INITIALS!—A LOVE STORY—THE INITIALS. EQUAL TO WALER SCOTT'S NOVELS.
Read what The Boston Olive Branch, of Feb. 24, says of it, in their editorial columns:
"This is one of the most charming books of the day, and we think it must fascinate all lovers of good stories. It is a romance of German life, and gives graphic pictures of the homes and resorts of that country. The author is an English lady of high rank, but a long residence in Germany has enabled her to portray the manners and customs of the people with great fidelity and skill. Many of the characters are studies. Hildegarde is certainly one of the most attractive persons we have found in any modern fiction; so beautiful, so true, so self reliant, she forms a striking contrast to the susceptible, sensitive, and coquettish Cecrena. Madam Rosenberg the officious, scheming step-mother; Major Grutte, bending over his beer and endeavoring to keep up with his young bride elect, in the tedious ascent of the mountains; Count Zedmitz, with his manly for the water cure; the two boys, playing their mischievous pranks, and Hamilton, the hero, are no ordinary portraitures. The narrative is full of incident, and the interest admirably sustained, from beginning to end. The book has passed through several editions in England, and will no doubt be extensively circulated here. We are happy to see it in the neat and permanent form in which Mr. Peterson has issued it."
Complete in two volumes; paper cover; price One Dollar; or bound in one volume, cloth, for One Dollar and Twenty-five Cents a copy.

SATIRE AND SATIRISTS.—On SATURDAY, March 3: SATIRE AND SATIRISTS. By James Hannay, author of "Singleton Fontenoy." 12-mo. Cloth, 75 cents.
"Written in an animated, terse and vigorous style, and conveys faithful images of the men of whom he treats, with sufficient local coloring to give to his sketches the character of the age in which they lived. The author is a true lover of letters, and has great power in discriminating between the different hues of genius of the great men with whom he deals, in deducing their time character from a word or a phrase, which would escape the notice of a man of less fine perception, and in fixing on a firm basis the general value admiration which it is the critic's business to render well-defined and stable." [Westminster Review.
"A most pleasing and agreeable book. Mr Hannay treats his subject in the best light, not philosophically or in the way of definition, but historically and dictorially. A fine appreciation and sympathy run through the entire volume." [Putnam's Monthly, Nov., 1854.

FOOTSTEPS OF ST. PAUL. By the author of the "Morning and Night Watches," &c. 12mo. $1.
"The very title of the book is suggestive of all that could be desired for, in one's yearnings after an intimate acquaintance with the movements of so interesting, so extraordinary a personage. It is a work without compare, either as to the character, amount, or arrangements of the material, which, gathered from all available sources, is yet so lucidly arranged and well combined as to form a unique exposition of the many phases in which the history may be viewed; affording at the same time the vivid imagery that might have been anticipated in one who had himself mingled in the scenes described. As a typographical work it possesses great merit. . . . The narrative throughout presents a brilliant and enrapturing chain of incidents made illustrative of the youth the scholarship, the persecution, the conversion, the flight, and missionary and apostolic labors of the St. Paul. . . . Its perusal itself is a journey to the Orient. Thus we find ourselves approaching with St. Paul, not only the City of Cæsarea, but by the aid of pictorial illustration and description here presented, are struck with its greatness and grandeur—seeing, as we do, the temple of Sebastenum perched on a lofty rock at the entrance of the port, seeing as we must, with satisfaction at the protection afforded from the terrible westerly winds that sweep along the coast and wondering at the enormous labor which changed a little fishing town into a great capital. Then we visit Malta and take its soundings. . . . The Syrian shores are green to us under an eastern moonlight. . . . Athens the eye of Greece. . . . Corinth supplied by nature with noble fortifications; and Ephesus, at once near the point where Hermus and Meander empty their waters in the Ægean, with other spots visited, are thrown open to our gaze. The work is both an intellectual and a spiritual luxury; tracing St. Paul from his student life at the University at Tarsus, to his prison life at Rome, and closing with but the gate of the seven hilled city." [Churchman.
"The simple and beautiful style in which this work is written, the graceful and eloquent reflections which the subject here and there suggests, the minuteness of detail, and the solidity impression it is calculated to produce upon the mind of the reader, all combine to render it one of the most interesting and useful works of the season." [Buffalo Express.
"In all respects it is a very beautiful and very useful volume." [N. Y. Observer.
"The Carters publish a multitude of good books, but, unless we greatly mistake, this will be reckoned among the best of them." [Puritan Recorder.
"Not only a readable but a highly satisfactory book." [Western Christian Advocate.
"In this attractive volume the reader will find instructive and highly interesting sketches of the soul-stirring scenes and events which marked the life of the Apostle Paul. It is a valuable book for young men and youth, happily designed to bring their minds into communion with a man endowed with the highest attributes of intellectual power, controlled by truth and divine benevolence making him the greatest human benefactor known to history. It is printed in handsome style and illustrated with two maps and a series of wood engravings." [Christian Observer.
"The 'Footsteps of St. Paul' is the title of an able and instructive work, presenting a consecutive history of the life, labors and teachings of the great Apostle. It interweaves in the narrative all the direct disclosures of the Acts, the incidental intimations of the Epistles, all the outside information extant, and many conjectural statements derived from a comparison of different parts of Scripture. So much has been done in this field that the author, in merely gleaning and methodizing what exists, has made a good work. But he has written it in an animated and graphic style, and imbued it with a fine spirit. It leaves a strong impression on the reader's mind. It is copiously illustrated with maps and engravings, and is every way a scholarly performance." [Evangelist.
"From the dramatic way in which the narrative is developed the work derives great value as a text book for the Bible Class teacher, as well as for the student." [Episcopal Recorder.
