the foul discharge into the throat—all are ended by Ely's Cream Balm. This honest and positive remedy contains no cocaine, mercury, nor other harmful ingredient. The worst cases are cured in a short time. A NEW WATCH.

Of the right kind and at the right price is a good investment and a source of constant satisfaction to the owner. The other kind is an abomination. There are hows in the cities that buy second-hand watches and repair the movements and offer them to retail dealers with the suggestion that we sell them as new. They have gilded and touched them up until they look like new to the unfrained eye, although they may be badly worn. There are hundreds of retail dealers to-day selling such watches as new at reduced prices. This is one of the tricks of the trade, but it is not an honorable course.

WE WILL SELL YOU A——

NEW WATCH

Of any grade at the right Price.

Also anything else in the JEWELRY LINE, and you will find it as good as we tell you.
