THE TRUSTEES of the Shreveport University are pleased to announce that Prof. GEO. E. THATCHER will continue in charge of this institution.

The Board are encouraged by the success of the past session and by public approbation everywhere freely expressed, to believe that they have met a want of community at the right time and in the right place. And they confidently assure the public that no pains will be spared to afford educational facilities equal to those of any part of the country.

In a suit originating in the United States Circuit Court, Chief Justice Chase decides as follows:

The government of Virginia organized at Wheeling has been recognized by the United States as the rightful government of the State, after all organized resistance to national authority had ceased in Virginia; that the government was established by undisputed exercise of its authority at Richmond; that the government thus established, when the insurgents of Virginia were dispersed by the superior force of the United States, the civil authority did not necessarily cease at once to exist, being de facto, was charged with the duty of maintaining order until superceded by the regular government. The Common Council of Harrisonburg, though elected under the insurgent government, remained charged with the government of the town notwithstanding the temporary occupation of the place by the United States forces. It might have been superceded, for the United States Government was not bound to recognize any authority which originated with the rebel Government, but it is not superceded. The Mayor of the Common Council, therefore, exercising the authority derived from election, and not by virtue of a military order, has not the right to remove a suit from a State to a Federal court when that suit has been brought for an alleged false imprisonment and malicious prosecution, their own when charged to have been committed by them in the discharge of their municipal duties. The case remanded to the State Courts.
