That they are required to surrender the same at the office of the undersigned, at Lansing, on or before the 12th day of August next ensuing, for adjustment agreeable to the provisions of said Act. The rate of such adjustment will be in accordance with the 8th section of the Act numbered 173, approved April 1, 1846, (herewith annexed.) The new bonds to be issued in the adjustment of those above described will contain a clause entitling the holder to any and all claims the State may have against the United States Bank, and the Morris Canal and Banking Company, or their legal representatives, growing out of the negotiation of the Five Million Loan Bonds; and each new bonds, when issued, will be made payable in New York, both as to principal and interest, and will be made redeemable at the time fixed for the maturity of the original part-paid bonds. The interest on said new bonds will be paid semi annually, on the first day of July and January of each year, until the maturity of said bonds, or the redemption of the principal. After the expiration of said 12th of August, the interest on all the class of bonds, remaining outstanding or unadjusted, will cease. S. M. HOLMES, State Treasurer.

COPY OF SEC. 2 OF THE ACT RELATING TO THE SURRENDER OF BONDS. APPROVED FEB. 12, 1855.

SECTION 2. All holders of that class of State Bonds for which new bonds are directed to be issued by section eight of Act numbered 173 of the session laws for the year 1849, entitled an Act to provide for the funding the outstanding Internal Improvement Warrants of this State, and the interest due thereon, and also for liquidating and funding the amount of principal and interest actually due upon the part-paid, Five Million Loan Bonds, are hereby required within six months, from and after the passage of this Act, to present any bonds of this State, held by them, at the State Treasurer's Office, for the purpose of having the amount due thereon accurately ascertained, and new bonds issued therefor, according to the provisions of said Act; and, in case they fail so to present said bonds within the time herein prescribed, no interest shall be allowed on said bonds to the holder or holders thereof, after that time, so that the same may not be in any manner incorporated into said new bond, so to be issued as a part of the principal sum thereof, and the State Treasurer is hereby authorized to give all reasonable and proper notice of the provisions of this Act, so as best to secure the object hereby contemplated.

COPY OF SEC. 8 OF THE ACT RELATING TO THE RATES OF ADJUSTMENT OF THE PART-PAID BONDS. APPROVED APRIL 1, 1848.

SECTION 8. That, upon the surrender at the Treasury of this State of any of the said part-paid Five Million Loan Bonds still outstanding, the holder of the same shall be entitled to receive from the Governor of this State certificates of stock for bonds, at the rate of four hundred and three dollars and eighty-eight cents on each one thousand dollars of said bonds, for principal and interest due thereon, the first day of January, eighteen hundred and forty-six, and adding for subsequent interest, at the rate of six per cent. per annum, on three hundred and two dollars and seventy-three cents, for each thousand dollars of said bonds, to be computed up to the first day of January next, after the surrender thereof. *Provided*, The Coupons since July, eighteen hundred and forty-one, shall remain attached thereto:

Provided, further, That, in case any of the Coupons falling due on any of the said bonds, between the first day of July, eighteen hundred and forty-one, and the maturity of the bond or bonds, shall not be delivered to the State Treasurer, with the bonds to which they belonged, there shall be deducted from the amount authorized to be issued in new bonds, under the preceding section, the sum of nine dollars and eighty cents for each Coupon removed from a bond of one thousand dollars, and twenty-seven dollars and twenty-four cents for each Coupon removed from a bond of three thousand dollars.

$1,000,000 BONDS of the VIRGINIA AND TENNESSEE RAILROAD COMPANY—Proposals will be received for the whole or any part of the above issue of Bonds. They are dated July 1 1854, and payable to bearer in the city of New York, on June 30, 1884, with interest Coupons attached, at the rate of 6 per cent. per annum, payable semi-annually, at the Bank of America, on the 1st of January and July of each year, and one half their amount convertible into the stock of the company, at the option of the holder.

These bonds are issued under the full authority of the stockholders, for the purpose of finishing and equipping the road, and they are secured by a second mortgage on the road, with all the real estate, fixtures, and equipments, franchises appurtenances, and privileges appertaining thereto. The first and prior mortgage is for $1,500,000, of which $1,100,000 was taken by the State of Virginia, on the following very advantageous terms: 6 per cent interest and the principal to be liquidated by payments annually of one per cent. for 34 years, commencing on July 1, 1853. The remaining $400,000 were sold at par.

The capital of the company is $3,000,000, three-fifths of which is held by the State of Virginia, and the whole amount paid in is $2,575,100.

The length of the road, from the City of Lynchburg to the Tennessee line, is 204 miles, of which 196 are entirely finished and in operation. The remaining 60 miles require only $215,000 to complete them, and ten months' labor is only necessary to put the entire road into full operation. There has been expended on the road about $5,000,000 in construction, rolling stock, and expenses, a sum double the amount of both mortgages, which together do not exceed $13,000 per mile of road. The road forms a link in the chain of roads which are to become probably the most important route in the Union, giving an almost straight line from the Northern and Eastern cities, to those on the Gulf of Mexico and the Mississippi, shortening the distance more than 300 miles, and there is but one more link to be finished to afford a continuous railroad transportation from the City of Washington to Montgomery, Ala. But independent of this travel that will come to it as a part of the great South and North Line, the Virginia and Tennessee Railroad has a certain local business of its own, which is clearly ascertained by the earnings of last year, with only 85 miles open, ($163,929 79,) as being sufficient of itself to support the road. It passes almost its whole length through a region abounding with a variety of minerals of the most valuable nature, such as lead, coal, iron, copper, salt and gypsum, all of which exist in great abundance, which have been hitherto neglected, but which are fast being developed now that they can be conveyed to market. In short the prospects of the road are most flattering, and fostered as it has been by the State, and supplied generally by the people of Virginia, with so large a cash capital actually paid in, it is believed no security has been rec
