Home of the Olive Tree.

The olive tree will not bear a temperature below 21 deg. or 22 deg. Fahrenheit, and can not be grown in Europe above the latitude of 46 deg. There was an olive orchard in the vicinity of Marseilles which had brought to the owner an income of 10,000 francs in a single year, and seemed likely to do so again in the autum of 1792, when one night the mercury went down to 10 deg below freezing, and in the morning all hope of a harvest was gone.

The localities in Italy where the olive grows best are Sicily, Calabria, the Abruzzi, Puglia, Lucca and the Riviera. The best table oil exported to America is from the province of Lucca. The olives prepared for eating come from Spain, those of Italy being inferior for this use, although eaten by the lower classes. The olives of the plain yield more fruit than those of the hills, but the oil is less delicate. A gentle slope, well sheltered from cold winds, is the most favorable situation. In moderate climates the exposure should be to the east; in warmer ones to the west and north, while on the utmost northern limit only a full southern exposure will content the tree. It prefers a dry and rather stiff soil; the fat plain makes it corpulent and short lived.

One hundred kilograms of olives freshly picked from trees in good condition ought to return a fifth of their weight in virgin oil.

As an article of food, oil has a most important place. The Italian workman finds bread and oil and wine an ample mid-day meal; if he can add thereto a salad or an onion, it is a feast. In the cuisine of Southern Italy oil takes the place of butter, and is by many considered more healthful than any animal grease.

Odds and Ends.

Erastrus Wiman, worth $2,000,000, began work on a farm at 50 cents a week.

The Crown Princes, of Denmark is the tallest Princes in the world. Her height is announced to be 6 feet 3 inches.

Young Grant, Allan Arthur and one o the Garfield boys met the other day in Philadelphia. Neither knew the other by sight.

The insanity which has clouded the intellect of John Ruskin is a sad ending to the life of one who has exercised such an influence on art and literature.

Mrs. John G. Curtis, a well known New York lady, has organized an orchestra among members of poor families and gives entertainments for charitable purposes.

In a personal letter to a friend Archbishop Corrigan, says the New York *Sun*, who is now in Europe, told recently of the great enjoyment with which he witnessed the performance of the *Passion Play* at Oberammergau.

Mrs. M. Edith Howcott of New Orleans probably owns more real estate than any other Southern woman. She has in her own right over 50,000 acres of selected timber lands in Louisiana and Mississippi, and is still buying.

The young Countess de Biron, *née* De Lesseps, drives about Paris in her $1,800 victoria, dressed in white paneled silk with hand-painted flowers. The white parasol she carries in the Bois is white net gathered over a gilded frame and ornamented with a Dresden china handle, the cost of which would pay for a whole tea set.

OLD RELIABLE

DRUG STORE

116 S. MAIN STREET.,

Adjoining Grand Opera House.

Will, from today, and hereafter conduct their drug business on the same basis as that which obtains in the conduct of other mercantile pursuits, viz: On as close a margin of profit as pure and genuine goods can be be handled. Every article in our varied and complete stock of drugs, druggists' sundries and fancy goods, bears a corresponding reduction in price. Prescription filling a specialty. MEDICAL.

CONSUMPTION

Can be Cured.

THE ABOVE ASSERTION IS BEING VERIfied every week by those who are being treated by M. Hilton Williams with his Medical Inhalations and the Compound Oxygen Treatment for diseases of the head, throat and chest.

Patients come from all parts of the country for treatment, as will be seen by the following tables:

September 1st, out of the 390 patients then under treatment, were from the following states and in Los Angeles, 97; Los Angeles county, 56; California outside Los Angeles city and county, 120; Oregon, 20; Washington, 10; Arizona, 25; Minnesota, 3; New York, 6; Illinois, 4; Texas, 10; Missouri, 15; Canada, 10; England, 2; Australia, 1; Kansas, 5; Indiana, 3; Michigan, 2; Nevada 1. Total, 390.

Occupation as follows, viz:

Ministers, 25; lawyers, 40; bankers, 14; farmers, 90; musicians (vocal) 30; musicians, (instrumental) 20; doctors, 20; tailors, 14; miners, 30; railroad, 19; students, 13; teachers, 25; laundrymen, 6; real estate agents, 15; bakers 5; ex-soldiers, 4; others, 20. Total, 390.

By the employment of proper inhalations in the form of medicated vapor (not steam or spray) we are able to produce immediate and direct action upon the diseased surface in the pharynx and the nasal passages, for air will find its way into the remotest and intricate cavities, where it is utterly impossible to make fluid applications. By these means nearly every case of catarrh, throat diseases, bronchitis and the early stages of consumption can be permanently cured.

Persons desiring treatment by this system of practice can use the remedies at home as well as at our office, and which will cause no inconvenience or hindrance from business whatever.

I have seen so many of these cases cured that I do not consider any case hopeless unless both lungs are seriously involved. Even then the Compound Oxygen and other inhalations aid us in dissolving the mucus and in contracting and healing the cavities, which nothing else can do with the same success.

The very best references from those already cured.
