When Truth is unfolded, people wonder that they have not recognized it before. So it is with the revelations in this work. No person who has read it fails to perceive the sincerity of the author in exposing the mode in which the masses are ruled at the Elections, and in warning her countrymen against the dangers of Jesuitism—political and ecclesiastical. A rare knowledge of human nature is displayed in the work—each scene of the romance being accompanied by a political moral of no mean significance to every true American mind.

The Hartford Daily Content—one of the oldest journals in the United States—in reviewing this remarkable work, says:

"It will have a prodigious sale, standing as it does to the new political party as 'Uncle Tom's Cabin' did to the Anti-Slavery party. It is ably and powerfully written."

Published by STRINGER & TOWNSEND, No. 222 Broadway, New-York. And for sale by all Booksellers and News-Agents.

In Press:
THE MEMOIRS OF JAMES GORDON BENNETT, AND HIS TIMES. BY A JOURNALIST.
This Work gives a complete Panoramic View of Public Events and Newspaper Literature for the past thirty-five years. Its pages are characterized by a spirit of candor and justice that will command the admiration of its readers, while the views entertained with respect to the facts recorded will show that Journalism, up to the present time, has been only in a transition state in this country.
The true character of the principal subject of the work is now, for the first time, made known to the public by one who can not be charged with any bias of friendship or prejudice against THE LEADING JOURNALIST OF THE UNITED STATES.
It is a work, in brief, that every man will desire to read, alike for its valuable thoughts, its important facts, and its design to establish Journalism as a dignified profession.

Part II.—Systematic Botany; to which is added, A COMPENDIOUS FLORA of the Northern States; with descriptions of more than 1,900 different species. By Joseph W. Comstock. PART I finished separately. Price 75 cents. PART I and II bound together in cloth, $1 50.
Extract from the Author's Preface.
"Having been for several years a Teacher of Botany, I have had considerable opportunity of experimenting on the happiest means of imparting this delightful science. The importance of Pictorial illustrations systematically combined with regular exercises, early suggested itself. A new system of teaching was thence wrought, out consisting of a set of diagrams made to illustrate Oral Lessons, and the plan was eminently successful. These Lessons and Diagrams are reproduced in the present work, with such extensions and improvements as the wants of the times demand. The illustrations are presented to the eye in large groups and are either immediately, or very nearly associated with the corresponding portions of the Text. They are designed to be used as regular exercises for study and recitation, the same as maps in Geography. They are, in fact, but a recapitulation of the text in another form; and thus, while they repeat the idea, they also give a pleasing variety to the lessons, and appealing from the eye to the mind, and the reverse, they awaken the most lively associations, tending to fix the impressions in the memory."

THE MOST SUCCESSFUL AMERICAN BOOK: RUTH HALL: A DOMESTIC TALE OF THE PRESENT TIME. BY FANNY FERN. 400 pp., 12mo. Cloth. Price, $1 25.
It has been reserved to this distinguished authoress to achieve what may, under the circumstances, be regarded as the most brilliant success ever obtained by an American writer of fiction. "RUTH HALL," her first continuous story, though deriving no interest or popularity from connection with any of those vexed questions which agitate the public mind, has, in the two months since its first appearance, reached a greatly larger sale than any other American work of fiction whatever within the same period. This extraordinary fact is, of itself, abundant evidence of the absorbing interest and graphic power of this remarkable work. We have in our possession several hundred reviews of "RUTH HALL," which have already appeared in the principal newspapers and periodicals. Nearly all of these pronounce it emphatically a work of genius, many predicting for it the largest sale of any American book, and devoting whole columns to its eulogism, while we have yet seen but a very few (not twelve in all) which deny its singular fascination.
"RUTH HALL" is for sale by Booksellers generally.
