As we predicted last week, it is now all but certain that Hayes will be counted into the Presidency. True, Oregon is yet to be disposed of, and we do not see how the National Returning Board can logically go back on their own record in the Florida case, but the hare already swallowed Camels and will not long strain at nats. Tilden, with a popular majority of 250,000 votes, and a majority of 23 electors, is counted out by fraud, and Hayes is counted in by fraud. The great crime of the country is about to be consummated—LIBERTY weeps—the NATION mourns!

THE LESSON OF LOUISIANA.

We give elsewhere the text of the decision of the electoral commission in the Louisiana case. As its technical terms and legal nicety of language may make it rather obscure to the mass of the people, we can pointedly illustrate the scope and meaning of the judgment by two familiar illustrations.

In 1868, certain Democrats of the Fourth ward in this city, under the inspiration of then Alderman and now Councilman William McMullen, returned 3,300 majority for Horatio Seymour for President from that ward—being more majority than the whole legal vote of the ward of all parties. The return was made with all the ceremony of law; the vote it purported to compute and certify was cast on the proper day and at the proper places as directed by law, and the duly qualified officers of the law attested the fraud. Had that fraudulent majority controlled the vote of Pennsylvania, and the electoral vote of Pennsylvania decided the election of Horatio Seymour over Ulysses S. Grant, the electoral commission teaches us that it would have been conclusive, and that the nation is powerless in all its legislative and judicial tribunals, to extricate itself from a gang of Fourth ward rounders and ballot-stuffers.

In 1872 Mr. Nicholas F. English was the president of the board of return judges in this city, and he added by a few strokes of the operon pen, some 4,000 to the Republican majority of this city. It was done when Pennsylvania was the pivotal State in the national contest of that year, and had such alteration of the returns controlled the vote of Pennsylvania, and the vote of Pennsylvania given Horace Greeley a majority of the electoral college instead of Ulysses S. Grant, the decision of the electoral commission declares that all the laws and all the tribunals and all the temples of justice in the land, could not have wrested victory from fraud, and stayed it from enthroning itself in the highest sanctuary of the nation.

Such is the true interpretation of the judgment of the electoral commission in the Louisiana case.—*Philadelphia Times.*

THE GAME LAWS.—Every session of Pennsylvania Legislature tinkers the game laws. The Perry county Democrat says: So far as these laws tend to the preservation of the game they might as well not be passed. We have never known a single one of them to be worthy the name, for they do not only protect, but rather lead to the destruction of game. An act that authorizes the hunting of squirrels in July is an invitation to gunners to open the season at that early date against all kinds of game. A law to be effective and useful must prohibit the killing of any species of game up to say the 1st of 15th of September and must punish all found hunting prior to that time. The hunting season for all kinds of game should commence on a certain and end on a certain day. Then there would be little or no game killed out of season. How many hunters after squirrels in July would permit a fine, fat, full-grown cock pheasant to peck his eyes out? A large majority of them would kill him and put in the plea of self-defence. We hope some Senator or Member of the House, possessed of good sense and knowledge of the habits and nature of the various species of game which should be protected against wanton destruction, will frame, present and have passed a bill embodying the provision above referred to. As to the total prohibition of all hunting for ten years, as some persons have petitioned for, we have only to say that such a law would be respected in no county in the State. It would prove a nullity and be repealed at the next session.—*Exchange.*

The annual election for managers of the Bellefonte, Aaronsburg and Youngmanstown Turnpike is coming fast. We do not know whether the two Great Powers will again marshall their forces and contend for the mastery, or not.

THE unparalelled success which has attended Mr. Daniel F. Beatty, as a manufacturer of pianos and organs, speaks highly for the superiority of his instruments. In these days of sharp competition and inventive genius, no mediocre productions can attain the celebrity to which his pianos and organs have reach. Send for catalogue of prices. Address Daniel F. Beatty, Washington, Warren County, N. J., U. S. A.

The Mifflinburgers expect to dedicate their new school building to day, Washington's birth day. Very appropriate time.

There was a sharp contest for constable of Penn township. Four candidates were in the field and each one doing his level best. The result was just as we had predicted, the fellow who got the most votes was elected.

The Mifflinburg *Telegraph* speaks in glowing terms of the Millheim Cornet Band and their performance in their town. Geo. W. Foote officiated as Chief Marshall and general manager of the occasion, and made a good job of it. George understands how to do it.

A free lecture will be delivered in the Town Hall, Millheim, on the evening of Washington's birthday, the 22nd inst., under the auspices of the order of O. U. A. M., who will appear in full regalia. The Band will be present. The public, and ladies especially, are cordially invited to attend.

FIRE AT TYLERSVILLE.—About noon Tuesday last, in Tylersville, the house of Michael Bressler was discovered to be on fire, and in about two hours it and co tents were in ashes—nothing was saved of any value. The fire originated from a stove-pipe running through the roof. Emanuel Bressler occupied the house; there was no insurance on his goods nor the house.—*Clinton Democrat.*

The *Clinton Democrat* says: Quite an excitement has been raised about the coal discovered in the west end of the valley. We saw coal which was brought from the mine by responsible parties, which purports to be hard coal. The vein thus far opened is on the farm of Daniel Moyer. Where the vein was first discovered it was about two and one-half feet thick, and the farther they shaft into the hill the thicker the vein and the better the quality of coal. To unveil the matter further, capital is required, which the owner and discoverer has not got. Should the matter be fully investigated and prove a success, it would revive the dull monotony of business in our valley and county to a very great extent. Beyond the shadow of a doubt the mountains and hills encircling Sugar Valley contain vast deposits of coal and other mineral, such as marble, zinc, and nickel. All that is wanting is men of wealth and energy to employ the capital necessary to uncover them.

CARD.—TO MY FRIENDS AND CUSTOMERS.

It is impossible for me to sell goods on credit and continue my business, for those to whom I give credit will not pay promptly—in many cases not at all. For this reason I can not keep my stock sufficiently full to meet the wants of cash customers. From this time forward I will sell for cash and produce only, excepting on orders from individuals or friends that pay promptly.

Thankful for past favors I hope to be able to serve all who may favor me with their patronage in the future, at prices that will compare favorably with any of the large business emporiums in Central Pennsylvania.

PROTECT YOUR BUILDINGS,
Which may be done with one-fourth the usual expense, by using our
PATENT
SLATE PAINT
(Fifteen Years Established.)
MIXED READY FOR USE.
Fire-proof, Water-proof, Durable, Economical and Ornamental.
A roof may be covered with a very cheap shingle, and by application of this Slate be made to last from 10 to 25 years. Old roofs can be patched and coated, looking much better and lasting longer than new shingles without the slate, for
One-third the Cost of Re-shingling.
The expense of slating new shingles is only about the cost of simply laying them. The paint is FIRE PROOF against sparks or flying embers, as may be easily tested by any one
IT STOPS EVERY LEAK,
and for tin or iron has no equal, as it expands by heat, contracts by cold, and NEVER CRACKS or scales. Roofs covered with Tar Sheathing Felt can be made water-tight at a small expense, and preserved for many years. This Slate Paint is
EXTREMELY CHEAP.
Two gallons will cover a hundred square feet of shingle roof, while on tin, iron, tarred matched boards, or any smooth surface, from two quarts to one gallon are required to 100 square feet of surface, and although the paint has a heavy body it is easily applied with a brush.
No Tar is used in this Composition, therefore it neither cracks in Winter, nor runs in Summer.
On decayed shingles, it fills up the holes and pores, and gives a new substantial roof that will last for years. CURLED OR WARPED shingles it brings to their places, and keeps them there. It fills up all holes in felt roofs, stops the leaks—and although a slow dryer, rain does not affect it a few hours after applying. As nearly all paints that are black contain TAR, be sure you obtain our genuine article, which (for shingle roofs) is
CHOCOLATE COLOR,
when first applied, changing in about a month to an uniform slate color, and is, all intents and purposes SLATE. On
TIN ROOFS
our red color is usually preferred, as one coat is equal to five of any ordinary paint. For
BRICK WALLS
OUR BRIGHT RED is the only reliable Slate Paint ever introduced that will effectually prevent dampness from penetrating and discoloring the plaster.
These paints are also largely used on outhouses and fences, or as a priming coat on fine buildings.
Our only colors are CHOCOLATE, RED, BRIGHT RED, and ORANGE.

It has been tested by thousands, many of them competent judges, and gives universal satisfaction to all.
The music is adapted to the human voice, ranging from the softest flute-like note to a volume of sound unsurpassed by any instrument.
This instrument has all the latest improvements, and every organ is fully warranted for six years. Beautiful oil polish, black walnut panelled cases, which will not CRACK or WARP, and forms, in addition to a splendid instrument of music, a beautiful piece of furniture.
This organ needs only to be seen to be appreciated, and is sold at extremely low figures for cash. Second-hand instruments taken in exchange.
