TORONTO MARKET REPORT.

Front Street, Corn-Market Square, Toronto, C. W., February 9th, 1858.

There is no change of importance to note in our markets since last week, beyond an improved state of our winter roads. The relief anticipated from this change has but partially been experienced, and although the farmers in the interior are pouring in their supplies very freely, consisting of Spring and mixed Winter Wheat, yet most of those in our own immediate vicinity send every thing else to market rather then accept current rates for their prime white Wheat;—and consequently higher prices have ruled for this latter grade, as also for prime spring, with a very active demand for local and eastern Millers. The road being now good, it is confidently expected that a few weeks more will see them change their mind, and our market will be supplied as abundantly as in former winters. In monetary matters we have no improvement, notwithstanding the reduction of rate of interest in London to 5 per cent, and the plethora of money that appears now to be the only cause of disquietude of our neighbors in the adjoining States.

FLOUR.—There have been considerable sales for spring delivery and prices are firmer, particularly for extras, for which grade also there is a good demand for the Eastern States.

Coarse grain comes in in great abundance, and sells slowly at quotations.

Pressed Hogs in better demand.

In seeds there are several enquiries for the Eastern markets, but as yet there is no stock here. Prices will rule very low, however.

MOFFAT'S LIFE PILLS.—THE HIGH and envied celebrity which this pre-eminent medicine has acquired for its invariable efficacy in al the diseases which it professes to cure, has rendered the usual practice of ostentatious puffing not only unnecessary but unworthy of them. They are known by their fruits; their good works testify for them, and they thrive not by the faith of the credulous. In all cases of costiveness, dyspepsia, bilious and liver affections, piles, rheumatism, fevers and agues, obstinate head aches, and all general derangements of health, these Pills have invariably proved a certain and speedy remedy. A single trial will place the Life Pills beyond the reach of competition in the estimation of every patient.

Dr. Moffat's Phœnix Bitters will be found equally efficacious in all cases of nervous debility, dyspepsia, headache, the sickness incident to females in delicate health, and every kind of weakness of the digestive organs. For sale by Dr. W. B. MOFFAT, 335 Broadway, and by Medicine Dealers and Druggists generally throughout the country.

ANTIPHLOGISTIC SALT.—For One Disease Only! Instead of being a panacea for all maladies, DR. COGGSWELL'S SALT is prescribed for but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, viz SUBDUES INFLAMMATORY DISEASE, whatever be its form or locality, whether in the head, throat, chest, abdomen, extremities, or skin. Inflammation is caused by a partial obstruction of the fluids, and this Salt removes that obstruction and sets the fluids in motion again. Every form of inflammation (but no other disease) is subdued by it as easily as fire is extinguished by water. It is asked, how it does this? Simply by restoring the lost balance between the fluids and solids. It does just what it claims to do—no more, no less—equalizes the circulation.

COMFORT FOR THE AGED.—The *Montreal Transcript*, speaking of *Wistar's Balsam of Wild Cherry*, June 19, says,—"We believe it to be generally recognized as a useful medicine by medical men, and we can state, with perfect truth and sincerity, that in one case with which we are more particularly acquainted—that of an old gentleman, at least eighty years of age, residing a few miles from this city, and who is troubled at times with an asthmatical complaint—the most decided relief is obtained whenever he makes use of the Balsam; this at the advanced period of life which he has arrived at, may be considered an unanswerable proof of its virtues."
