FRIDAY.....NOVEMBER 9, 1894

We did it with our little votes.

Both Utah and Arizona have gone republican.

Hill's ride in New York was on the toboggan order.

Grant county is democratic at all times and in all seasons.

The HEADLIGHT's roosters are feeling first rate, thank you.

Grant county democrats have no reason to complain of the result.

Where are all those candidates the populists were going to elect?

Now let us see what republican representatives will do for Deming.

Waite's defeat in Colorado counteracts at least fifteen republican victories.

Steve B. Elkins will sit in the senate in the next congress from West Virginia.

The defeat of Representative Wilson, the author of the tariff bill, is a calamity.

The next congress will be republican and we will see how rapidly times improve.

It might have been worse throughout the states but at this writing we can't figure just how.

Democrats who find it impossible to live in the east will find a congenial climate in Grant county.

Silver City democratic vote was a pleasant surprise, as were the votes in many of the precincts.

With a majority of county officials elected in a republican year, just think what we will do two years hence.

General Coxey will soon go to Washington again, but this time as a member of congress from his Ohio district.

From the returns received throughout the United States it is alarmingly evident that the HEADLIGHT does not circulate as widely as it should.

No matter of what political parties, the newly elected officers of Grant county will make competent officials and give the county a clean administration.

The vote for delegate to congress, so far as known, leaves the election in doubt. Joseph lost where least expected and gained where Catron was thought to be strong. Iwill be a great pity should Mr. Joseph be retired to private life, as he has been a hard working, conscientious representative.

The result of the election throughout the United States was to be expected. Times are hard and the great mass of the voters in such occasions do not stop to investigate the true conditions but cast their ballots in favor of anything that might savor of a change. The returns do not mean a condemnation of democratic principles, and within two years, when the beneficial results of the Wilson bill and democratic legislation is begun to be felt, the change of sentiment will be just as emphatic in favor of the only party of the people.

THE RESULT IN GRANT COUNTY.

Democrats have every reason to feel proud of their victory in Grant county. With a populist party organized for the sole purpose of defeating them they have elected the most important offices on the ticket by good majorities. Even on the representative where every effort was made by the populists to defeat Judge Boone, Carr has been successful only by a small vote. Again on the contest for sheriff, an open fight was made by the populists against Shannon and yet he has been elected by a large majority. The election of E. M. Young is a tribute to true worth and ability, as is also the election of Robert Newsham as probate judge. The defeat of Thielman for school superintendent is a decided victory for the democrats, using as he did every method to combine the county vote against that of the towns by all kinds of representations. At this writing it looks as though the republicans have been successful in electing two county commissioners. The defeat of Mr. Davidson is due to misrepresentations and strenuous efforts on behalf of the republicans and populists against him. The same holds true of Mr. Clark, if he be defeated) as Brown was opposed for Mr. King. The democrats of this county have made a gallant uphill fight and have won, and to democrats all is belongs the credit.

*The name of the candidate for Surveyor having been left off the democratic ticket accounts for the shortness of his totals in some precincts.

For convenience in reporting the coming election we have included in the list the candidates of the People's party. There was no such ticket in the election of 1892.

Blood Poison

THE BANE OF HUMAN LIFE,

Driven Out of the System by the Use of

Ayer's Sarsaparilla

"For five years, I was a great sufferer from a most persistent blood disease, none of the various medicines I took being of any help whatever. Hoping that change of climate would benefit me, I went to Cuba, to Florida, and then to Saratoga Springs, where I remained some time drinking the waters. But all was no use. At last, being advised by several friends to try Ayer's Sarsaparilla, I began taking it, and very soon favorable results were manifest. To-day I consider myself a perfectly healthy man, with a good appetite and not the least trace of my former complaint. To all my friends, and especially young men like myself, I recommend Ayer's Sarsaparilla, if in need of a perfectly reliable blood-purifier."—JOSE A. ESCONAN, proprietor Hotel Victoria, Key West, Fla.; residence, 252 W. 16th St., New York.
