THE STRIKE.

The strike now in progress is the greatest rebellion against capital known in the history of our country.

We have been accustomed to periodical strikes in some one or other branch of industry as many different localities affecting the interests only of the employers of labor in such particular branch of production, but to-day we are confronted with a strike that has epedemic like spread over this country from the Atlantic to the Pacific, of such magnitude as to effect all industries and paralyze the business of the nation. Let us for a moment examine into the cause and effect of this war upon capital.

Summing up the whole it is a direct result of our gravitating towards specie resumption, a result similar to that experienced by Great Britain after the close of her foreign wars in returning to specie payments, so that in the world's history it is no new thing; but why is it that because of our present financial condition such must be recorded? Because of the outbreak of the inflated ideas of the war. Corparations and individuals doing business paid inflated prices for labor, workingmen lived in inflated style, had inflated ideas as to the necessaries of life, counting luxuries as necessaries, in fact inflated in all their ideas. A financial revolution came, all classes of property depreciated, the volume of business shrank, the profits on the productions of labor, coupled with the employment of capital diminished wonderfully, and as a consequent result the prices of labor had to be abated, expenses curtailed by reductions of clerical and laboring forces, rigid economy became a necessity in order to survive the depression.

The "live within your income" law is true as well of corporations and governments as it is of individuals and whoever fails to heed this law must sooner or later become engulphed in financial ruin.

Again, capital and labor are twin sisters; what is to the interest of one is beneficial to the other, when one suffers the other must feel the prejudical effects, and they cannot in a general way be at war with each other without mutual loss, nor can one make prolonged war upon the other successfully. But it seems to be a bitter lesson to learn that both must and should suffer equally, hence a body of men smarting under fancied wrongs have gathered to assert what they deem their rights and that at the cost of everything. A single instance we give in support of our view. Pennsylvania stock, par value 50, was up during inflated times to 55, is now worth about 28, whilst the dividen ds are reduced from 10 per cent to 6 per cent per annum. The holders of this stock are many who are dependent upon the dividends for their living. Now there is a 40 per cent shrinkage in income to the holder, making it necessary to reduce daily household expenses *pro rata*, or should they desire or be obliged to dispose of it, they can but realize little over one half of former value for their property. Is there not suffering here and all this in the face of the present reduction of wages and forced and rigid economy in all directions, and if the stockholder, who as such is part of the company, and by reason of the existence of such company, employment is given to the laboring class, must suffer why should not the employees suffer equally?

We know that a great many persons have no employment, that those that are employed must work at reduced rates and all have the sympathy of people generally, but this state of affairs is not owing to any improper or unjust policy of corporations or individuals doing business. An individual would be termed a fool, and people would lose their confidence generally, who doing business when the volume is greatly less, sales uncertain and profits small, would conduct it with the same expense as though the condition of trade was the reverse. He would be on the road to bankruptcy and what applies to individuals is applicable to combinations of individuals doing business as a company.

Again a man has a perfect right to strike, to quit work, if wages are not what he thinks they should be, but he has no right to prevent his neighbor from going to work in his place if he so chose to do at the prices paid. This is contrary to the freedom of our county and its free laws. He never has a right in this land to make laws for his neighbor. If he enjoyed such right we would have a worse despotism than that of the monarchies of Europe.

But this is what the strikers are doing: there are plenty of men willing to step into their places but are prevented from doing so by those who refuse to work, hence traffic is interrupted on the great public highway and business in all its ramifications is clogged throughout the land. These men have arrayed themselves against the laws of society, they seek to overthrow the laws of the land. Riot, bloodshed, plunder and the wholesole destruction of property have followed in their train. This will not be tolerated by the educated masses and our civilization will not allow such outbreaks. In what way do the strikers expect that this move will benefit them? Will enforced idleness and the subversion of the laws of the country make money flow into their pockets or give them the necessaries of life in support of themselves and families? Will it bring joy into the household, peace and prosperity into the country? It will not. Its effect will be to further depress business, to lessen demand for labor and to throw out of employment the majority of those that participated in the crowning wrongs of the insurrection. The strong arm of the law must and will prevail. The state of affairs can only be momentary. Let us have peace.

The excursion on the 15th promises to be a grand affair. From all points we hear that hundreds are going. It will be a wholesale visit by Centre to Union.

SPRING MILLS ITEMS.

Samuel Hoover caught an eel in Penns Creek, that weighed 6 pounds—a whopper.

The picnic that was to be held on the 26th of July was postponed until the 9th of August.

The citizens are preparing a suitable place near town to hold picnics.

Last week 4 men run a track to Col. Moore's headquarters and back, a distance of 30 miles in 4 hours, for which they reveived a V.

The rain on Friday last raised the water in Penns Creek 4 feet in 20 minutes, causing a great deal of damage.

YONEY.

REBERSBURG FRAGMENTS.

In course of time our town will be, no doubt, inhabited by intelligent people, as it now boasts of having representatives at eight different schools, viz; Kutztown, Bloomsburg, Selinsgrove, New Berlin, Penn Hall, Centre Hall, Milesburg and Franklin. How is this for high? What village can beat it?

On Friday last, Daniel Strayer of this town, while engaged in cutting oats, some way or other, fell in his scythe and had his arm cut very badly at the elbow. He is under the surgical care of Dr. Hillbish and is fast recruiting.

Brush Valley had an abundance of rain and storm last week causing considerable damage by washing terrible ditches into fields and destroying the oats.

ANON.

Mr. J. B. Kreamer of Centre Mills raised a turnip in his garden, which measures 19 inches in circumference. Hard to beat in this season.

By invitation we visited our friend, Dr. E. J. Deshler, at Aaronsburg, the other day, to see a portrait of Ellanora, the late daughter of the Doctor, and Mrs. M. J. Deshler, whose recent death inflicted such deep, and painful wounds upon every member of the family.

The portrait is a full size oil painting of the lamented Ellanora, executed in good artistic style, by Mr. J. Wesley Cornelius, of Lewisburg.

We were born and raised in Munich, which, as the home of German arts, is called the German Rome, and have been familiar with the best productions of the German masters from early boyhood, and in our humble judgement we pronounce this picture a very good one indeed.

Mr. Cornelius has a bright career before him as an artist, and deserves to be liberally patronized. May his talent and genius be abundantly successful. B.

L. C. & S. C. R. R. EXCURSION.

There will be a Harvest Home Picnic Excursion from Centre county by L. C. & S. C. R. R., to a grove near Lewisburg, Union county and return, on August 15th, 1877. One train will leave Duncan Station at 8.30, A. M., and another train will leave Coburn Station at the same hour, arriving at the Picnic ground at about 10.30, A. M. Trains will leave on the return at 4.30, P. M., reaching Coburn and Duncan Stations in time for the excursionists from a distance, to reach home before night. The Cornet Bands of Millheim, Farmers Mills, Centre Hall and Rebersburg will be invited to accompany this Excursion. The price of tickets for the round trip for 2 persons or more will be 50 cents each, for single tickets 65 cents, and for children under 12 years of age the half. The tickets can be obtained until the evening of the 8th of August at the following places: Haines Twp., Spigelmyer & Bro., R. C. Deihl, I. D. Boyer and M. M. TURNPIKE RIOT.

The toll gate at the east end of the Narrows between this and Union county, on the Youngmanstown Aaronsburg and Old Fort Turnpike was the scene of a serious riot last week. The toll house is occupied by a Mr. Holloway, who it appears was permitted to remain one month from April 1st, last, conditionally, or in other words if satisfactory to the company for that period could remain longer, if not to quit then. Not proving satisfactory it was resolved that a change should be made.

Mr. Holloway refused to move out of the house and thus the matter stood until last week a Mr. Yearick, the company's new man, was moved down.

He was not permitted to move into the gate house, when another place was secured for him but also was frightened off from moving into that. The company secured the service of some fifteen men and went down on Thursday to eject the tenant and got possession of the house.

Mr. Holloway had quite a number of his friends there helping him to guard his place for several days, but it so happened that at the hour these men came there that there were but some four men on guard.

The party inside was armed with guns, revolvers and clubs.

Admittance being refused the company's men forced an entrance, and then took place a terrible fight, the parties clubbing each other, but the ejecting party proved too strong and cleared the premises, removing the goods out of the house and placed in the new man. Revolvers were flourished freely and one of the Turnpike men was wounded in the head by a pistol shot, an accidental discharge of a weapon by one of his own party. It appears as a result of the vigorous blows administered by the combatants that a number were considerably bruised.

Mr. Holloway has brought suit, we understand, against the parties.

The *Reporter* thinks our Associate went east just to drink lager. Just wait Fred until Old Ben returns and he will make your fur fly for such a low insinuation. That's what he will.

A BOX of GLENN'S SULPHUR SOAP, which contains three cakes and costs only sixty cents, is sufficient to supply material for at least twenty Sulphur Baths which would eradicate a whole catalogue of rheumatic and cutaneous maladies. Sold by all Druggists.

Hill's Hair & whisker Dye, black or brown, 50 cts. 4w

There is not much to note in the progress of the war between Russia, and Turkey and not much has been recorded of the operations, the strike taking all precedence in point of news.

The Turks have suffered defeats of late and their territory is swarming with their foes who have their faces set "On to Constantinople."

NEW ARRIVAL.—J. B. Ford, formerly from Centre Hall has opened a Merchant Tailor Establishment in this town, on the second floor of Snook's Building, where he is now prepared, to take any order in the tailor line and execute his work in a satisfactory way. He is a first class cutter and a skillful mechanic and fully deserves the patronage of the public. Don't forget to give him a fair trial and be convinced of above stated facts.

SAD ACCIDENT.—Mr. J. N. VanOrmer, a citizen of this town, who has been absent for some time met with a serious accident. While he was crossing the railroad bridge at New Brighton, Beaver Co., the other day he happened to fall with one leg between the ties, by which he split his knee-cap and broke the bone below the knee. The attending physician thinks the case as not dangerous, yet it will keep Mr. VanOrmer in bed for six weeks, after which time he expects to be able to return home.

SPRING MILLS, July 30th 1877.

Dear Editor:—It is a scource of great pleasure to me to learn that full and ample arrangements have been concluded to convey our people to Lewisburg on August 15th to join with the people of Union County in celebrating their annual Harvest Home exercises. Again it is gratifying to me to know that the people of Union County take great interest and pleasure in our coming. They extended a cordial invitation to our people on the 4th inst., and since, to be present on this occasion. In view of the celebration and preparations for our people to join, what do the people of this county intend to do? Do they purpose to ignore the invitation, to forego the festivities of this day? I trust not and finally hope that the subsequent accounts of the joyous event will prove that our people manifested great interest, were present in large numbers and that the celebration as a joint affair was a grand success.

They joined us in celebrating the Fourth and by reason of their uniting with us, it was a grand success; we therefore owe it to them as well as to ourselves to retugn the compliment. It is a fact that our agricultural population are not much given to celebrate holidays or festive events, therefore we say, can not one day be given to pleasure? We have too few days of recreation. It is a fitting and appropriate event for the season, the period of harvesting being over, our barns are well filled, evidence of a plenteous harvest and to Him from whom preceeds all that is for the welfare of mankind let all the praise be ascribed.
