FELLOWS' Compound SYRUP OF HYPO-PHOS-PHITES

THE PROMOTER AND PERFECTOR OF ASSIMILATION.

THE REFORMER AND VITALIZER OF THE BLOOD.

THE PRODUCER AND INVIGORATOR OF NERVE AND MUSCLE.

THE BUILDER AND SUPPORTER OF BRAIN POWER.

FELLOWS' COMPOUND SYRUP OF HYPO-PHOS-PHITES

Is composed of ingredients identical with those which constitute Healthy Blood, Muscle and Nerve, and Brain Substance, upon which Life itself is directly dependant upon some of them.

By increasing Nervous and Muscular Vigor, it will cure Dyspepsia, feeble or interrupted action of the Heart and Palpitation, Weakness of Intellect caused by grief, worry, overtaxed or irregular habits, Bronchitis, Congestion of the Lungs.

It cures Asthma, Neuralgia, Whooping Cough, Nervousness, and is a most wonderful adjunct to other remedies in sustaining life during the process of Diphtheria.

The expenditure of brain power too early or too severely in children often results in physical debility; the use of Fellows' Hypophosphites exerts a singularly happy effect in such cases.

Do not be deceived by remedies bearing a similar name; no other preparation is a substitute for this under any circumstances. jeltuSAW

YOU KNOW

The best evidence of a physician's success is the testimony of his patients. The increasing demands for my professional services prove that I have dealt honestly and fairly with those who have consulted me. I never use a patient's name without permission, though I have many hundred certificates from those whom I have cured after they had been pronounced incurable. A thorough medical education, with many years hospital experience and familiarity with therapeutic agents, a close observance of temperamental peculiarities and strict attention to hygienic management, insures success, if cure is possible, and I frankly give the patient my opinion.

OUR SHORT CREEK LETTER.

Crop Prospects—Wheat Ripening for the Harvest—Road Drawbacks—Sound Advice to the Farmers on that Subject—Personal Notes.

SHORT CREEK, W. VA., June 22.

Correspondence of the Intelligencer.

The continued showery weather we are having, in connection with warm weather, induces a rank growth of vegetation.

Harvest is nearly upon up us and corn has not received its second plowing. It seems to be a race between the weeds and the corn; both are growing rapidly. The older farmers tell us that weedy land is best for corn, as it necessitates frequent culture. If we had no weeds in our hoed crops few farmers would give them as much cultivation as is needed. Thus we learn that even weeds are a "blessing in disguise" and the old prediction respecting the earth "that thorns and thistles it shall produce for man's sake" is fully verified.

The potato crop is variable. Some that were planted during the hot, dry weather in May failed to come up well. The bugs are plenty and troublesome, but are kept down by picking off the old ones and using Paris green. The recent rains have destroyed many of them.

Wheat, which has been showing heads since the middle of May, is now nearly ripe. Several fields in the neighborhood will be cut and in shock within the next ten days.

The oats and barley crop will be an average one. They have both become an important crop, as the yield is larger than corn, and requires more labor to produce them.

The continued rainy spell has caused the roads to be almost impassible, if not entirely so, and this is one of the greatest drawbacks to this Short Creek region. The farmers are beginning to see the great advantage of a good road, and the advantage the farmers living on the pike have. There is sufficient money spent every year to make a permanent improvement that is now scattered in improvements of a temporary character. It is time to abandon the old system of road making, such as piling in the roadway with soft earth. It is a silly waste in any locality. Some penny wise economist will say stone roads are too expensive in construction to allow them to be made in farming districts. Not so! Dirt roads are too expensive—not in the making, but in the use. Soft earth for road mending or road making is but a poor makeshift. It is never good except in the dry weather of summer or when frozen in the winter. Interminable repairs are constantly needed and if made with the same material they are thrown away. Why not abandon the senseless method, particularly in this rich farming district, where stone can be had for the hauling. A good stone road will last twenty years, and ten to one will be more serviceable every day than the ordinary dirt road at its best. What is wanted is a good beginning. Start with stone and when they are well beaten down they will constitute the convincing argument in favor of continuing the work. When will the start be made?

The young people of the neighborhood organized a Sunday School at the Highland school house Sunday afternoon last. This is a movement in the right direction.

Miss Maggie Pogue and Ella Hopkins, of Wheeling, who have been visiting friends in the neighborhood for the past two weeks, have returned home.

Miss Kate McCulloch, of this neighborhood, has returned home from a three month's visit among friends at Parkersburg, W. Va.

ALWYN.

Immigration and Labor.

Chicago Tribune.

The unprecedented immigration to this country in the last eleven months has as yet caused no disturbance in the labor markets; but it must inevitably do so if it continues at the same rate. During the month of May alone 117,482 persons arrived in this country with the intention of settling, and the whole number for eleven months was 564,204. The capacity of the country for assimilating so enormous an influx of foreigners year after year may well be questioned. It has up to this time responded to every test, but it has never before been tested in so severe a manner. Unquestionably it would be better for the country at large to have the immigration come more regularly and slowly; but this is not a movement at all subject to the control of the National Government. Immigration is promoted, so far as it is affected at all by public agencies, by representatives of the several States, each of whom spreads before the foreigner a catalogue of the attractions of his State in an alluring shape. But undoubtedly the main cause of the abnormal immigration has been the private aid extended by naturalized American citizens to their relatives and friends abroad. Nothing can check the supply from this source except business depression, or possibly some sudden lowering of wages following upon the great addition to the supply of skilled and unskilled workmen. We have not the exact figures at hand, but in a general way it is known that the proportion of skilled to unskilled laborers is larger than ever before, and the immigrants are better provided with money than in years past.

"Skin Diseases" Cured by Dr. Swayne's Ointment.

What is more distressing than an obstinate skin disease, and why persons should suffer a single hour when they have a sure cure in "Swayne's Ointment" is past our comprehension. The worst case of Tetter, Itch, Salt Rheum, or that annoying complaint, Itching Piles, yield to its wonderful all healing qualities. Pimples on the Face and Blotches on the Skin are removed by using this healing Ointment. Perfectly safe and harmless, even on the most tender infant.

Itching Piles

is one of the most annoying diseases in the world, and yet all can find sure relief by the use of DR. SWAYNE'S OINTMENT. It has been tested in thousands of instances and invariably makes a sure cure. The symptoms are moisture, like perspiration, intense itching, increased by scratching, very distressing, particularly at night, as if pin worms were crawling in and about the rectum; the private parts are sometimes effected. Reader, if you are suffering from this distressing complaint, or tetter, itch, scald head, ringworm, barber's itch, any crusty, scaly skin eruptions, use Dr. Swayne's Ointment and be cured.

L. Taylor, Hinsdale, N. H, writes: "For thirty years I have been greatly troubled with Itching Piles; have consulted many remedies, which proved to me no remedies at all, until I obtained Dr. Swayne's Ointment at Thomas' drug store in Brattleboro, Vt., which cured me completely. Swayne's Ointment is sold by all druggists. TTHSAW

FRED. AMOS, Tyler street, Rochester, writes: "Your SPRING BLOSSOM is wonderful; I never used anything that acted so well on the bowels, and at the same time was so free from the drastic properties of medicines usually sold for the
