AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of PATENTS.

(Late Agent of the U. S. Patent Office, Washington, under the Act of 1836.)

70 STATE ST., OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers of Drawings of Patents, executed on liberal terms, and with despatch. Research made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, most unequaled by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that in no office of the kind are the chances for procuring patents so great as in that of this. The immense library of Patents, during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full access to the patents granted to the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved to inventors.

Testimonials.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse.

CHAS. MASON," Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE," Late Commissioner of Patents.

"Boston, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications on all but ONE of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part I feel bound to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on the case, and at very reasonable charges.

JOHN TAGGART."

From Sept. 17th, 1857, to June 17th, 1858, the subscriber in course of his large practice, made on twelve rejected appeals, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

ST. JOHNSBURY

ACADEMY OF MUSIC.

THE St. Johnsbury Academy of Music is located in the pleasant Village of St. Johnsbury, Vt., having a special act of incorporation granted by the Legislature of Vermont establishing the school upon a permanent basis. The design of this Institution is to afford the most thorough literary education, at an expense very much less than has been usual where similar advantages could be enjoyed. Very many persons possessing the finest talents have been deterred from studying Music as a profession, on account of the enormous expense which has hitherto attended such a course of study.

The St. Johnsbury Academy of Music offers advantages and facilities of the highest order, at from one-fourth to one-third the expense attending such a course of study, if pursued at Boston or New York. For the benefit of teachers and all others desirous of attaining superior excellence in the science of music, both as performers and theorists, a Collegiate and Normal course is pursued, embracing a period of four years. The first year is devoted to a thorough course of elementary study, using as text books, only the works of the most celebrated masters, which having been thoroughly tested, bear the stamp of superior excellence. Pupils devoting all their time to music usually practice the Piano Organ,—no whatever instrument they may prefer,—from four to six hours per day; practice vocal music from one to two hours; devote one hour to the study of harmony. Each pupil is required to study the Piano sufficiently to accompany well. Pupils in the thorough bass are required to play church music as a daily exercise.

Instrumental music is taught exclusively by private lesson, two lessons per week being the usual allowance. The study of harmony and composition is taught in several classes, with daily recitations. Private lessons are given to advanced pupils in singing. Vocalizing is also taught in several classes with daily recitation.

The Male Principal having been connected with some of the best Bands and Orchestras in New York and Boston a considerable portion of the twelve weeks is prepared to teach all the various BAND and ORCHESTRA instruments.

Besides the various lessons and class exercises to which pupils attend, a Public Rehearsal is given every Saturday afternoon by the pupils, who are all required to attend, and take some part in the exercises, their parents and a few invited guests only, being present. In addition, a Musical Soiree is given twice during each quarter, a large audience being present. The year is divided into four terms of eleven weeks each.

Pupils graduating with honor will be guaranteed good situations as Teachers. The following prizes will be distributed among the graduating classes at the annual commencement which will take place at the close of the full term of each year, (pupils graduating must have completed the full course of study:)

PRIZES.

Piano Forte—1st honor, Gold Medal; 2d do Silver Medal; 3d do Bronze Medal; 4th do Diploma. Organ—1st honor, Gold Medal; 2d do Silver Medal; 3d do Bronze Medal; 4th do Diploma. QUALIFICATIONS FOR MEMBERSHIP.

Pupils to be admitted to the school must possess a good moral character, fair musical ability, and must yield implicit obedience to the laws and regulations of the school.
