FINANCIAL AND COMMERCIAL.

MONEY AND STOCKS.

New York Financial Market.

NEW YORK, May 2.—Money—On call continues easy at 1 per cent, closing at 1 per cent.

Prime Mercantile Paper—4@5 per cent.

Bar Silver—108⅞.

Foreign Exchange—Quotations are unchanged; actual business is done at 486@488; there is very little business doing.

The sales of stock to-day aggregated 112,159 shares, including the following: Delaware, Lackawanna and Western, 11,800 shares; Northwestern, 9,200 shares; New York Central, 10,400 shares; Pacific Mail, 5,600 shares; St. Paul, 18,400 shares; Union Pacific, 8,900 shares; Western Union, 6,400 shares.

Government Bonds—Have been quiet and strong; the 4's advanced ½ per cent., while the 3's yielded to 102⅝ bid, at which sales were made; other quotations unchanged.

State Bonds—Have been very quiet and quotations are generally about steady.

Notwithstanding the extreme dullness in the stock market, railroad bonds continue quite active, the total sales to-day being $1,246,000. The business was not so well distributed, however, as for some time past, and there was large trading in Metropolitan Elevated seconds, Missouri Pacific firsts, Erie seconds new and some of the Missouri, Kansas and Texas issues. The sales of Erie seconds now amounted to $340,000. The fluctuations for the most active issues, however, were not wide, and prices this evening of the bonds traded in are irregular.

The week closed at the Stock Exchange to-day without any material change in the situation. The stock market continues very dull, but at the same time it is very firmly held. The advocates of higher prices in the near futures insist that the stocks are nearly all loaded in strong hands, making it practically impossible for the bears to shake out any considerable amount by their hammering process. Prices were a shade lower this morning on a renewed attack by the bears upon the whole list, but declines were very small, and during the remainder of the day the market continued dull and strong, until late in the afternoon, when it yielded a fraction, but closed firm at the decline. Some idea of the extreme listlessness of the market may be obtained from the fact that only two of the usually active stocks showed extreme fluctuations of 1 per cent., the two stocks mentioned being New York Central and St. Paul, each of which was traded in within a range of ⅝ per cent. The dullness is indicated by the statement that the sales amounted to only 112,200 shares, only one stock—St. Paul—with 18,100 shares, showing a business for the day amounting to as much as 18,000 shares, and 50 per cent. of the business was confined to five of the usually most active stocks. The result of the late decline left most of the active stocks a shade lower than last evening, but the differences are only ⅛ to ⅝ per cent. Union Pacific and Missouri Pacific made net gains of ⅛.

Some of the leading bull operators claim to have been letting the market alone, simply to demonstrate its inherent strength. There is renewed talk of an effort to induce Union Pacific directors to resume dividends on July 1. The total sales of the week have amounted to only 755,000 shares, a decrease of 550,000 shares. The changes in prices as compared with last Saturday are unimportant, being in most cases for less than 1 per cent.

Produce Markets.

CHICAGO, May 2.—The war feeling on 'Change appeared to have very generally collapsed or at least was very sensibly lessened at the opening of trading, as was illustrated in the extreme desire of some of the purchasers of the two preceding days to unload. The advance in consols and Russian securities emphasized this feeling. The lowest prices, however, were current early in the session and after that a strong feeling prevailed on all of the cereals and the closing was well up to the closing quotations of yesterday. In wheat the crop news continues unsatisfactory, which fact contributed toward sustaining the market, though but little attention has been paid to the subject in the face of the war news. Receipts continue, and another large decrease in the visible supply is counted upon. The market closed about ⅝c under yesterday, though at one time it was 1c lower. Corn was weak early, but recovered all of the decline and closed higher than yesterday. May options showing the greatest strength. Oats ruled steady, with a fair demand. Provisions generally were weak and lower. Flour quiet and unchanged. Wheat—Fairly active and feeling unsettled owing to the pacific tenor of the cable news.
