UTLEY'S PATENT
SUB-SOIL AND TURN PLOW!

THE above Plow is now on exhibition in this place, and may be seen at Woods & Gilkesons', Staunton, and other convenient places in the County.

This plow has four distinctive features, all of which recommend themselves. The first is the cambination of the Sub soil and Turn Plow, which is entirely new. The second is the manner in which the mould board is attached to the standard, being so arranged as to slide up or down, and may be so placed as to turn the sod, leaving the sub-soil perfectly broken without turning up the clay. The third is the manner in which the Plow is regulated, by means of a rod attached to the landside and beam, which answers the double purpose of Brace and Regulator, by which the depth of the furrow may be fixed without altering the harness. The fourth is the manner in which the Point is attached.—All these distinctive features have been patented by Grey Utley of North Carolina, and must recommend themselves on examination. It is vastly superior to any plow now in use, being arranged to do any kind of plowing the farmer may desire, and taken as a turn Plow equal, if not superior, to any other. It is purely a North Carolina invention. It was awarded the first Premium at the Georgia State Fair, as a Turn Plow; also the First Premium as a Sub-soil Plow; also the First Premium at the State Fair of Alabama.

I own the county rights for the above plow for Augusta, Rockingham and Rockbridge, and am engaged in the manufacture of them at the "Valley Mills," near West View, Augusta county. Orders are solicited.

I respectfully invite all who feel any interest in the improvement of agricultural implements to give us a call and examine our Plow.

FRANCIS F. ROBERTS,
Nov. 15, 1859—tf. West View.

TO THE FARMERS OF AUGUSTA.—From an experience of Twenty years in the manufacture of Plows, I can safely say that the Plow introduced into this county by me, which I have been making for the last fifteen years, known as the *LIVINGSTON COUNTY PLOW,* is the best and cheapest Plow ever used in this County. Although simple in its construction, to work well it must be well gotten up, and I flatter myself that I can furnish the article as cheap, as good, and if experience and success are worth any thing, better than any one who may undertake the manufacture of the article.

I am prepared to furnish Plows, Points and Slides in any quantity, that may be desired, warranting every piece that passes out of my hands; if it is not what it is represented to be, return it to the merchant from whom purchased, and I will bear the loss. Full assortments of Plows, Points and Slides may be found at the following places:

Staunton, at the Wareroom, near the store of Crawford & Cochran.
Soring Hill, U. D. Poe.
Middlebrook, McChesney & Templeton,
Waynesboro', H. M. Darnall & D. Fishburn.
Greenville, at all the Stores.
Mint Spring, Alex. Gardner.

☞ Merchants at other precincts of the County who may wish to have the article, can be supplied on liberal terms either at wholesale or to sell on Commission.

My address is Steele's Tavern, Augusta County Va. SCHUYLER BRADLEY.

G. W. MINNIS'
Photograph and Fine Art Galleries,
No. 197, Main St., **Richmond,** *Oppo. Custom House, and Sycamore Street,* **Petersburg, Va.**

HAVING furnished myself with every facility for getting up pictures of all kinds, in the most artistic style, I feel assured that I can satisfy the most critical taste. I wish the people of Virginia to be advised of the fact—which is not generally known—that at either of my Galleries they can procure any style of picture that can be gotten in New York or any other Northern city. I am taking life-size Photographs which are colored in Oil, by which means a perfect likeness and a most beautiful picture is secured. The same effect can be produced from small Daguerreotypes or Miniatures, which, for effect and durability, equal the best Portraits; small size Photographs, colored in water colors, making a softness and delicacy of finish, highly pleasing; and in Ambrotyping I think I can exhibit specimens which are the very perfection of the Art.
