GRANT COUNTY MINES

Many New Ventures and All Mines Are In a Flourishing Condition.

THE GRAPHIC MINING CO.

Lost Mine Bonded for $25,000—100 Miners Working at Central—Incorporators of the Graphic Mining Co.—Spaulding and Allen Strike it Rich—The Doña Ana Mineral Find—Little Charlie Will Not Follow in His Sister's Path.

CENTRAL.

There is no marked change to record in the progress of the camp. All the mines are being worked, and the results are thus far decidedly encouraging. There are no idlers in camp, and the outlook is more flattering than for any time during the past eight or ten years.

About the only news of note here is the bonding of the Lost Mine to California parties for $25,000. Samples of the ore were taken, and forwarded to California some time ago. They proved satisfactory, and an expert is expected here shortly. The bond given is for four months only. The property is now being worked by a small force of men.

It is estimated that eighty or one hundred men are now at work in and about Central and surrounding camps.

IVANHOE.

The smelter is kept running steadily, and has a sufficient supply of ore on hand to last a considerable time. All ores offered are being purchased or put through on time. The success of this enterprise has given encouragement to miners, and the smelter people find no trouble in keeping the works running to their full capacity.

HANOVER.

The iron mines continue to ship ore regularly, and to keep a considerable force at work. Among the corporations recently filing articles with the territorial secretary, is:

The Graphic Mining Company—Incorporators, H. Lell, Mills and Singleton M. Ashenfelter, of Colorado Springs, and Charles H. Curtis, of Hanover, N. M.; objects, mining and kindred pursuits; capital stock, $2,000,000; life, fifty years; directors, J. R. M. Grosvenor, John R. Stuyvesant, T. G. Gordon, of New York City; Charles H. Curtis and A. E. Dawson, of Hanover, N. M.; principal place of business, New York City with a New Mexico office at Hanover.

This means resumption of operations on the Graphic mine at Hadley which has been lying idle for two years awaiting the adjustment of business complications among the stockholders.

COPPER FLAT.

While not making much noise, Superintendent Berry is plodding along with development work, and is extracting some high grade copper. A force of about twenty men is being employed, and the results are proving highly satisfactory.

PINOS ALTOS

As usual, all the mines in this camp are working full handed, and large quantities of ore are being extracted. The outlook is decidedly cheerful, and reminds one of old times. While the mines here are not as numerable as those of Cripple Creek, their permanence has been proven by more than thirty-five years continual work.

The Golden Giant continues to astonish its owners. The shaft is now down nearly three hundred and forty feet, and sixteen inches of good ore is in sight. It widens as depth is reached, and apparently grows richer. Samples taken from the lower workings are variously estimated to run from $40 to $55 per ton in gold. They carry some zinc and considerable iron pyrites, and the management are awaiting propositions from two separate smelting plants for their product. Should the bids prove favorable, the Mammoth mill will not treat the ore, but it will be shipped, as it is regarded more of a smelting than a milling proposition.

A. J. Spaulding and R. S. Allen, who have been working a prospect in the foothills west of Fort Bayard, have struck good ore at a depth of 90 feet. The vein is from 8 to 10 inches in width, and shows silver plentifully; it also carries lead, and probably some gold. Samples on exhibition would lead to the inference that after many years, the boys have finally struck it rich.

Accounts from the Blue Creek gold excitement continue to arrive, but as no one who has been there has returned, the reports are somewhat conflicting. It is certain however that gold exists in that locality, but in what quantities it is difficult to determine. Rich gold quartz has been shown, which is said to have been brought from the Blue, and in the Mogollon country considerable excitement prevails.

As promised in the last issue of the HEADLIGHT, we are prepared to give more definite particulars concerning the big mineral find in Doña Ana county. The ledge is six feet in width and can be traced for two miles. Parties are now on the ground boring for water, without which the property would be valueless. The country is described as being difficult to find by anyone who has not already been there, and as the exact locality is not definitely know there is no fear of an immediate rush. The mineral is not located in the Potrillo mountains, but it lies between the Southern Pacific track and the Rio Grande river, about 30 miles north of El Paso. Assays made in Silver City show 24 per cent copper, $3.75 gold and $11.60 silver.

MOGOLLON.

The camp is a little quiet just now, but considerable work is being done. There is more prospecting being done in this vicinity than for many years past. A good many new locations are being made, and mining ventures are growing more plentiful from day to day.

The Colorado company continues working its leased properties as well as the old reliable Maud S. The mill is kept running on their various properties. The report that the ore in the Maud S. had petered out completely is not being borne out by facts, as a considerable body of ore was struck in the lower levels recently. The body is said to be large and of good quality, and judging from present indications Maud instead of being dead, as reported, has entered upon a new lease of life.

The Little Fanny remains dormant, and nobody knows when work will be resumed. The big mill on Mineral Creek is still at rest.

The Little Charlie, on the same vein as the Fanny is being worked by the two Tommys, Cosgrove and Cooney, and if anything like its sister, it will be a long time before it will be closed down for the purpose of stock manipulations.

The Keno is working as usual and considerable good ore is being found.

GLENWOOD.

The Native Copper and Copper Rose are working six men. Two carloads of ore have been shipped to Pueblo and more will follow. The bond has about expired, and an effort is being made to secure an extension, but it is doubtful if it can be secured without a consideration. The property is looking well.

GOLD HILL.

Wood and Gregory have a fine prospect in their Gold Belt. The ledge is 18 inches in width, and the ore averages $76 gold and 6 ounces in silver. But little work has been done on the claim, but from now on work will be prosecuted vigorously.

SIXIX'S PASS.

Since the first of the year this once famous camp is displaying a renewed activity that is surprising. A few months ago, three or four men comprised all in camp, and now there are nearly a hundred and the development work being done is resulting in some mighty fine ore being found.

The Volcano mine is being worked by P. B. Smith with good success and some high grade silver and gold ore is being taken out. The prospect for this property is unusually good.

The Wyman mine is being operated by the owner of the Deming sampler by that name, two men being employed. The property is opening up nicely, work having only been resumed since the first of the year. The ore vein is one foot in thickness and is widening all the time, the assays showing about 600 ounces in silver and ½ ounce in gold. The present strike was made while the assessment work was being done. Shipments will be begun towards the last of the present month. The main shaft in which the strike was made is down over 60 feet.

Oscar Williams is opening up a pretty find of high grade lead ore in his mine south of the track.

Charles Gearhart is working three men on his lead proposition in Granite Gap and is getting good ore in large quantities.

The World's Fair mine in the Granite Gap country is being worked by Hoiling Brothers and a strike of high grade lead ore has been made since the beginning of the year.

Nearly all of the operators will be making shipments to the Deming sampler within the next few weeks.

J. Douglass Smith is prospecting for opals in Horseshow Canon and with considerable success.

GAGE.

Allen and Burke, leasing the Hagglin-Hearst property, continue to make regular shipments here of ore which nets a small fortune each time and the ore body does not show the slightest sign of diminishing. The boys employ a small force and superintend work in person.

Work was resumed on the first of the year on the St. Louis and Wakeman mines by small forces and will be prosecuted vigorously during the year. Both properties are looking up nicely, and it would not be surprising to hear of another rich strike in this district any day. Both these properties have made fortunes in their time.

CEDAR GROVE.

"Dutch Fred" has taken out two carloads from his mine and will ship to Deming. He is the only person operating to any extent in this district.

TYBRIID.

A new strike was recently made on the Hoffman mine, while sinking the shaft. It is said to be the best find ever made on the property, which means considerable, as shipments have been made regularly several times a month for a long time.

DEMING.

As a striking illustration of the revival of the mining business in this section, it can be stated that the Deming sampler is and has been for months, doing a business of close to $50,000 per month. Ores come to Deming from every camp in southwestern New Mexico and from Wilcox, Tombstone, Globe and many camps in Arizona.

Annual Meeting.

The Regular Annual Meeting for the election of officers for the Grant County Charity Hospital Society will be held at the Hospital, at 2 p. m., Tuesday, February 11th, 1896.

All ladies of Grant county who are interested in charitable work are cordially invited to become members of the society.

CHICAGO LADY QUARTETTE.

Entertainments for the Near Future in Progress—Library and Gymnasium Management Will Give a Dance—Chicago Lady Quartette Coming—G. Wormser & Co. Will Sell Out Their Goods and Retire From Business.

Buy your ticket for Monday night.

Keep your eye on the "flying squadron."

Several prominent cattle buyers have been in town this week.

Work, for the night is coming—Monday night at the opera house.

Singing class every Monday and Thursday evening at Mrs. Dane's.

Mines and mining appear to be the principal topics of conversation these days.

The Deming Social Club's dance last Friday night was, as usual, a brilliant success.

Israel King shipped 955 head of Mexican cattle this week and Taylor & Brown 500 head.

Dr. Cassels reports the birth of a daughter to Mr. and Mrs. T. S. Robinson last Sunday morning.

Deming's insurance office now bears the legend "Samuel Burnside Insurance Man." D. S. Weaver was the artist.

The Chicago Lady Quartette will appear at the opera house Monday night, January 27th, give them a rousing welcome.

Col. Max Meyers has been laid up with rheumatism for the past few days, but is now able to attend to his business duties.

The W. C. T. U. of this city will soon give an entertainment. Keep your weather eye on the HEADLIGHT for full particulars.

The Southern Pacific people have gotten out an elegant folder and accompanying description of the "Sunset Limited" and its route.

Jas. L. Fergusson, the second hand dealer is now nicely setted in his new quarters on Silver avenue in the Lindauer building.

"Wild Jack," from the upper Pecos country has been holding protracted meetings all week in the Methodist church in this city. The meetings have been largely attended.

The new gold diggings, located on the Blue in Arizona, are creating considerable excitement. They are only thirty two miles from Clifton, and are of easy access from that point.

The Library and Gymnasium management will give a dance at the opera house on the night of February 14th. It has not yet been decided just what order of a dance it will be, but probably either a fancy dress affair or a poverty ball.

Mrs. C. H. Dane is having fine success with her singing class, which she is conducting at her residence on Pine street. The class is quite large and great interest is being taken by both teacher and pupils.

The Chicago *Tribune*, in a recent issue, announced that the Santa Fe route was about to take off its California limited train, as it had proved unprofitable. This statement was unfounded and is absolutely untrue. The train is exceedingly profitable, and its discontinuance has not been thought of by the management.

Custer Post, No. 8, G. A. R., recently elected and installed the following officers: Post Commander, Byron A. Knowles; Senior Vice Commander, Otto Smith; Junior Vice Commander, William Leffler; Officer of the Day, John Galvin; Quartermaster, Frank Delaney; Adjutant, Louis I. Marshall. The Post is in a flourishing condition.

One of the greatest benefits to be derived from health resorts in winter is the opportunity and inducement for exercise in the open air, and since invalids shrink from chilling temperature, there is a necessity not only for warm days, but also absence of high winds and low relative humidity, conditions which, especially the winds, tend to rapidly abstract heat from the body. Besides, clear, bright days, without too frequent rains, are needed to enliven and cheer the invalid, and remove him from the depressing impressions which always result from confinement through dull or stormy weather. Every element of comfort above enumerated is to be found in Deming. Sunshine is one of the most important and essential life-giving climatic conditions, and here it is found in abundance with all of its accompanying essentials.

A LAST RESORT.

Next Sunday Is the Day Set in Implore Divine Aid.

The Ministers union of the city of El Paso has sent a circular letter to all religious periodicals in the United States calling on preachers, endeavor societies, Epworth Leagues and young people's societies generally to unite Sunday January 26 in prayer that the coming prize fights at El Paso may be prevented and the great state of Texas saved from the disgrace.

This is a new means of preventing battle encounters but whether it will prove so effective as the plans of action at Dallas, Texas and Hot Springs, Arkansas where Corbett and Fitzsimmons were kept apart is yet to be tested. This is a good chance for the religious world to test the efficacy of prayer. It is highly probable however that the Ruler of the Universe will not interfere until all legal means have been exhausted, as man's extremity is generally considered God's opportunity. In the mean time the $10,000 has been subscribed and the big pugs are assembling from all quarters. As prayer so far has failed to far Ingersoll and it has not stopped the Armenian troubles, all will await with interest the issue at El Paso.

Early teachings, however are, that prayer without faith is not the kind that removes mountains; also that faith without active works availeth nothing. [Arizona Gazette.

REVIVAL MEETINGS.

Conducted by John Waldie During the Week in this City.

The Eddy Evangelist, John Waldie, began a series of revival meetings in this city on Sunday the 19th inst.

Tidings of his success at other towns came to Deming in advance of the Evangelist, and created an interest that brought large congregations to hear him.

On Thursday night the Evangelist took for his subject "The Sins of Deming." The house was crowded to the doors with interested hearers, some of whom have accepted Christ as their Savior and many are seriously aroused.

Mr. Waldie was questioned in regard to his singer and said, that while Miss Mary Bateman had decided to continue in the work, for life, he had decided to change singers. Mr. Love Vaughn, the noted singer who has traveled for some years with Evangelist Burnett, will sing at the Waldie meetings in El Paso, after which, Billy Sutton, who is at present singing for Rob't. Waldie evangelist in Chicago, will take hold and travel with John Waldie.

WILL CLOSE OUT.

Old Established Firm of G. Wormser & Co. Will Retire From Business.

The firm of G. Wormser & Co., successors to Lindauer, Wormser & Co., for the past thirteen years doing a general merchandise business in this city, and one of the largest general merchandise establishments in the southwest, have decided to sell out their large stock of goods and retire from business.

This decision was brought about by the heirs of the late Isaac Wormser, who was a member of the firm, wishing a settlement of the estate, and it was thought that winding up the business would be the most advantageous method of reaching the desired result.

It is with deep regret that the HEADLIGHT announces the retirement from business of this firm that is almost as old as the town itself, but hopes that Mr. G. Wormser may conclude to re-engage in business here, where he is so highly esteemed as a citizen and business man.

CHICAGO LADY QUARTETTE.

Will Give the People of Deming a Rare Treat Next Monday Night.

It has been a long time since the people of Deming have had an opportunity to listen to such music as will be furnished by the Chicago Lady Quartette at the opera house next Monday night, and all should avail themselves of this rare chance of spending a pleasing and profitable evening.

An exchange, mentioning the quartette, says: "A refined audience heard and was delighted with the Chicago Lady Quartette. It seems as though they had almost attained perfection in their singing and their voices blend beautifully."

Miss Nettie M. Jackson, reader and impersonator, is with the quartette, and her selections with the musical program make a pleasing combination. Tickets now on sale at Byron's Drug Store.

Marvelous Results.

From a letter written by Rev. J. Gunderman, of Dimondale, Mich., we are permitted to make this extract: "I have no hesitation in recommending Dr. King's New Discovery, as the results were almost marvelous in the case of my wife. While I was pastor of the Baptist Church at River Junction she was brought down with pneumonia succeeding la grippe. Terrible paroxysms of coughing would last hours with little interruption and it seemed as if she could not survive them. A friend recommended Dr. King's New Discovery; it was quick in its work and highly satisfactory in results." Trial bottles free at J. P. Byron's drug store. Regular size 50c. and $1.00.

Sheriff's Sale Under Execution.

Notice is hereby given that on the 23th day of November, A. D. 1895, in a certain cause pending in the District Court of the Third Judicial District of the Territory of New Mexico, within and for the County of Grant, entitled the Board of County Commissioners of the County of Grant vs. William Berg, Howell L. Pickard, Marcellus W. Kelly, Severin C. Wagner, Julius Wagner, Lee Hubbard, John Corbett, J. P. Metcalfe, and J. W. Hanagan, James Tracy, T. S. Robinson and John J. Quinn, and numbered 1800 on the docket of said court, brought by the said plaintiff to recover of and from the said defendants in an action of debt on bond, judgment was rendered in favor of the said plaintiff and against the said defendant, John J. Quinn in the sum of Two Hundred and Seventy-seven and 60-100 Dollars ($277.60) and Five and 22-100 Dollars ($5.22) costs of suit and interest at six per cent per annum from said 27th day of November, A. D. 1895, amounting to $21.11; that no part of said judgment has been paid or satisfied; that pursuant to and by virtue of an execution issued out of said District Court on the 23rd day of January, A. D. 1896, commanding me that of the goods and chattels, lands and tenements of the said defendant, John J. Quinn, to cause to be made the sum of Two Hundred and seventy-seven and 60-100 Dollars ($277.60) and Five and 22-100 Dollars ($5.22) costs of suit and interest in sum of $21.11, I have levied upon the following described property of the said defendant, John J. Quinn, to wit:

Lot Twenty-one (21) in Block Four (4), Lot Twelve (12) in Block Fourteen (14), Lots Twenty-three (23) and Twenty-four (24) in Block Seventy (70), Lot Twenty-one (21) in Block Sixty (60), Lots Three (3) and Five (5) in Block Thirty-one (31) and an undivided one-half interest in Lots Thirteen (13) and Fourteen (14) in Block Sixteen (16) and Lot Four (4) in Block Thirty-one (31) and Lot Twelve (12) in Block Fifteen (15) of the townsite of Deming, according to the survey and plat of T. S. McCoy, filed in the office of the Probate Clerk and ex-Officio Recorder of Grant County, New Mexico, on the 12th day of March, A. D. 1892, and all of said property being situate in the County of Grant and Territory of New Mexico;

Now, therefore, in virtue of the premises and the said execution and levy as aforesaid, I will offer for sale and sell on Thursday, the 27th day of February, A. D. 1896, at the hour of ten o'clock a. m. of said day at the corner of Silver avenue and Pine street, in front of the First National Bank Building, at the town of Deming, in the County of Grant and Territory of New Mexico, to public vendue to the highest and best bidder for cash in hand to gold coin the day of sale, the property above described, or so much thereof as will be sufficient to satisfy the judgment obtained by the above named plaintiff against the said defendant, John J. Quinn on the 27th day of November, A. D. 1895 for the sum of Two Hundred and Seventy-seven and 60-100 Dollars ($277.60) and Five and 22-100 Dollars ($5.22) costs of suit, with interest at six per cent per annum from November 27th, A. D. 1895, amounting to $21.11 and the costs incident to said sale.

The property above described will not be sold for less than two thirds of its appraised value.

Electric Bitters.

Electric Bitters is a medicine suited for any season, but perhaps more generally needed in the spring, when the languid exhausted feeling prevails, when the liver is torpid and sluggish and the need of a mild and alterative is felt. A prompt use of this medicine has often averted long and perhaps fatal billious fevers. No medicine will act more surely in counteracting and freeing the system from the malarial poison. Headache, indigestion, constipation, dizziness yield to Electric Bitters. Only fifty cents per bottle at J. P. Byron's drug store.

WOULD COME TOO HIGH.

What the Free Homestead Bill Would Cost the Government.

WASHINGTON, Jan. 23.—The house committee on public lands has received from Secretary Smith a strong adverse report against the free homestead bill. The bill absorbs all persons completing five years residence on lands taken and occupied under the homestead laws from making further payment to secure their title other than fees incident to filing and obtaining proof of the measure, is a sweeping one and the land office officials estimate its passage would involve at least $30,000,000 of cost to the government and $18,000,000 in Oklahoma alone. This is the amount paid to the Indians for the relinquishment of their lands there.

Proceedings of Congress.

WASHINGTON, Jan. 23.—The senate put aside finance and foreign affairs yesterday and gave the day to work on comparatively minor bills on the calendared. About 70 bills were passed, clearing the calendar of much accumulation and leaving only the important measures pending.

The house passed the urgent deficiency bill. The bill carried $1,415,924, of which $3,243,582 was for the expenses of the United States courts.

The abnormal growth of the expenses of the Federal courts came in for a good deal of criticism, and there was general expression in favor of a salary system.

Getting Lower and Lower.

WASHINGTON, Jan. 21.—The treasury yesterday lost $3,500,000 in gold bars for export, $73,000 in coin and $14,000 in jeweler's bars, making the total loss $2,582,000. This reduces the gold reserve to $50,790,129.

The Dawes Commission.

WASHINGTON, Jan. 22.—The members of the Dawes commission which treated with the five civilized tribes have gathered here in response to Secretary Smith's summons, and will give a report to him today. They will be given a hearing by the congressional Indian committee and confer with the committee members regarding a recent report of the commission favoring immediate change the in form of government of the tribes.

Another in Textas.

HELENA, Jan. 22.—The Montana Lumber company's yards were destroyed by fire. Loss, $100,000; partially insured.

Accidentally Killed.

DALLAS, Jan. 22.—A telegram has been received here announcing that Rev. J. T. Toof, formerly pastor of the Christian church in Dallas, had been accidentally killed by the explosion of a gas engine in New Haven, Conn.

Barton Bros. Fail.

DALLAS, Jan. 22.—Barton Bros., doing a retail business in glassware, queensware, etc., on Elm street, east of Akard, made a general assignment for the benefit of such creditors as will accept.
