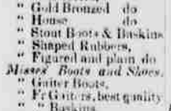
SIR HENRY.



THIS THOROUGH BRED horse will commence his season, April 1st, 1847, and may be found at the Stable of the Proprietors, West Milton, until Monday, the second of May. After that time until July 31st he will stand each week in

METCALF'S BARN, Middlebury,
At the Stable of S. Ward, Mond'ys, Tuesd'ys, and Wednesdays.
At the Stable of the Frank in House, Thursdays, Fridays and Saturdays.

Leap $8. Season $10. Insurance agreed on.
Insurance will be claimed on mares disposed of before the time of foaling.

PEDIGREE AND DESCRIPTION.

SIR HENRY was bred by James Battagate, Esq., of Long Island,—the breeder of Medley, Malkin, Gipsey and other Horses, distinguished in the annals of the Turf. He has taken many premiums, after closest competition, thus any other American Horse; having received, besides numerous century premiums, the *first* premium for the best thoroughbred, of the N. Y. State Agricultural Fair, several different years, the last at Auburn, Sept. 17, 1846, over twenty of the competitors, admitted to have been the finest show of horses ever witnessed, even in New York. He is of sixteen hands high, and very muscular, weighs seven hundred and a half in ordinary condition, is a bright chestnut color, was never in the hamess or on the Turf, is remarkably sure and gentle, perfectly sound and healthy, and to the eye of one, He was got by Henry (the competitor at Ann Arbor in the great race on Long Island) he by Archibald, he by imported Diomed.—SIR HENRY'S dam—the dam of Prospect, Sir Lovel and Lt. Infantry—was got by imported Lt. Infantry. A son of Eclipse, Eagle, Gracian, imp. old Messenger, the sire of the dams of Ann Eliza, and celebrated sire of mares, Gracian Bashaw (g. g. gr. dam was Tara Barrett, said to be the sire of the original Morgan.) Imported Lt. Infantry was bred by Richard Gratton, Esq., of Clandavin in Surrey, was got by the Earl of Bagot; his dam by Feather; gr. dam Fanny Cadine.

The above pedigree may be verified to anyone who desires, by reference to the Eng. Stud book, or Am. Turf Register, both in possession of the proprietors.

SIR HENRY's colts are unrivalled for speed, bottom, and style of action, and command higher prices in Western, in the markets of Troy, Albany and New York, than those of any other horse. The dam of the colt of Sir Henry sold on the March 30 at the American Agricultorist, owned by A. B. Allen, Esq., who is well acquainted with both the horse and his stock.

"SIR HENRY.—We have received a circular from Messrs. Lucius Sanderson & Co., of West Milton, Vt., informing us that this fine, well bred horse, will stand at Burlington the ensuing season. Sir Henry has taken several premiums at the annual Shows of the N. Y. State Ag. Soc. Celebrated as the Vermont Horses already are, we think, if duly patronized, this superb horse will leave a stock behind, which will add still more to their reputation as breeders."

Mr. Hodge, of Cambridge, N. Y. an experienced and obliging groom, who has taken care of Sir Henry for several years, will have charge of him this Season.

Good pasturage will be provided for mares from a distance, but the proprietors will not be responsible for accidents or escapes.

THE MOTHER'S RELIEF,
OR FEMALE REGULATOR.

THIS valuable and highly appreciated Medicine was obtained from an Indian Doctress, in the Valley of the Columbia River, Oregon, and since its introduction into civilized life, has been of more benefit to the human race than all other medicines ever used. It will almost do away the curse entailed upon our mothers from Eve. It will effect a quick, easy delivery that no other medicine will, except when the red weed of the forest use, that is compound with mixture. The patient will get about in half of the time they do treated in the old way.

It is a sure preventative of Broken Breasts and childbed fever, and the proprietor is willing to WARRANT a cure to all who may have occasion for its use. Those who have been imposed upon by Quacks and Quack nostrums, and have the unusual fear of a second imposition, can be referred to some of the most respectable families in the town.

All orders from a distance, post paid, will be attended to upon the shortest notice.

For sale Wholesale and Retail by the Proprietor, Dr. WHITCHER, and by Harrington & Brother, Agents.

Sands' Sarsaparilla.

FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD OR HABIT OF THE SYSTEM, VIZ.:

Scrofula, or king's evil, Rheumatism, obstinate cutaneous eruptions, pimples, or pustules on the face, blotches, tetter, chronic sore eyes, ring worm or tetter, scald head, enlargement and pain of the bones and joints, stubborn ulcers, syphilitic complaints, sciatica, or lumbago; and diseases arising from an injudicious use of mercury, ascites, or dropsy, exposure or imprudence in life; also, chronic constitutional disorders, &c.

In this preparation are strongly concentrated all the Medicinal properties of Sarsparilla, combined with the most efficacious aids, the most salutary productions, the most potent simples of the vegetable kingdom; and its unprecedented success in the restoration to health of those who had long pined under the most distressing chronic maladies, has given it an exalted character, furnishing as it does evidence of its own intrinsic value.

The following is an extract from a letter received from Rev. William Galusha:

BURLINGTON, VT., Oct 22d, 1845.

MESSRS. SANDS: I have been afflicted with a severe pain in my side, occasioned by a diseased liver, for the last twenty years; suffering at times what language cannot convey, but since taking your Sarsaparilla I have been greatly relieved, so much so that I have been able to attend to my business, and preach occasionally for the last fifteen months. I wholly discarded all other medicine, and thoroughly tried the Sarsaparilla, which I can recommend in truth and sincerity to all those who are in any way afflicted with any species of scrofulous complaints. There have been some remarkable cures effected by its use in this vicinity. Mrs. I. Shaw, by the use of six bottles, was restored to better health than she had before enjoyed for ten years, and Mrs. W. Stevens, who had been severely afflicted with Erysipelas, was entirely cured by the use of a few bottles.

Yours, truly, WM. GALUSHA.

The following testimonial from the Agent to the value of the Sarsaparilla in a case of leprosy will be read with interest by all similarly afflicted:

HAVAN, Pike Co. Ohio, Sep. 7, 1846.

Messrs A. B. & D. Sands:—Gents—A man near here used six bottles of your valuable Sarsaparilla for the leprosy, and has received more benefit from it than all other remedies combined for six years past. It restored a hand, leg and foot from a situation that no person would have known they belonged to a human body, as all appeared to be one mass of putrifying sore. His hand was other diseased parts so far restored to their natural size and feeling, as to be entirely healed over, and his leprosy cured. He intends using a few more bottles to permanently establish his health.

Yours, most respectfully, G. W. RAYNOLDS.

For further particulars, and conclusive evidence of its superior value and efficacy, see pamphlets, which may be obtained of Agents gratis.

Prepared and sold by A. B. & D. SANDS, Druggists, 100 Fulton-st. Corner of William, New-York.

Sold also by PECK & SPEAR, Burlington; R. F. Goss, Waterbury; S. K. Collins, Montpelier; L. L. Dutton 2d, Albany; M. K. Parr & Co., Plattsburgh, and by Druggists generally throughout the United States.

Price $1 per bottle. Six bottles for $5.

THE BANNING LACE.

DR. Smith, most respectfully informs the public that he has purchased of Dr. Emery the right to manufacture and sell Dr. Banning's highly celebrated and invaluable

PATENT LACE,

which for surpasses every thing of the kind in market. And knowing that the article which has been used in this section has been of an inferior quality, causing much pain, he would inform the good people that he has made arrangements for a supply from the original factory of Dr. Banning, that every Lace may be perfect and every patient benefitted by it. The Doctor therefore invites all who need anything of the kind, to give him a call.

Let the invalid consider that the Lace is for the relief and cure of the following diseases, which come of a displacement or weakness of the organs of the body, viz.:

Weakness of the breast shortness of breath; cough and spitting of blood palpitation of the heart; weakness of the side and stomach dyspepsia; costiveness and piles pain in the back with curvature, bearing down with weakness of the limbs and lower extremities and dropping of the body especially in young misses during first.

The above and other analogous affections, have hitherto baffled all constitutional treatment but since they have been viewed as "Mechanical" and have been treated by the "Lace" they have be en easily cured and we can now see a host of cases seemingly well or half well, or confirmed with real disease, requiring medicine, who cannot enjoy life or be cured upon common principles, yet they say "I wish to tell you I become thinner in flesh is falling down," and by binding them on, their pains vanish, and efficacy to internal remedies is thereby given.

☞ On an examination of a Committee of eminent medical men, appointed by the American Institute, a Premium Diploma was awarded to this instrument. 27tf

N. B. Those applied by the doctor, he *warrants* to *fit* and to *benefit* the patient; but the same may be had at Burlington, who also has an assortment of *Jewett's Medicine*, at the lowest cash prices.

Doct. J. Smith

MAY be consulted at his residence on Cherry street, in the house west of the Congregational Church, at any time, on every but professionally on Sundays, on the *false constitution* and *the consequences* of certain knaveries of the *Lancet* and *Calomel*, to the contrary notwithstanding, and he assures his friends and patrons to understand, that he is not in the least disappointed or discouraged on account of any *opposition* or even *persecution* he may receive at the hands of old school Physicians—for they know their *craft* is in danger. It is not strange that some find the thousand and one well known Lectures, latterly given and Medicinal medicines, which he has sold for less than one years—curing multitudes of cases given over by the Medical healers, as wholly *incurable* by all their "*infernal*" *stuff* excite their *fears* and call forth their *bitterest indignation*. But let the "gulled pale women" "True, they have, by calling to their aid *old spinsters, old educational prejudices, and prejudices*, excited and kept up in the minds of the people by the low cunning and knavery of the Lancet, some *three or four fewer* patients from him, in so many years, with no *other apparent* effect, than to hurry them to their graves; but in no *case*, have they been able to show the *superiority* of their treatment, by *curing* a patient which he could not.

To prove beyond a controversy and to the entire satisfaction of the Public, that what he has said above is true, he refers the following testimony of H. E. Bridell, Esq., which will not be doubted by any who know him, as a specimen of hundreds more which he might adduce, were it necessary.

CERTIFICATE.

"This may certify that Doct. Smith, of Burlington Vt., has made a very important *cure* upon one of the members of my family—being an *Ulcer* involving the whole ankle joint and nearly the whole foot, which had baffled the skill of several eminent Physicians for about four years, during which time the *Ulcer* continued to increase and spread. I am happy to say that, to my opinion the *cure* would be found to be a Physician of Strength. H. E. BRIDELL."

Physician—T. ELDJUTSON, M. D., F. R. S.

Actuary—W. S. B. WOODHOUSE, Esq. F. R. A. S.

Secretary—F. P. CAMROUX, Esq.

THIS INSTITUTION embraces important and substantial advantages with respect to life assurance and deferred annuities. The assured has, on all occasions, the power to borrow, without expense or formalities, of the policy, two-thirds of the premiums paid; thus the option of joining bonus, and the conversion of his interests to meet other contingencies occur.

Assurances for terms of years at the lowest possible rates.

Persons assured for life, can, *at once*, borrow half amount of annual premium for five successive years, on their own note and deposit of policy.

PART OF THE CAPITAL IS PERMANENTLY INVESTED in the United States, in the names or trust of the Local Directors. Assurances available always to the assured in case of disputes claims against any such arrest or otherwise.

The payment of premiums, half-yearly or quarterly, at a trifling advance upon the annual rate.

No charge for stamp duty.

Thirty days allowed after each payment of premium before date, without forfeiture of policy.

Travelling leave extensive and liberal, and extra premiums on the most moderate scale.

Decennial Returns—The remarkable success and increasing prosperity of the Society have induced the directors, at the last annual investigation, to declare a fourth bonus, varying from 25 to 85 per cent on the premiums paid on each policy effected on the profit scale.

Root Porter.

THIS PORTER, being manufactured from some of the most celebrated Roots of Germany and the United States, acts powerfully as a *Purifier of the Blood*, and is the best CATHOLICON ever discovered for the cure of *DYSPEPSIA*. The most free and liberal use of this beverage, so far from being followed by an unpleasant reaction, tends to restore, regulate and invigorate the nervous system. The most delicate females may partake of it, not only with impunity, but with the most sensible advantage.

The Anti Dyspeptic Root Porter is composed entirely of vegetables, and as a temperance beverage, is not surpassed.

The following Gentlemen have been appointed agents for the sale of the above, and as they will keep a supply constantly on hand, all orders, written or verbal, addressed to them or the Proprietor will be promptly attended to.

The New England
MUTUAL LIFE INSURANCE COMPANY,
BOSTON,

HAVE established an agency in Burlington, Vt., and will grant policies on the Mutual principle, on as favorable terms as any similar institutions in this country or England.

For the better security of the insured, in addition to the amount received for premium, deposit and policies, the company has a guaranty capital of $100,000, one half of which was paid in and safely invested before the company went into operation, and the balance is liable to be called in whenever the business and exigencies of the company shall require it.

The object of this company is to furnish every one an opportunity to make a small annual saving during his life, for the benefit of his family after his decease, without paying any more than is actually required to meet the required expenses and payments of the company. At the expiration of every period of five years, each member is entitled to have his deposits, or so much thereof as remains unappropriated, credited to him on account of his future premiums. He is also entitled to receive back, at the same time three-fourths of the surplus of his premiums over and above what may be requisite to meet the liabilities of the company, to the benefit of the income of which, he will be entitled as long as he remains a member.

SCALE OF ANNUAL PAYMENTS,
FOR EACH HUNDRED DOLLARS.
