FINANCIAL AND COMMERCIAL

MONEY AND STOCKS.

New York Financial Market.

NEW YORK, April 15.—Money—On call continues easy at 1 per cent. Closing at 1 per cent.

Prime Mercantile Paper—4@5 per cent.

Bar Silver—107¼.

Foreign Exchange—Is quiet at unchanged quotations; actual business was done at 485¼@487½.

Sale of stocks to-day aggregated 356,488 shares, including the following: Delaware, Lackawanna and Western, 44,800; Kansas and Texas, 12,000; Lake Shore, 29,000; Northwestern, 29,000; New Jersey Central, 6,000; New York Central, 47,000; Pacific Mail, 66,000; St. Paul, 31,400; Union Pacific, 56,800, and Western Union, 17,000.

Government Bonds are quiet and quotations unchanged, except an advance of ½ per cent. for the 4s.

State Securities—Very dull and in some cases quotations are a shade lower.

Railroad Bonds have been active and strong in most cases.

To-day's stock market has been a surprise to almost everyone. The European war news this morning was interpreted as indicating a more peaceful outlook, and the prices at the opening were ½ to ¾ per cent. lower than they closed last evening; and in the early dealings further fractional declines were made, but this was followed after the first fifteen minutes by a reaction in which the Union Pacific and Pacific Mail took the lead, and from that time until the close the market was strong and unusually active as compared with the business of late. At first there were rumors of a favorable character regarding Union Pacific's floating debt, but the point which carried the day was first the declaration of the usual 1¾ per cent. dividend for the current quarter by the Directors of the Pacific Mail Steamship Company, with the official announcement that the company's earnings for the current quarter were at the rate of 6¾ per cent. per annum, and secondly, that a resolution had been adopted by the Pacific Mail Board which it was believed would lead to an amicable settlement of the differences between that company and the Pacific railroads; that a resolution which was presented by Mr. Gould and which was unanimously adopted provides that the Union and Central Pacific Railroads be requested to transfer the business of their trans-Pacific line (the Orientist and Occidental Line, between San Francisco and China) to the Pacific Mail, and enter into a contract with the latter company for a term of ten years, guaranteeing the Pacific Mail against opposition in the China business, in consideration of which the Pacific Mail Company would enter the Transcontinental Pool and co-operate with the railroads between New York and San Francisco. The resolution also provides that all matters should be decided by the commissioners of the transcontinental business, or arbitration. This was interpreted as being extremely favorable, not only to the Pacific Mail, but also to the Union Pacific Mail Company, and the two stocks steadily advanced throughout the day, gaining in each case over 3 percent. The rest of the list simply followed in their wake, and none of the active list is lower to-night, and the advances for the other active stocks were over 1 per cent.

Total sales amounted to 355,897 shares, a gain over yesterday of 195,000 shares. Of to-day's business 32 per cent. consisted of transactions in Union Pacific, Pacific Mail and Lackawanna. It must be remembered, however, that Lackawanna is only what the street calls a half stock—par value of share is only $50, instead of $100, thus making the dealings in Lackawanna, as compared with the other stocks, only 22,000 instead of 44,000 shares. The totals of the eight most active stocks on the list, Union Pacific, Pacific Mail, Lackawanna, St. Paul, Northwestern, Lake Shore, Western Union and Missouri, Kansas and Texas, aggregate 89 per cent of the day's business, and of no other stock did the sales amount to as much as 10,000 shares.

There were numerous rumors circulated during the day regarding the Union Pacific's floating debt, including one that the company had secured $4,000,000 for the purpose of discharging the debt. President Adams, of the Union Pacific, who was to-day in the city, states that the negotiations that the company has been making in regard to the floating debt had not been carried to a point which anything could be made public. He suggested, however, that an obligation having twenty years to run might be much more desirable to the company than a call loan, and also that it was in the power of the company to cancel its floating debt by the sales of securities held by it. He said the company had on hand in cash and cash available $1,500,000, and that the floating debt was never before in as good condition since he became President. Union Pacific stock opened at 48¾, and then persistently advanced throughout the forenoon until it reached 46⅝c. Between 12 and 2 o'clock it was strong and sold up to 46⅞, but at the latter hour was selling at 46½. The final dealings were accompanied by further advance to 47¼, the price closing on a slight reaction at 47⅛.

Pacific Mail opened at 52⅝, sold down to 52¼, and in the remainder of the day rose to 56, closing at 55⅞, a gain of 3 per cent.

It was learned this evening that President Adams, who left this afternoon for Boston, agreed before starting that he would issue to-morrow an official acceptance of the terms as set forth in Gould's resolution.

It is also stated that the three Pacific Companies interested have agreed to a proposal to extend present subsidy arrangement to June, in order to give ample time for a permanent settlement.

At 2 o'clock Western Union was steady at 58⅝. In the last hour it was one of the strongest on the list, and closed at the highest price of the day at 59⅝, a gain of 1¾ per cent. Missouri Pacific is also up 1¾ per cent, at 92½.

The Grangers were prominent for their weakness at the opening, and in the first hour touched the lowest prices that they have reached this week. St. Paul selling at 72¼ and Northwest at 97½. The loss, however, was more than recovered, but Northwest closed this evening unchanged at 98½, after selling at 98¾.

Missouri, Kansas and Texas was very strong, closing at the highest price of the day at 15½, a gain of ¾ per cent.

The market closed with the following prices bid:

COMMERCIAL.

The wholesale markets were quieter than usual yesterday, owing to the stormy weather. Dry goods, however, moved rather freely, considering the unpropitious conditions all round. Groceries were rather slow, but prices were fully maintained. There was a fair demand for cheese, especially choice goods. Butter was about steady. Canned goods are in steady demand, with a good prospect for a rushing business. Eggs and country produce are steady and prices unchanged.

GRAIN.

The Board of Trade circular has the following on the Indianapolis market:

Wheat—Local markets are higher, and all grades are in active demand. Order inquiry is fair. Receipts are light. This not being a speculative market, prices do not fluctuate as at other points. The sudden and marked decline at seaboard and Chicago would indicate that the manipulators of markets at great speculative centers are not always influenced, either by war rumors or alleged failure of crops, or even supply and demand, but bull and bear the market just as, in their judgment, the most wealth accrues. The way of the speculator is part finding out, so the fellow that deals in margins thinks. New York declined 3⅜c; Baltimore 1½c, and Chicago 3¼c from the quotations of the previous day.

Corn—The activity in local circles still continues, and prices are about in the same position as yesterday. Receipts are light, with a good demand from interior points. Futures are dull. New York is 2⅝c off; Baltimore 1c, and Chicago 2c.

Oats—Firm and scarce. All grades are in good demand. Futures are not wanted.

The following table shows the receipts of grain at this point for the past twenty-four hours:
