Digest of Election Laws.

Polls open at 7 A. M., and close at 7 P. M.

WHO CAN VOTE.

Every male citizen, twenty-one years of age, possessing the following qualifications, shall be entitled to vote at all elections:

1. He shall have been a citizen of the United States one month.

2. He shall have resided in the State one year; or, if having previously been a qualified elector or native born citizen thereof, and shall have removed therefrom and returned, then he shall have resided there in six months immediately preceding the election.

3. He shall have resided in the district where he intends to vote two months immediately preceding the election, instead of ten days, as formerly.

4. If twenty-one years of age, or upward, he shall have paid, within two years, a State or county tax, which shall have been assessed at least two months previous to the election, and paid at least one month previous to the same.

5. Foreign born citizens must have been naturalized at least one month before the election, and must conform to the requirements contained in section 4, preceding.

The election will be held on "the Tuesday next following the first Monday of November," being this year the 6th day of the month.

Saturday, October 6th, is the last day for securing naturalization papers.

Saturday, October 6th, is the last day on which taxes can be paid in legal time to vote.

The above date should be carefully remembered and acted on by all voters.

OHIO SPEAKS.

The vastness of the result of the election in the Buckeye State is a surprise to the successful, as well as to the defeated party. Ohio is the home of President Hayes. She had twice honored him with the highest office in her gift, and only a year ago she gave him her electoral vote by a majority of 7507. Mr. Hayes as President, appreciated, and by all the means in his power, rewarded the confidence his state had shown him. More Federal offices were given to citizens of Ohio than to those of any other state in the Union. If any one state had reason to be satisfied with the Administration of President Hayes, that state ought to have been Ohio. The "favorite son" was extremely anxious to have the endorsement of the state which had done so much for him and for whi ch he had done so much in return, and lo! she repudiates him with a majority so overwhelming that the meaning of the lesson can not possibly be mistaken by any person or party. 30,000 Democratic majority in 1877, against 7507 Republican majority just a year ago, is a result that could not have been brought about by the workings of ordinary political causes. True, side issues and minor influence may have aided in the result to some extent—just enough perhaps to give Administration journals a slight pretext to explain away the force of the lesson—but the one issue that was clearly, unmistakably defined, was whether the work of the Electoral Commission should be sustained. It is *not* sustained, but repudiated, spurned by the potent voice of the people rising in their majesty to rebuke a good wrong. Pennsylvania, New York, New Jersey and other states will follow the wake of Ohio until the verdict against the Great Fraud shall have become universal.

"Truth crushed to earth will rise again."

FIRST DAY OF CONGRESS.

RANDALL ELECTED SPEAKER.

HE MAKES A SPEECH FOR FURTHER RETRENCHMENT AND REFORM.

WASHINGTON, October 15.—The republican members of the house of representatives in caucus this morning nominated Mr. Garfield, of Ohio, for speaker; Mr. Ruske, ex-member from Wisconsin, for clerk, and Mr. Ordway, of New Hampshire, for sergeant-at-arms; Mr. Harris, of Tennessee, for doorkeeper, and Mr. Sherwood, of Michigan, for postmaster.

In the senate the oath of office was administered to Messrs. Stanley Matthews, of Ohio, elected United States senator in place of John Sherman, resigned; J. Donald Cameron, elected United States senator from Pennsylvania, in place of Simon Cameron, resigned; D. H. Armstrong, appointed United States senator from Missouri, vice L. V. Boggy, deceased.

The usual committee was appointed to meet a committee of the house of representatives and wait on Mr. Hayes, to notify him that a quorum of the two houses of congress had assembled. The senate then at 12:25 adjourned until 12 o'clock to-morrow. The only senators absent were Messrs. Morton (Ind.), M'Millan (Minn.) and Sharon (Nev.)

The opening of the session in the house was witnessed by a very large assemblage, the galleries being crowded to their utmost capacity and the corridors being for two hours previously almost impassable. At twelve o'clock the clerk of the last house (Mr. Adams) called the house to order and read the proclamation convening congress and proceeded to call the roll of members by states, beginning with the state of Maine.

After some contesting the clerk ruled that the nomination of speaker was in order. Mr. Randall was elected, receiving 143 votes to 132 for Garfield.

Mr. Randall on taking the chair thanked the house for calling him to that exalted position. He praised the efforts of the last house at retrenchment and reform, and thought that a greater reduction can yet be made without impairing the efficiency of the administration. He also said since the adjournment and administration has been inducted into office which is obeyed as the actual government regardless of the grave events which marked its birth, and this house, animated by a spirit of true patriotism, desiring first, public tranquility under the law, will frankly approve any sincere and permanent policy looking to complete pacification by constitutional methods, and to the consequent promotion of the general welfare, but it should be held our sacred duty to provide legislation which will render impossible a repetition of the wrongs which have occurred.

The oath was administered to Speaker Randall by Mr. Kelley, who in turn administered it to the members—the southerners taking what is known as the modified oath.

Objections were made to the swearing in of Messrs. Cain and Rainey, of South Carolina, Darrall, Elam and Robertson, of Louisiana, and H. Pacheco, of California, and those gentlemen stood aside.

Mr. Adams was then elected clerk, Mr. Thompson sergeant-at-arms, Mr. Polk, doorkeeper, Mr. Stewart postmaster, and Rev. Dr. Poisel chaplain, and they were sworn in—Messrs. Polk and Stewart taking the modified oath.

THE LAW OF VAGRANCY.—The law requires all persons going from door to door or placing themselves in streets, highways or other roads to beg or gather alms, and all persons wandering abroad and begging who have no fixed place of residence in the township, ward or borough to be arrested as vagrants by the constable or other officer of the peace, upon notice to him by any inhabitant of the township or in his own view. It also provides for a commitment of such vagrants for not less than thirty days, nor more than six months with liability to labor under orders of the directors of the poor.

MACKEY ON THE SITUATION.

Hon. L. A. Mackey was interviewed a few days since by a Patriot Reporter, and among other things, spoke as follows of the campaign in this state:

In reference to the result of the November election in Pennsylvania he has no doubt of the success of the Democratic ticket, and is especially confident of the election of Col. A. C. Noyes for State Treasurer, who he thinks will poll 5,000 votes ahead of his ticket, in the interior of the State, where he is known as a gentleman of the highest integrity, entirely competent, and a true specimen of New Hampshire Puritan fidelity crystalized into Pennsylvania honesty. He says the idea of running a Philadelphia tailor as the representative of the labor sentiment of the State against the "canthook," "square timber" candidate of the West Branch is a practical joke on common sense, and that Mr. Wright will find that the workingmen of Pennsylvania will recognize their true friend and representative.

President Hayes has appointed Gen. Harlan, of Kentuckey, Supreme Judge of the United States, to fill the vacancy caused by the election of Judge Davis to the U. S. Senate, from Illinois. The appointment is a good one.

A WORD TO THE UNEMPLOYED.

Our attention has been called to a new cooking utensil, recently invented, which makes baking a pleasure, instead of a dreaded necessity; the inventor of which has conferred an everlasting blessing upon every housekeeper. We refer to the Patent Centennial Cake and Bread Pan, with which, by simply raising a hook, you can remove the sides of the pan from the cake instantly, without breaking or injuring it in the least, thus enabling you to ice and frost it while warm. To remove the tube in the center, insert a knife in the slot in the top of the tube, and simply give it a half turn, and it will drop out. It is also provided with a slide on the bottom, so that, when you remove the tube, you can close the hole, making a pan with plain bottom, for baking jelly and plain cakes, pudding, bread, etc., *thus practically giving you two pans for the price of one.*

The Centennial Cake Pan is highly recommended by the ladies as being the best and most convenient pan ever introduced. They are made of Russia iron, *are more durable, and will bake your cakes more evenly and a much nicer brown than you can bake them in the old-fashioned tin cake pans.* These goods are sold exclusively through agents to families, and every housekeeper should by all means have them. A splendid opportunity is offered to some reliable lady or gentleman canvasser of this county to secure the agency for a pleasant and profitable business. For terms, territory, etc., write to L. E. Brown & Co., Nos. 214 and 216 Elm Street, Cincinnati, Ohio.

A good domestic Sulphur bath can be instantly prepared by taking a cake of GLENN'S SULPHUR SOAP into the bath tub. Such an expedient will, to use a slang phrase, "knock the spots off" any victim of cutaneous blemishes. Sold by all Druggists 25 cents.

Hill's Hair & Whisker Dye, black or brown, 50 cts. 4w.

From the many flattering testimonials we have read, paying tribute to the Beatty Piano, and Beatty's Golden Tongue Organs, we are constrained to recommend them to any persons contemplating purchasing an instrument of either description. Address the manufacturer and proprietor, Daniel F. Beatty, Washington, N. J., U. S. A., for any information respecting the same. See advertisement.

DR. KEYS' LECTURE.

The lecture of Rev. Dr. Keys, the other Tuesday night, was a positive success, both as regards the lecture itself as well as the attendance.

The subject chosen, "The grumbler," may seem to be rather a barren one to such as did not hear the lecture, but to such that did it proved to be a subject full of practical thought and stern lessons. Never before did the grumbler appear so *grumbling*, so ungrateful, so uncharitable, so intolerant and so insufferable, as he did on that evening after Dr. Keys had portrayed him in his true colors. In fact but few may have known before they heard the Doctor, into what a deformed and pitiable object the "image of God" may transform himself, by the seemingly small but too common sin of grumbling.

Dr. Keys has a very extensive and varied knowledge of men and things, and seems to read and understand human nature thoroughly. He also has a happy and powerful command of language, and his flights of eloquence are sometimes truly sublime. He kept the attention of the audience riveted from first to last and we have the first one yet to hear who was not pleased and benefited.

Lectures, as a means of public instruction, are deservedly popular. They belong to an advanced state of civilization and should be more frequent. As a community we should strive for a higher intellectual life, instead of being satisfied to move in the old beaten tracks of years ago. The coming winter will have but little manual labor for many of us: Let us use our time for our moral and mental advancement.

SPRING MILLS ITEMS.

Everybody is wanted at the Spring Mills Photograph Gallery.

The Post Office has been removed to Hicks' Store, where people will find obliging clerks to deliver their mail matter.

Bell's New Store will be occupied this week with a Millinery and Fancy Goods Store.

I. J. Grenoble is about to erect a very handsome residence this fall, on East Penn Street.

And still they come—another coal yard has been established, J. D. Long, proprietor, who will also keep on hand all kinds of lumber. Just what is needed.

This place is assuming quite a business aspect. The time is not far distant when Spring Mills will rank the second town of the county.

YONEY.

(Which will be the third?—Ed. Journal.)

WILLIAMSPORT BOOTS.—S. W. Snook, of Millheim, Isaac D. Boyer, of Aaronsburg and W. F. Baily, of Rebersburg, are laying in a stock of those well known and reliable goods. They have a wide reputation, are *stamped on the bottom* and *warranted* to give satisfaction. None genuine unless stamped "J. E. Dayton & Co." If a *reliable* article is desired purchasers can feel safe in purchasing these goods. There is no economy, satisfaction or comfort in "cheap" articles.

The Journal Book Store is looming up. We are filling it—a little slowly perhaps, for we are poor—with a well selected stock of Books, Stationery and the thousand and one other articles that are kept in book stores generally. Anything called for and not on hand, will be furnished in a few days. We have School Books, Family Bibles, Miscellaneous Books, Day and S. S. Cards, Chromos, Blank Deeds, Mortgages and Bonds, Summonses, etc., Envelopes of every kind and price. Paper of all grades. Motto Frames with glass and mountings, —only 40 cents, Splints of all colors, from 2 up to 15 cents a pack.

OUR SCHOOLS.

The Winter term of our public schools opens next Monday, and it is a proper time now to think of how we can make them more efficient and useful, as the institutions where our children get their elementary education.

We can not think of the fact but with regret that our schools are very deficient, both as regards the average attendance and the standard of proficiency in the branches taught. Most of our neighboring schools are in advance of us, in education and school matters; and unless we make up our minds to manifest more interest in the cause, it will continue to be so, to our discredit and reproach. We are taxed year after year to build school houses and pay teachers, but we feel too little concern that our children should reap the full benefits of a wise and benevolent system, which by the laws of the land we are all equally bound to support, whether we do so cheerfully or grudgingly.

If what we have said be gainsaid, we ask in reply, where are our young men, or young ladies either, who have a good knowledge of History, of Geography, Grammar or Arrithmatic, to say nothing of other branches, such as, Rhetoric, Physiology, or Natural Science?

But we do not write in a spirit of fault-finding. Our desire is to do some good. Let us arise from our lethargy, and resolve that our schools shall strive for an advanced position—shall more nearly come up to the requirements of the present, instead of being content to move in the old and worn ruts of several decades ago.

Public sentiment ought to require our School Board to maintain a strict and rigid supervison over the teachers and schools. While every just complain should be heard and redressed, all petty fault-finding should be discountenanced and dismissed.

As a community we should do all we can to encourage and aid our teachers in their arduous labors. This we can do most effectually

1. By teaching our children to love and respect their teachers. If a teacher enjoys the *love* of his or her pupils, his task is made comparatively light; but if parents instil a dislike or hatred against the teachers into the minds of children, all the *moral* good a teacher could otherwise do such children, is almost wholly destroyed.

2. We should send them regularly. It is a wise provision of the law that schools are closed on Saturdays. These, with the hours between school ought to be enough for work and play. If we all had a well-arranged system in the division of our time, we could send our children to school five days in the week regularly, (excepting extreme cases,) especially in the winter season when work is not very pressing.

3. We should visit the school room, occasionally. It will have a happy effect upon the teacher, your children and yourself. Try it and see.

4. We should not suffer our children to be out until a late hour at night, loafing in stores and shops, or making night hideous with their shouts and yells. We should require them to be at home and divide their time between studies and innocent plays.

We may recur to the subject again.

The two Republican candidates on the state ticket, Passmore and Hart, attended the Centre County Fair.

Read the advertisement of Motz & Snook, in the German department. They propose to buy all kinds of grain at the *highest*, and sell coal, plaster and salt at the lowest prices.

If any body can ask more delightful weather than we have had for some time, he must indeed be hard to suit in that line of goods, and an ungrateful sinner besides.

Add the name of Hon. J. P. Wickersham to the list of Republican candidates for Governor. This swells the list to some eighteen with half the state to hear from.

If the R. R. Co. propose to put seats into the ticket office at Coburn Station, we suggest that this would be a good time to do it. Lumber and labor are very cheap.

Motz & Snook have shipped the first full car load of wheat, rye, oats, flour and corn meal—altogether about twelve tons—from Coburn Station. It went to Orange, N. J. near New York city.

COMMENDABLE. — On Monday night a number of our young men dug out entirely the cellar for the new house of Miller Brothers, free gratis. The neighborly act deserves all praise.

George Miller, of Brush Valley, brought us a sack of flour, last week, *what is flour.* George has a good, practical miller, in the person of Andrew Moyer, and they make flour fit for a king. They deserve to be largely patronized.

Gen. Grant, and the *Lewisburg Chronicle* thinks that "Schurz is a great humbug." Better send *marked copy* to his Excellency, Ruddy Hayes, that Schurz may get his walking paper at once. There are plenty of *small* humbugs in office—the country could spare the great.

Luther Ruhl, son of D. A. Ruhl, is here on a visit from Illinois. The west seems to have a very good effect on Luther. He has developed into a full sized man, has an easy and fluent conversation and is pleasant and smiling as a May morning. *He used to be so awful cross.*

Kamp, the popular shoe man of Lock Haven, seems determined to defy the world as far as good work and low prices are concerned. Just read his advertisement and study his prices and you must admit that Kamp is lower than the lowest; besides he sells you *good work* as we know by experience. Patronize Kamp.

J. Newman, Jr., is determined not to be diverted from his legitimate business by any idle rumors about his getting married. He goes right straight along selling the best and cheapest Clothing ever brought to Centre county. Go to the Eagle Clothing Hall, Bellefonte, and be convinced that we say but the square truth.

Dr. Neff, of Centre Hall, had his arm broken and wrist disjointed the other Thursday night while out attending patients. The night was very dark and the Doctor's horse took fright at some object, ran off, upsetting the sulkey and throwing the Doctor so forcibly to the ground as to break his arm. Upon upsetting the horse became detached from the sulkey.

Dennis Lose is never altogether happy unless he is building. He has built no less than four houses in and about Millheim, one in Michigan, and is now building an addition to his dwelling large enough to be called a house. Dennis deserves to be elected President of the Building Association, and we privately suggest to our friend Walter that he resign to make place for a *live* man like Dennis.

We publish to-day the first half of the able address delivered by Maj. R. H. Forster, at the Veteran Club Reunion, held at Howard, on the 22nd ult. Major Forster enjoyed the confidence and love of his men in an exceptional degree, and at this distant day many hearts of the famous 148th, especially of Co. A,—beat warmly for him. The address embraces a history of the "148th," and is valuable as a leaf from history. Preserve it, and the one to follow next week, which will contain the conclusion of the address.

There is—on exhibition in Alexander's Store in Millheim, a beet that beats all beets we ever heard of. 32 inches in circumference, nearly ½ as much in diameter, and weighs 17½ pounds. It was raised (under the auspices of Heaven) by Mrs. Mattie Meyer, wife of Prof. Henry Meyer of Rebersburg. All honor to the lady who knows something *practical* about raising vegetables. *She* has no occasion to go a-begging for "garden things" among her neighbors.
