The New-Brighton boat leaves the foot of Liberty-st. at 1 o'clock P.M., landing passengers at the Snug Harbor dock. Interesting exercises by the children, and addresses from the friends of the sailor, may be expected on this occasion. By order of the Board.

New-York Young Men's Christian Association.—At the written request of twelve Active Members of the Association of the Presbyterian denomination a meeting will be held at the Rooms on WEDNESDAY EVENING, (17th instant,) at 7½ o'clock for the purpose of nominating a candidate for the Vice-Presidency from that denomination. The small number present at the meeting first held, and the inclemency of the weather on that evening, are the reasons assigned for this call. F. E. BUTLER, Vice-President.

New-York Conference Missionary Sermon and Anniversary.—The Rev. Dr. HOLDICK will preach the ANNUAL MISSIONARY SERMON before the New-York Conference in the Jane-st. M. E. Church, on TUESDAY, (16th inst., at 11 o'clock A. M. The anniversary will be held in the EVENING, in the same church. Addresses may be expected by the Rev. Dr. NEELY of Alabama; Rev. Dr. DURRIN, Cor. Sec'y Miss. Society; Dr. WILEY, Missionary from China, and the Rev. J. B. HAGANY. The public are cordially invited to attend.

NEW and INDISPENSABLE WORK for MERCHANTS and ACCOUNTANTS.—D. APPLETON & Co., Nos. 346 and 348 Broadway, will Publish on WEDNESDAY,
DELISIER'S INTEREST AND AVERAGE TABLES. A new method comprising accuracy, speed and simplicity, by which the interest on any amount for any period from one day to one year, "can be found at a glance," and for averaging the most intricate accounts in a shorter time, and with fewer figures than by any other system. By E. Delisier, author of the "Bookseller's Discount Ready Reckoner." One volume, oblong, very handsomely printed, the figures in red and black. Price $4. Neatly bound.
The author of these Tables, who is a practical accountant, compiled them for his own convenience, none of the Interest Tables that he had ever used or seen being so arranged as to enable him to find the interest on a given sum without the tedious process of addition; and having found them of great service in his own practice, he has been induced to offer them to the public, for the benefit of others who may have felt the need of a similar convenience. In finding the average of various sums they will be found equally simple, accurate and comprehensive. None of the average tables now in use, so far as the author is aware, afford the means for obtaining the desired result in so simple, direct and reliable a manner. In addition to the obvious simplicity and speed with which results desired by the accountant can be obtained from these Tables, the chances of error are greatly diminished by the very small number of figures necessary in finding interest or averaging accounts; as compared with the best methods now in use the amount of figuring requisite will be found as 1 to 12. It will be seen that the great simplicity has been attained by avoiding the use of long columns of decimals. [Extract from the Preface.
OPINIONS OF EMINENT MERCHANTS, &c.
We, the undersigned, have examined the specimens of DELISIER'S INTEREST AND AVERAGE TABLES, and are of opinion that, from the simplicity of their arrangement, showing at a glance the Interest and Equation of an account,
THEY FAR SURPASS ALL OTHER WORKS
of the kind ever before offered to the public. For the saving of a vast amount of labor, and from the
SIMPLICITY, ACCURACY AND RAPIDITY
with which calculations may be worked out, it is most invaluable. We therefore cordially recommend it to all Merchants and Accountants as a work indispensable to the Counting Room.
